### Student Strike Caused by "Red" Leaders, Belief

Buenos Aires.—The student's strike at the University of La Plata, which culminated recently in a shooting affair in a lecture room and the killing of one of a group of students taking an examination, is attributed by some newspapers to the incitement of politicians and by others to "the absorption of anarchistic ideas" by student agitators.

The tragedy was the most serious of a number of acts of violence on the campus.

USE COCOANUT OIL FOR WASHING HAIR

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisided coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. (adv)

Objection to the provisions of the Roosevelt bird refuge act now being initiated in Oregon for a place on the November ballot, is taken by State Engineer Copper who declares that the

### Imperfect Eyes Do Not Always Mean Poor Vision

Quite often, even with imperfect eyes, good vision is obtained by straining them. Just as long as eyes can obtain, by extra exertion, perfect vision they will do so, and it is this continual effort from morning till night, and day after day—that causes so much fatigue, so much nervousness and so many headaches.

You know what a hardship it is to strain the muscles of your back all day long, or to walk continuously hour after hour.

Then you can better appreciate the strain upon the delicate muscles of the eye when they are subjected to this severe exertion in trying to overcome defects.

If your eyes are imperfect you are retarding your own progress, and laying up for yourself future troubles that may be quite serious.

If you do not know the condition of your eyes. Or, if you suspect that they are responsible for nervous disorders, headaches, etc.—then you had better have them examined and find out for certain.

I am equipped with both the delicate instruments and the experience to properly diagnose your needs, and have the equipment for making the lenses and adjusting them to give the most satisfactory service.

We own and operate a complete lens grinding plant and can deliver your glasses the same day they are ordered.

**Corn Pain Stopped Quick**

"Gets-It" Loosens Them so They Lift Off in a Jiffy

The corn pains cease as soon as a few drops of "Gets-It" reach the corn. It goes out of the hurting business forever.

**The Surest Corn Remover "Gets-It" Got It**

For a day or so the corn remains, getting looser and looser and without a twinge from it. Then, it gets so loose that you just lift it right off without even feeling it, and cast it away. That's how easily and simply "Gets-It" disposes of the corn nuisance.

"Gets-It", the unfailing, guaranteed, money back corn remover, costs but a trifle at any drug store. Mfd. by E. Lawrence & Co., Chicago. Sold in Salem and recommended as the world's best corn remedy by J. C. Perry, D. J. Fry, Capital drug store, Wm. Neimeyer, Frank S. Ward, Crystal drug store. (Adv)

proposed measure would seriously interfere with the water rights of settlers on the Blitzen and Silves rivers, tributaries to Malheur lake.

Under the provisions of the proposed act all the right and title of the state to all lands within the exterior boundaries of and in and to all the waters both within and tributary to the Malheur lake reservation in Harney county would be ceded to the federal government.

"In my opinion," Copper declares in a letter to Bear & Canning ham, consulting engineers, Portland, "the passage of this bill would place in the hands of the federal government the absolute control of all unappropriated waters tributary to Malheur lake. The principal streams involved are the Blitzen and Silves rivers. From both streams considerable areas have been irrigated but upon both streams very large irrigation developments are being planned. Eighty thousand acres of land along Silves river have recently been included in an irrigation district and it is proposed to construct one or more large reservoirs on Silves river for the storage of the waters of this stream for irrigation purposes.

"Certain rights have been initiated on both the Blitzen and Silves rivers which may take precedence over the conveyance of these lands and water to the federal government but they are preliminary in character and should the people enact this measure some plan would doubtless be evolved to question the validity of these things and thereby excise any development which would interfere in any way with the bird reserve.

### Famous Mounted Police 'Are Given Increased Duties

Ottawa.—Wearers of the "scarlet and gold" of the Northwest Mounted Police—on February 1st renamed the Royal Canadian Mounted Police—are now charged with the enforcement of federal laws in all provinces of Canada. It is, for instance, as though the New York police force, had its "beat" extended from the metropolis to San Francisco. Many of these intrepid officers are sons of aristocratic British families and are veterans of the Great War.

The metamorphosis of the great organization known as the Northwest Mounted Police, organized in 1873, the Canadian Northwest was a sort of "No Man's Land" recalls some of the earliest of these was the navy action of the late General Sir Sam Steele, then a sergeant. A camp of hostile Cree Indians were obstructing the building of the Canadian Pacific railway. Sergeant Steele, accompanied by a constable, rode into the midst of

the camp and while the red skins indulged in promiscuous shooting and war whoops, calmly ordered Chief Pie-A-Pot to get out within ten minutes.

The chief ignored the order, Steele garbed in a red coat, dismounted and leaped over Pie-A-Pot's squatting figure, through the tepee door and kicked out the center pole, bringing down the tent on Pie-A-Pot and his squaws.

The audacity of Steele's act in thus manhandling the head of the tribe estranged the Indians and they at once started to obey his order.

part of the strikers that have occurred during the past few months. Demanding reforms of the administration of the university, including an enlargement of the rights in the control of the administration already possessed by the student body, the strikers took possession of various of the university buildings on four occasions and ejected the faculty. The faculty have had to call on the police to oust them having been powerless to maintain discipline.

The strike was at first regarded as "college boy nonsense," but was soon given a serious aspect by the newspapers because of evidence that the ringleaders were actuated by bolshevik ideas and because it has led to threats by the Federal administration to remove Governor Grotto of Buenos Aires province and appoint an "intervenor" to rule in his stead.

### Says 'American Labor Troubles Only Beginning

London.—"America's industrial troubles are only beginning," said W. T. Griffiths, of the Iron and Steel Trades confederation, who has just returned from a trip to America, to a news agency interviewer.

"I have been most impressed with the dire lack of machinery in America for settling industrial disputes, especially in the iron and steel trade," he went on, "in that respect we are years ahead of America." Mr. Griffiths added that he found several chaos in every industry.

Fear of American competition, he continued, was more fictitious than real, and he was thoroughly convinced that England had a wonderful opportunity for recovering its former position in the foreign markets.

"In one thing America excels," Mr. Griffiths concluded, "the output of their steel mills would be almost in-

creditable to the average British iron and steel worker."

**Yanks In Other Armies Given Vote**

Wheeling, W. V.—The right of an American to vote has not been forfeited if he has sworn allegiance to a foreign allied nation to aid in the prosecution of war, according to a recent ruling of Attorney General E. T. England of West Virginia.

The ruling was made in the case of Albert Marshall, of Wheeling, who had been denied the right to vote because he enlisted with Canadian troops at the beginning of the world war. However, he joined the American army when the first of the expeditionary forces arrived overseas.
