Albany College May Seek Fund

Albany, Or., June 11.—Plans to secure \$200,000 for Albany college were discussed at the annual meeting of the board of trustees of the college here Tuesday afternoon, after being outlined by President Williams. It approved by the Oregon syndicate at its meeting in July, a campaign will begin to raise the amount.

One half of the sum will be used to erect the first unit of the buildings on the new campus, and the other half for additional endowment. The present endowment fund is \$200,000. It is proposed to raise \$200,000 by subscriptions during the next two years and then apply for the balance in 1932 to the general board of education of the Presbyterian church. This board has not yet promised this amount, but it will at least give Albany college a percentage from the \$2,000,000 to be collected for colleges in the new era movement of the Presbyterian church and President Williams, who recently returned from the east, reported that the financial department of the board will assist in raising the other \$200,000.

IN BED FOR SIX MONTHS AT TIME

"After being laid up in bed with rheumatism as long as six months at a time and having the worst form of stomach trouble, Tanlac has made me well and I am so pleased with it I just don't know how to express it," declared Henry Clark, of 1521 East Harrison street, Tacoma, Wash., recently.

"There was hardly a day in nine years" he said, "that I didn't suffer the keenest pain in my legs, knees or ankles, and lots of the time I could hardly get around at all. These pains were so severe that I just rolled and tossed all night long and was unable to sleep. I got so nervous the least little thing would completely upset me. To add to my misery my stomach began giving me trouble, and I had spells of indigestion that caused such suffering I really didn't know where I hurt the worst. All my food soured and fermented, nothing I ate seemed to digest and I soon got to where I dreaded to eat on account of the suffering it brought on. I lost weight and was in such a weakened, run-down condition I simply didn't know what to do.

"After reading so much about Tanlac, I decided to try it and the first bottle made me feel like eating. After the second bottle I could eat a hearty meal and enjoy it without fear of its hurting me. As I kept on taking Tanlac my stomach trouble entirely disappeared, and by the time I finished the fourth bottle the rheumatism was gone, too. I have regained my lost weight and strength and I feel as well now as if I had never had a day's sickness in my life. I consider Tanlac the best medicine in the world and I am so delighted with what it has done for me that I am glad to recommend it."

Tanlac is sold in Salem by Tyler's drug store and leading druggists in all towns. (adv)

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

Luther J. Chapin told of the constructive work going on in Marion county as a whole and noted the fact that every standard farm product was manufactured into a finished product through the manufacturing plants in the county. He also told the Ad men that present prospects were most favorable in the county and that prune, loganberry and cherry growers would reap a rich reward this year, due to unusually high prices.

C. J. Espy of the state bank at Donald, who is president of the Marion County Community Federation explained the working of the federation.
