Is the single achievement of 1920. It is the greatest motor truck value of the year. Its great over-powered, heavy duty construction in a 5500-pound capacity truck has made it leap into amazing popularity. Everywhere it is the subject of practically every motor truck conversation because it sets a new standard in value. Truck buyers who have been accustomed to paying \$2500 to \$3000 for trucks are now buying the "Huffman" because it is absolutely the lowest priced truck for its carrying capacity and high grade standard units in the world.—Never before has \$1995 bought so much actual "Dollar for Dollar" truck value.
