

Silverton Loses Game to Salem Hi In Play Thursday

At Silverton, Thursday, the fast Salem high school team plunged into the limbo of forgotten things. Silverton's claims for county and state championship. In a game lasting two hours and ten minutes and made doubly difficult by a wet and slippery field, Coach Schott's players secured the 16-8 score after hard play.

The Silverton nine put up a plucky scrap, but their battery was hoodooed by the wet infield and rain soaked balls. The work of the locals was consistent with their reputation for defeating fast crews. Nearly a hundred Salem fans journeyed to Silverton for the game.

Salem stands well in the high school series this year and is expected to make a good showing in the wind up. The team has a good slugging corps, the average being .282. This is helped by Luke Gill's work at a .435 rate and by A. Gill, L. Jones and Purvine who are well in the 300 class.

The game is briefed as follows:

	R.	H.	E.
Salem	16	18	4
Silverton	8	6	3

Batteries for Salem: Ringle and R. Gill. Silverton: Olson, Bennett and Harwood.

Salem's schedule for the week May 24, 25 is: Silverton (at Salem) Tuesday; Eugene (at Salem) Saturday and a game at Jefferson with that high school, Friday.

To Relieve Catarrh Catarrhal Deafness And Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Eucalypti (double strength.) Take this home and add to it ¼ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Eucalypti is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears, should give this recipe a trial. (adv)
