Campaigners Of Normal School And O. A. C. Meet

Oregon Normal School, Apr. 22.—One of the most enjoyable events of the normal school year took place last Saturday afternoon and evening when the members of the Better O. N. S. committee invited the similar committees from O. A. C. to meet with them and talk over further plans for campaigning in the interest of the millage bill in which the state schools are all so vitally interested. After the afternoon spent in the conference the guests were entertained at dinner at the dormitory. Every table was filled and real O. N. S. spirit was displayed in the speeches and clever songs accompanying the more substantial parts of the dinner.

Woman 80 Years Old Says she owes her wonderful health to Vinol, our Cod Liver and Iron Tonic.

Wooster, O.—"The grippe left me in a weakened, run-down condition. Doctors had given me their best tonics without effect. As I have depended on Vinol to build me up every spring for the past nine years with such good results, I tried it. My appetite improved, my strength came back so I am not only taking care of my household duties, but direct the management of two large farms. I tell all my friends to use Vinol when they need strength."—MRS. MARTHA SICKLES.

Wardens Wear the Fes in Red

Wardens wear the fes in red in most cases. The students and I believe it is the trend in the world. KEEP BEES!

If you own an orchard you must have bees if you would secure the largest crops of the most perfect fruits, as proper pollination is essential for best development and bees are the only dependable pollenizing agents.

SEED POTATOES

Why is it that a market gardener always buys his seeds at a regular seed store? You never see him buying from a second hand store or a junk shop or a drug store, etc.

for they seem to be a pretty hard crowd.
Ivral Spirit Described
You spoke of having an argument with an Englishman. Did you know that it is one of the first instincts of an American sailor to pick a fight with a "femon peiter"? They probably have something similar to that in their code of honor concerning the Yanks. At any rate there seems to be a mutually accepted form of conversation to produce that result. I would not give you any of the details of that conversation, because it contains words peculiar to sailor men probably not contained in your vocabulary.
Well I hear rain drops so I will have to close and go wake up the anchor watch so he can cover the hatches.

I. W. W. And Mine Guards Clash In Butte Disorder

Butte, Mont., April 22.—Clashes between mine guards and I. W. W. pickets marked the opening of the third day of the strike called Sunday night by the I. W. W. for higher wages, a six hour day and the release of political prisoners. In other respects the situation is the same as yesterday. No ore is hoisted by the mines of the district, but the various companies are able to keep their pumps going and to otherwise protect their properties. Practically no miners got through the lines of picketers this morning but engineers and pump men reported in sufficient numbers to prevent the mines from being flooded. No arrests were made by either county or city officers. A mob of 200 men paraded the streets without restraint.
