

First Class Play Holds Fans Thru Star-Hauser Game

Tuesday evening at Sweetland Field, the Statehouse Stars were transcended by the Hauser Invincibles, score 4-0. The small sprinkling of fans did not give full credit to the quality and interest of the play. With resumption of fair weather, James Elvin, president of the Cherry City Twilight league hopes to present each of the remaining games of the series to a crowded field.

Both teams put up a game free of "small town" bickering and were cheered impartially by the fans. Webb, the Statehouse pitcher worked well against a stubborn aggregation of sluggers, holding the Invincibles down to six swats at the pellet.

Petterbeck twirled for the Invincibles and his surprising swings are credited as items to the Hausers' credit. Hauser of Chemawa, who received for the Invincibles, proved to be a valuable addition to the sporting goods crew.

The Stars went out in the lot during the first half of the first and the Invincibles proceeded to give a demonstration of evil intent by Shaffer's score on Hauser's clout to right field. In the second inning the Hausers again became rampant when Shaffer brought in Petterbeck and Hulsey. In the third canto Petterbeck secured his second hit of the game, scoring Proctor.

In the first inning, the Statehouse nine made a strong effort to start the tally on their side of the sheet when Small secured a nice single to left, but succumbed at third after witnessing two strikeouts and a fly ball.

The game was of more than usual interest in that the Hauser team wrested front rank from the Stars. The Statehouse team has recruited many followers from the ranks of the fans and is expected to put up a first class fight for the ribbon before the series terminates.

Game summary:

	R.	H.	E.
Invincibles	4	6	0
Stars	0	2	1

Tuesday night's game places three teams in the scramble for second place. The serious injury of Bob Brown, the Stars' third baseman was an item in the weakening of the erstwhile league leaders. Brown was injured while working on a truck at the highway garage.

The Valley Motor "moguls" and the "Y" Tigers will meet tonight at Sweetland Field at 8:15. The public is cordially invited to attend these games which are free.

How They Stand.

American Firms In Shanghai In British Control

Shanghai.—A large number of business concerns which have been operating in this city under American control have been compelled to place themselves under the management of British merchants in order to conform to a British Order in Council. Under this rule which was promulgated early in the year business houses in China already under British register must be managed and controlled by British subjects.

This has affected a vast sum of invested American capital and a considerable sum of Japanese and other foreign investments, as the majority of business houses conducted by American and Japanese in China were registered under the Honkong, or British, ordinances.

In order to comply with the new requirements it has been necessary for these American institutions to displace a number of Americans from executive positions and to replace them with subjects of Great Britain.

Japan Commercial Firms Seek New Trade With Huns

Berlin.—Japanese commercial firms are making great efforts to resume business with Germany. One Japanese shipping company has opened its offices in Hamburg and a regular steamship service is running to Japanese ports. Copper and silk are the main exports from Japan to Germany while potash is the chief article demanded from Germany by Japan.

According to the Tagelblatt, the Japanese government is considering a claim submitted by Germany that the Shantung (Tsinanfu-Tsinanfu) railway is private and not state property. In the latter case, the railway would become forfeited to Japan, in accordance with the same terms of the peace treaty.

Japan proposes to release all German property under her control up to the value of 10,000 yen. Property worth more will be subject to a deduction of a certain percentage to indemnify Japanese who have claims against Germany for war damages.

An inquiry into emigration possibilities from Germany to Japan shows, the Tagelblatt says, that although public feeling in Japan has become generally favorable toward Germany again, the prospects are not favorable, except for engineers and practical scientists. Foreign manual laborers especially are not wanted in Japan.

Bolshevism Is Not Understood In U.S.

Manila.—Bolshevism is a word that is badly misunderstood in the United States, says Major-General William S. Graves, commander-in-chief of the American expeditionary force which recently evacuated Siberia.

"At the mention of a Bolshevik the people instantly conjure a mental picture of a frowny anarchist with a bomb in one hand and a torch in the other," he said. "But the Bolshevik in Russia are working for peace and the good of the country. In my belief they are trying to be eminently fair and just to the people. They have deplored the murder and bloodshed which took place before they came into power."

Independence Is Represented At Legion Session

Independence, June 15.—An representative of the Independence post, American Legion, P. W. Johns, local, motive engineer on the Valley & Siletz road, attended the convention in Portland Saturday. The purpose of the meeting was to bring before the different camps of the state an explanation of the vocational training and disability acts. Every camp was presumed to be represented and ample entertainment was provided for the delegates. Mr. Jones remained in Portland for a few days to look after private interests. His report to the post will be submitted at some future time.

Wm. Campbell, who has been employed in Barnes Cash store at Salem for some time, has returned to Independence and will be engaged on his farm near here during the summer.

Mrs. Dee Taylor, a former resident of Independence, now on Klamath Falls, has been visiting in the city for a few days.

Mrs. J. G. McIntosh will present her class of thirty pupils in a musical recital at the Methodist church Thursday evening.

Mrs. Clyde Ecker has just returned from eastern Oregon, where she was a delegate to the state federation of women's clubs.

Two tons of blasting powder was shipped to the logging camps in the Siletz basin yesterday. It is not known what use it will be put to, but it is supposed that the company intends to build more railroad into the narrow belt of that district.

Miss Vale Hiltbrandt of this city will be married this afternoon to a Mr. Taylor of Airlie. The ceremony will be performed at the home of the bride's parents, Mr. and Mrs. John Hiltbrandt, and Dr. Dunsmore, pastor of the Presbyterian church, will officiate.

Owing to the shortage of crude oil the Valley & Siletz Railroad Co. will abandon the oil burners soon and use wood for fuel. They have been scattering slash wood along the road from the mill, and will have no more to sell, it is said, to consumers of this city.

Canadian Dry Law And Higher Booze Cost, Correlated

Victoria, B. C.—"Patients" in the habit of securing "sufficient" quantities of liquor under the British Columbia "prescription" system, will find their source of supply largely curtailed under the amended prohibition act, passed by the legislature in March, and to which royal assent, making it effective was given in the Assembly a few days ago.

Under the amended act, physicians may only prescribe eight ounces of government dispensed liquor instead of two quarts as heretofore. If more is deemed necessary, the physician must execute an affidavit that the liquor is for medicinal purposes only and that a thorough examination of the patient has been made. Liquor may be imported from without the province in accordance with federal statutes, but must be delivered to the home of the purchaser and may not be removed therefrom unless the owner is making a bona fide change of residence. Prices of government liquor have increased about 50 per cent since the first of the year.

The "man in the woods" has an advantage over his city brother. Being far removed from the source of supply, he may secure—through the prescription route—as much as two quarts. Anyone living more than five miles from a government dispensary or drug store may secure up to sixteen ounces.

Extracts may in the future be secured in four ounce quantities only, and one must be a householder to secure essence, extracts or similar "kick" products.

Alaskan Flight Is Planned For July

Juneau, Alaska.—United States army signal corps officers are locating landing sites for an army airplane flight across Alaska planned for July.

Lt. Colonel B. O. Lenoir, who has charge of the signal corps Alaska cable and wireless system, has written several points in the territory asking data regarding landing fields and supply bases.

The route to be taken is not known here. Several months ago it was reported an army flight was planned from New York, across British Columbia and down the Yukon valley in Alaska to Nome. Later it was said the machines might start from Seattle, proceed up the southeastern coast, cross the Alaskan mountains and proceed down the interior valley to Nome.

Many points in Alaska have not been visited by airplanes and consternation will probably be caused in the Indian camps along the Yukon when the machines sail by.

Boston Initiates New Fire System

Boston.—The fire engine is to disappear from the streets of downtown Boston. The lively spectacle of galloping horses with an engine in tow went out with the advent of the motor-drawn engine, and now motor and steam engines are to be forced from the city proper entirely. A high-pressure water system, in which only hose trucks will be used is assured by early operation by the signing of contracts for three pumping stations.

A gridiron of pipe-lines has been constructed under the streets, the high pressure pipe now laid aggregating 9.3 miles, with 262 hydrants. Eventually, under present plans, the system will be extended to include more than 10 miles of pipe.

Through this pipe 12,000 gallons of water a minute will be forced at 300 pounds pressure, or approximately 14,000 gallons at the more practical pressure of 200 pounds, from four pumping stations which will be operated this year. Three additional pumping units are planned, which will increase the volume of water to 34,000 gallons at 200 pounds pressure. Water will be drawn from three sources—salt water from the harbor, sea water from a new system, and

Dempsey Ready For Carpenter States Kearns

San Francisco, June 15.—Jack Kearns, manager for Jack Dempsey, heavyweight champion of the world, announced today that Dempsey would be ready within two weeks to meet Georges Carpentier, the French heavy weight or "he will fight any one else in the world if Carpenter is unwilling to talk fight." Labor day was suggested as the date for the proposed contest.

Kearns issued a statement asserting that Dempsey's acquittal yesterday of a draft evasion charge in the United States district court here left his war record clear and that "there could be no more whispered campaign carried on about him." He said he and the champion needed a two weeks rest after the strain of the trial and then they would be ready to arrange for a bout with the Frenchman. Kearns' statement in part said:

"Now Georges Carpentier, we're ready. If you have come to America to fight, here's your chance. Jack Dempsey is free and ready to meet you anywhere in the world. The chance you have been asking for a crack at the title is yours. The next move is also yours.

"I haven't at this time the slightest idea where a Jack Dempsey-Carpentier match will take place, if indeed, Carpentier is as anxious now as before to meet the champion. The site for the fight, of course, is up to the promoter making the best offer. The next big date on which a fight of this size could be well held is Labor day. We will be ready to fight then. We will be ready to fight before that. If the public demands it, Carpentier comes first with us but if he is unwilling to talk first at once, we will fight anyone else in the world."

Water Permits

Application for permission to appropriate water from Salmon creek for the irrigation of 65 acres in Baker county, has been filed with State Engineer Copper by A. N. Young of Baker. Other applications for water rights have been filed as follows:

By J. F. McKee of Creswell, Or., covering the appropriation of water from Camas Swale creek for the irrigation of a small tract in Lane county.

By Arlie Acton of Drewsey, Or., covering the appropriation of water from the middle fork of Malheur river for the irrigation of 25 acres in Harney county.

Pensacola, Fla., June 15.—Pensacola started a rat killing drive today with a view to stopping the spread of what local physicians have pronounced bubonic plague. Two deaths have occurred from the disease since last Friday.

Fifty gallons of gasoline was stolen from the tractor of G. W. Morrison at Pendleton. A siphon was used.

VALUES IT MORE THAN A FORTUNE

"What Tanlac has done for me is worth more than a fortune," said George Power, of 20 1/2 Rottenberg St., a life long resident of Halifax, Nova Scotia, and well known employe of the Nova Scotia Tram and Power Co. "I have gained eighteen pounds and feel better than for twenty eight long years," he continued.

"I don't believe anybody in the world suffered from rheumatism as bad as I did. It was a sharp, shooting pain that would go through my knees, down my legs and into my ankles just like somebody was sticking a knife through me. I couldn't work at all in damp weather and suffered so intensely I would turn white as I shied. When the attacks came on I wouldn't be able to sleep a wink, my joints would swell and my knees would get stiff as boards and I wouldn't be able to walk for two or three days at a time—just lay up in bed flat on my back.

"Tanlac was so highly recommended by people right here in Halifax that I tried it and now I wouldn't take anything in the world for the good it has done me. My rheumatism is entirely gone, my appetite has picked up, too, and I sleep fine every night and feel like a different man altogether. Tanlac is the greatest thing I have ever seen and I want to let everybody know what this wonderful medicine will do."

Tanlac is sold in Salem by Tyler's drug store and leading druggists in all towns. (adv.)

GIRLS

To keep your face powder on, use Derwillo. No touching up all the time to prevent your nose and face from shining. A dip in the ocean, perspiration, hot sun and wind have no effect on it. Instantly beautifies the complexion. A single application proves it. All druggists refund the money if it fails. (adv.)

 * THE EASIEST WAY *
 * TO END DANDRUFF *
 * ***** *

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail. (adv.)

Get Goodyear Tire Economy for That Smaller Car

Just as owners of the highest-priced automobiles get greater mileage and economy out of Goodyear Tires, so can the owners of smaller cars similarly enjoy Goodyear advantages.

The 30x3, 30x3 1/2, and 31x4-inch sizes of Goodyear Tires are built to afford a money's worth in performance and satisfaction which only the utmost in experience, resources and care can produce.

This extraordinary money's worth begins not only with the merit of these tires, but also with the first cost, which in most cases is no greater, and sometimes actually is less, than that of other makes of the same types of tires.

Go to the nearest Goodyear Service Station Dealer for Goodyear Tires for your Ford, Chevrolet, Dort, Maxwell, or other cars taking these sizes. He is ready to supply you Goodyear Heavy Tourist Tubes at the same time.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water—\$4.50 proof bag.

GOODYEAR
