The case will come up in Multnomah circuit court next week. It seems that money was put on as a sort of a promotion bank. Men of influence throughout the state put money in the proposition to finance the survey and secure the right of way.

Doctor Issues Warning And Tells How to Stop Tobacco Habit

New York: Dr. Connor, formerly of Johns Hopkins Hospital, says: I am often asked if I know anything to stop the tobacco habit and I always recommend Nicotol, which I have prescribed with great success. Nicotol contains no habit forming drugs, is absolutely harmless and produces astonishing results in a very short time. The use of tobacco saps the vitality, vigor and ambition of the slave who is enthralled by its seductive effects. It undermines the health and leaves the victim an easy prey to general debility, throat and lung troubles, nervousness, insomnia, heart trouble, headache, tongue and lip cancer and even blindness. Physicians the world over often trace the start of the above diseases and many others to nicotine poisoning. If you want to free yourself from

Waldo Hills route. Necessary franchises have been secured and when the road is built it will connect with the Willamette Valley Southern at Mt. Angel and extend south to Stayton and ultimately east to Bend or some main line point east of the mountains. It is claimed that Lynott wanted to be "it" and when he learned that the financiers of the project could not be made to see the importance of his undertaking he attempted to obstruct progress until such time as he could cause the delay or get the proposition permanently abandoned. Stayton people are highly pleased over the encouragement given out this week and there is strong hope that the construction work will be started very soon. This seemed to be Stayton's last and only hope of securing a railroad, and work had been prolonged so long people had almost become discouraged.
