

MUTT AND JEFF—Mut figured he wouldn't have a chance.—By Bud Fisher.

The Willamette freshmen came near winning from the juniors by taking three of the postponed events of the interclass track meet, but when Jackson won the 220 in the fast time of 24 3-8 seconds the meet was clinched for the juniors, as well as the cup for interclass competition for the year.

MRS. M. E. PROCTOR, who says she is so grateful for what Tanlac has done for her that she wants the whole world to know about it. Declares her complete recovery after so many years of suffering seems too good to be true.

"I am so grateful for what Tanlac has done for me that I want to tell the whole world about it," said Mrs. M. E. Proctor, of 717 W. First St., Los Angeles, Cal., when speaking of the splendid results she had obtained from the medicine. "To think that I should have suffered for so many years, and spent hundreds of dollars in vain efforts to get relief, and then find complete relief after taking only four bottles of Tanlac, seems too good to be true."

Washington Republicans Tell Planks

Bellingham, Wash., April 25.—The report submitted to the republican state convention here this afternoon by the platform committee opposes ratification of the league of nations covenant "unless reservations and declarations are included which will fully protect American sovereignty, independence and ideals."

The report also demands that "Americans lawfully in Mexico shall be protected in their lives and property and their every right and that Mexican offenses against them shall not go unredressed as has been the case under a weak, timid, ineffective policy of a so called 'watchful waiting'."

Adoption of a scientific national budget system, the granting of adequate salaries for teachers, reclamation of the arid lands of the west, particularly of the Columbia basin project, repeal of the Underwood revenue law and enactment of a protective tariff law, adoption of universal military training, passage of law requiring aliens to register at least once a year, approval of national highway legislation and approval of the marking of the Old Oregon Trail from the Mississippi valley to the Pacific coast are among other recommendations.

"We condemn mob violence," says the report in demanding industrial and economic equality for all citizens. The legislature is commended for giving the people an opportunity to pass upon the soldiers compensation bill and for systematizing the state school system.

"We recommend that the republican party heartily favors enactment by congress of a law providing for a generous compensation to soldiers, sailors, marines and nurses," says the committee.

Economy One Plank Business like retrenchment of national expenditures, thrift and industry, and vigorous legislation to prevent profiteering, are recommended to effect a reduction in the high cost of living.

A constitutional amendment providing that no children of persons ineligible to naturalization shall ever become citizens and laws to exclude all immigrants ineligible to naturalization are favored.

TAHITI QUAKES CONTINUE Papeete, T. H.—The series of earthquakes which have shaken the Islands of Tahiti, Moores and Mehetia, since 1918 still continue and during February increased in intensity. Scarcely a day has passed without several earth tremors. The center of these disturbances seems to be under the Islands.
