**Be Kind
to Your
Eyes**

Many people, after being fitted for glasses, think that it is then safe
to use their eyes as much as they please. But this is not good judgment.
Eyes need rest. Some of the most delicate muscles of the body are in the
eyes and they cannot bear overstrain either with or without glasses. Be
fair to them and the efficiency of your eyesight will be retained longer.

That is, in a word, our service to you—to keep the efficiency of your
eyesight up to the best it can possibly be. In order to realize this it is
just as important to be careful how you use your eyes as it is that you
be fitted correctly with glasses.

Long experience and ample facilities enable us to render this service
to you. As optical specialists we can fit you with whatever glasses your
eyes need.
