tennis courts lately. At the regular meeting of the faculty club last Monday evening, talks were given by Mr. Gilmore and Mrs. Collins. Mr. Gilmore spoke on Country club work from a general standpoint, while Mrs. Collins treated it from the particular phase of the work she has found most useful in her school, the Oak Point rural center.

County Superintendent G. E. Lamb of Tillamook county spent Monday at the normal interviewing teachers from the schools of his county. Mr. Lamb is a graduate of the normal, class of 1898, and finds things greatly changed since his schooldays.

President Ackerman is taking time this week to visit high schools in the various parts of the state. He spent the major part of last week in much the same way and reports great interest in the normal among high school seniors throughout the state.

A. G. Jackson, of the federal forest service, gave an illustrated lecture at the chapel hour last Friday. He dwelt particularly upon the beauties of the national forests in Oregon, and the great value they possess from many standpoints and its preservation.

Mrs. Ciller, critic from Mountain View, gave an entertaining talk at the chapel hour last Wednesday.

The interest in the summer school is already very encouraging as Miss Todd reports that every room in the dormitory has already been engaged and many of the houses about town are filled.

The normal will be in regular session on Saturday, May 8, to permit teachers in service to visit classes. Regular work will be given in the training school on that day. A cordial invitation is extended to all neighboring teachers to visit on that day. The students will be recompensed by an extra holiday a little later in the month.

The president brings home the news that the millage bill is beginning to be considered much more favorably in many localities and high hopes of its passage on May 21 are entertained.

Miss Todd spent last Thursday and Friday in Portland.

### Government Opens Court Action To Punish Strikers

New York, Apr. 29.—Federal action to punish leaders of the strike of railroad workers in the New York-New Jersey district was begun in Newark, N. J., today when United States District Attorney Jones... and a number of witnesses before a

grand jury to testify regarding the strike. Virtually all traces of the strike have disappeared, according to statements made by officials of the various railroads.

### Portland Street Car Employees to Sign Agreement

Portland, Or., April 29.—Union street car employees of the Portland Railway Light and Power company early today voted to accept the proposal of the corporation providing for a slight increase in wages for a few shop men and retaining the present wage scale of the platform men for another year. Acceptance by the men, it was said, would avert a possible walkout. Negotiations have been going on for several weeks.

### Ford Assembling Plant Convinces Watt Of Wonders

Speaking of the automobile situation in California, Watt Shipp of the Valley Motor company, who has just returned from California, said today: "When I left Salem three weeks ago I was a sincere and conscientious enthusiast for Ford products, but after spending two solid days in the Ford assembling plant in San Francisco, I am more thoroughly convinced that Ford products stand without a rival in the automobile world. It is simply marvelous the wonderful efficiency that has been reached by the Ford Motor company. The San Francisco plant gives one some idea of the high condition of efficiency that exists in the parent plant at Detroit.

"The Ford assembly plant at San Francisco completely assembles ready for the road 160 automobiles every day. It is impossible for anyone to understand the meaning of 'efficiency' until they had an experience similar to mine, and enjoyed the privilege of seeing every lost motion, or waste of effort eliminated, and workmanship brought up to a point where it might be called an art. I wish I had the power to describe what I saw—all I can say is, it is simply wonderful and I am no longer surprised the Ford

car stands without a rival in construction, production and low price. "In my journeyings through California I was particularly struck with the predominance of the closed cars, especially in a state where the climatic conditions are considered ideal for motoring—yet in the Golden state the closed cars hold sway and I found it a fact, that the demand was so great that, while deliveries could be made on open cars, agents were booking orders for closed cars or future deliveries. Closed cars cannot be turned out fast enough. The local body and upholstery shops are simply buried in orders, changing bodies from the open to the closed type. This is noticeable in all makes—even the higher priced cars are facing the same conditions.

### Socialists Rally To Support Of French Deputy

Paris, April 29.—Every unified socialist member of the chamber of deputies has come forward in support of Deputy Vaillant-Couturier,

who on April 23 published in the newspaper Le Populaire an article addressed to the 1920 class of recruits, which has been considered an effort to incite the troops to disobedience. The article was re-published in L'Humanite and was subscribed to by the sixty five members of the party. Removal of parliamentary immunity so that M. Vaillant-Couturier may be prosecuted has been demanded. "Soldiers and comrades," says M. Vaillant-Couturier's article, "you are to be sowers of hatred and new war. You, along with colored troops, are the sole hope of the bourgeoisie, which feels the tide of revolutionary truth mounting. Sanguinary libations always attend the funerals of no-bound

regimes. It is not simply a case of mutiny at the hour of those funerals. It is incumbent upon you to understand now where lie the interest of the country you love. It is a case of know now if you desire your country to be veritably yours."

The Hood River Apple Growers' association is hastening the shipment of stored apples following lifting of the embargo on fresh fruit. The result of the embargo is that the Hood River county has been unable to ship apples to Government Quarantine stations and a number of boys and a man squaws to Portland last week.
