

### Teachers Named by School Directors For 1920-21 Terms

The school board also selected teachers to be employed for the 1920-1921 semester.

J. H. Ackerman, president of the Oregon normal school will be asked to come to this city during commencement and deliver the graduating address to the 1920 class of Salem high school.

The board authorized the building and ground committee to advertise for bids for a cement sidewalk in front of the Highland school on North Fifth street.

All teachers selected by the board will soon receive contracts for the coming term. Contracts to be signed and returned to the board by May 25, 1920.

The list of teachers newly employed or retained for the following year is as follows:

**Public Forum**

To the Editor:—In The Journal of the 2nd inst., I see that our county court has tried to get the board to allow the county to take sand and gravel without paying the royalties provided by chapter 32 of the late special session law. This bill was introduced by the committee on roads and highways and was known as H. B. 76. No one will consider it reasonable that the committee on roads and highways would so cruelly stab the counties in their effort to build roads.

Section 1 ends with the following words: "Provided that any county may

take such gravel, rock and sand for public use within its boundaries without charge or further permit."

Of course section 4 makes provision for the board to give permission to use them free of charge, but section 1 gives it to the counties for all public uses.

Again the gravel, sand and rock along the river do not belong to the state. They belong to the riparian owners and, according to the constitution of Oregon, "Private property shall not be taken for public use, nor any particular services of any man demanded, without just compensation; nor, except in the case of the state, without such compensation first assessed and tendered." (Art. I, section 18.)

This section of the constitution prevents the state from touching a gravel and leaves the riparian owner where he was before this bill was passed.

Again, article 7, section 20, says that: "Every act shall embrace but one subject and matters properly connected therewith, which subject shall be expressed in the title, etc."

The title of H. B. 76 reads as follows: "An act relating to the use, leasing and sale of gravel, rock and sand in the beds of navigable streams and under navigable waters by the state land board; relating to and providing penalties for the violation of this act and declaring an emergency."

Webster defines the word "bed" as being the bottom of a river or other stream, or any body of water." This leaves the gravel and sand along the river for the use of the county roads, etc., etc.

The law also mentions bars, but the bars are not mentioned in the title of the bill. These bars are the property of the riparian owners, which is very plainly acknowledged in section 3 of the act.

Section 4 appropriates the proceeds of the sale of gravel, etc., to certain purposes, but this is not mentioned in the title.

I find more flaws in this act and by the time I get through with it there will be nothing left—but the emergency clause for the act says that it is necessary for the immediate preservation of the public health and safety of the people, etc.

I am only a farmer and would

 \* Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces in all you will need, no matter how much dandruff you may have. This simple remedy never fails. (adv)

They were in a great hurry. H. B. 76 and introduced January 16, 1920, read first time, rules suspended, read second and considered engrossed, read third time and passed all in one day. Some speed.

### Scoutmasters Will Stage 'Minstrel' Wednesday Night

The Scoutmasters of the Salem Troops of Boy Scouts are completing their rehearsals for their introductory appearance at the State Training School next Wednesday evening. The big pals of Salem boys are combining their wits and talents and are fully prepared to stage one of the funniest minstrel stunts ever put on with local talent.

Big Caruso Niles, Scoutmaster of Troop No. 1, will play the part of the "Leading Lady" and assures his audience of a splendid program of music and dancing in which he will be supported with one of the huskiest choruses that ever trembled on the professional stage.

"Rastus" Howard Zinser the luckless "nigger" that ever "skilled the dice," and owner of the most powerful fighting rabbit in the ring at the present time, will present his company of dusky serenaders in a series of old southern ballads and love songs. Rastus will also present his famous one-lunged orchestra, which has an enviable record of never having charmed any known royalties.

Other members of the assembled company of all-star actors are "John McCormack" Cook, "Harry Sandow"

**Now Remember!**

That when you use Calumet Baking Powder you get pure, wholesome, light, palatable bakings.

You get a baking at a moderate price—which is a saving over the cheap brands, on one hand—the high-priced Trust Brands on the other.

Remember that Calumet is economical to use—Remember that satisfaction is guaranteed—Always remember that it is the leading baking powder wherever introduced, and it is today the largest selling brand in the world.

All we ask for our product is a trial—at our risk. If it is not the best baking powder you ever had in your kitchen it won't cost you a penny.

Don't be influenced by past experience with other brands—or if you have a prejudice don't let it influence you.

Just try Calumet—and judge for yourself. All we ask is that you give Calumet one trial, and you are sure you will always be a staunch friend and user of it. We are willing to accept your judgment.

The event of the minstrel stunts at the Training School is a result of the taking over of The American Club, an organization of the boys of the school, by the Salem Scoutmasters. This organization of the boys at the school is doing wonderful work among the boys, and although the Scoutmasters are already loaded to the guards with present duties, the big, fine, generous hearted men that compose the Scoutmasters Association always prove to be willing to do anything necessary for the betterment of American citizenship.

### Silver King Ore Held Equally As Rich As The Best

Silver ore that is being taken from the ledges of the Silver King mines, in the Mehamia country, is equally as rich as the best ore that is being mined in the famous Colorado district, according to F. Lewis, an old time mining man, who has just returned from a survey of the property.

Mr. Lewis, with C. Chappell, local representative for the Silver King Mining company, Inc., and William Nelson, made the trip to the mining properties last week.

When asked what his opinion of the project was, Mr. Lewis said: "If I didn't think it was any good I wouldn't have bought stock in the company; and I know mining property when I see it, too."

Drilling machinery is being hauled to the property, and work of sinking tunnels and shafts in the rich lodes will begin at once. The proximity of abundant water power makes development comparatively easy and, according to Mr. Chappell, plans are already being laid to install smelting

### Permit To Construct Reservoir Is Asked

Application for permission to construct a reservoir on Willow creek, Malheur county, for the storage of 21,500 acre feet of water and for the appropriation of such stored water for the irrigation of approximately 5000 acres of land has been filed with the state engineer's office here by Guy M. Peters, of Chicago.

Other applications for water rights have been filed as follows:

By Dr. A. Koehler of Baker covering the appropriation of water from Spring Grove Gulch for the irrigation of 65 acres in Baker county.

By Joseph Frazier, Jr., of Hood River, covering the appropriation of

water from an unnamed spring branch for the irrigation of a small tract in Hood River county.

**Gravel Lease Found.**

Leases on the sand and gravel rights in the Willamette river in the vicinity of Loxton were granted to the Dayton Sand & Gravel company by the state board of control, Tuesday, at a royalty of ten cents per cubic yard.
