GAIN WEIGHT AND STRENGTH With Bitro-Phosphate on \$300 Guarantee

New York. If you are feeling run down, weak, nervous, tired in the morning, and generally ailing, these are the symptoms that should warn you to take care of your health. Four persons in every ten are need for more phosphorus in their bodies. When you see thin and frail people or those who are anaemic, pale, frail, oft dependent or lacking in energy, you may look for the need of certain elements that make for a strong constitution.

Some people, after relying upon preparations composed chiefly of salts, quinine, drastic drugs, iron, cod liver oil, etc., wonder why they find no benefit. That is easily explained by the fact that such persons need the phosphoric element, which is a most potent essential to health, and contained in BITRO-PHOSPHATE, the famous health preparation. Now obtainable everywhere.

The right thing for you to do is make a trial of BITRO-PHOSPHATE beginning at once. It is not a patent medicine; the formula is prescribed by many physicians for the ailments and weaknesses mentioned above.

With every box of BITRO-PHOSPHATE, are a few simple health rules and a \$300 guarantee. Buy a box of BITRO-PHOSPHATE. It is sold and recommended by all good druggists everywhere.

been replaced by the Royal Canadian Mounted police. Most of the men of the old order have been taken over into the new organization. Thus passes the famous Royal Northwest Mounted Police—the pride of Canada and the peer of the world's frontier organizations for enforcement of law and order. The Dawson News said editorially, "Rugged and romantic characters, men of iron nerve and initiative pervaded the force. The old force held a wonderful record and much will be expected of the new."

Tahiti's Luper Colony Becomes Thriving Town

Papeete, T. H.—Tahiti's leper colony, established in a beautiful valley in 1913, has the appearance of a pleasant and prosperous native village. The visitor's first impression is of neatness and order. All of the houses are built of concrete with iron roofs, the open sides set in with slender bamboo cane, native style, to afford ventilation. There is water piped to each house from a spring and suitable sanitary arrangements. The inhabitants appear contented and they have planted flower gardens about each of the houses. Means are provided whereby the family and friends of each patient can visit without coming in actual contact.

Leprosy does not possess the terrors with which it has been invested by the popular mind. Investigation is said to have demonstrated that leprosy is one of the least contagious of diseases.

While L. M. Canfield was absent from his 40 acre ranch near Hermiton, unknown persons tore down and hauled away a dwelling house, a good barn and chicken house.

Tobacco Supply Is Slender In Austria

Vienna.—Tobacco smokers of this city jocularly declare that the great Vienna forest is being gradually smoked up in cigarettes. This is intended as a satire on the quality of material used in the manufacture of Austrian cigarettes.

Tobacco products are a government monopoly and regulated in quantity and issue. The allowance to each individual is very small, equal possibly to six cigarettes a day. Smuggling is so much practiced, however, that it is only necessary to pass the word in the right quarter to obtain cigarettes in quantity. One thousand recently purchased by the Associated Press correspondent were of fair quality in tobacco.

Girls! Buttermilk Creates Beauty Overnight

The first application of Howard's Buttermilk Cream will astonish you. It creates beauty almost like magic, but the most wonderful thing about it is the fact that whilst it turns the dustiest and most lifeless complexion to radiant beauty and makes red or rough arms snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin.

It is absolutely harmless and will neither produce or stimulate the growth of hair. Within twenty-four hours this wonderful combination, called Howard's Buttermilk Cream will work a marvelous transformation. Manufactured at Buffalo, N. Y., by Howard Bros. Chemical Co. (Adv)

as it goes in Austria and probably consisted of not more than two-thirds leaves and grasses. But the price was equal to first class American cigarettes such as usually served in clubs.

Strikers In Sugar Fields Beaten By Weather Changes

Honolulu, T. H.—Recent heavy rains throughout the island of Oahu meant millions of dollars saved to the sugar planters, according to reports from the cane fields.

Handicapped by the laborers' strike, which began in January, many of the available workers had to be employed on irrigation. The abundant rain released these for work in the fields and the mills, while the heavy downpour provided a reserve of water for irrigation purposes which will last a number of weeks.

Hawaiian Sugar Planters' association records show that more than seven hundred Filipinos have arrived since the first of the year from the Philippine Islands to work on the plantations. Upwards of four hundred more are expected within the next few weeks. The great majority of the original 2600 striking Filipinos have returned to the fields, while about 2000

strike-breakers also are on the job, it is reported. The Japanese Federation of Labor headquarters reiterates its assertion that it will hold out for the higher wage demanded and that its members will not return to their posts until the demand is granted. Island of Maui branch of the federation recently voted to continue its contributions to the

exchequer of the island of Oahu strikers one month longer. No announcements on the subject of contributions have been received from the islands of Kauai or Oahu. Plantation managers say that responsible positions formerly held by the Japanese have been permanently filled with Americans, Hawaiians, Portuguese and Spaniards.

A WORLD REBUILT By the Golden Rule not by the Rule of Gold

WHAT ARE the most precious elements in American Life? Respect for the home? Jesus found women slaves; He made them companions. Down through the ages His Church has been the champion of women's rights and aspirations. Respect for the man who works? It was the Carpenter of Nazareth who gave labor its great charter. "You are sons of God," He said. In that sentence Democracy was born. Respect for property? Modern business is credit; and credit is character. All that makes property safe in the world is bound up in the reverence for law that religion breeds. Respect for education? Who gave America her colleges? They were founded by Christian ministers, almost all of them.

On these great essentials must we build a better America, and a better world. And every one of them rests on the foundations of the Christian Church. Thirty denominations of that Church are uniting now in a simultaneous campaign.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including

the Church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers. The appeal is to every lover of America, to you whether you are, inside the Church or out. The rebuilding of the world is a spiritual task. Faith must be the cornerstone on which the new foundations are laid true; the measuring rod by which the builders build must be the Golden Rule.
