Today's Dallas News

Dallas, Or., July 22.—The fine seven-day program given by Ellison-White was so well appreciated this year that the local chautauqua association had little difficulty in getting a contract signed for next year by 80 guarantors. This is the 8th year the chautauqua has been held in Dallas and the past two seasons the guarantee has been exceeded by the sale of more than \$200. The plan which was begun in 1918 of holding each guarantor responsible for the sale of his share of tickets has been a great success and will be followed hereafter.

The city council is taking drastic measures in Dallas to curb speedsters and law breakers. There has been so many violating the ordinances recently that two officers were stationed at Main and Court yesterday to arrest all violators. In less than 30 minutes 13 were arrested for cutting corners. The mayor, U. S. Grant says "the ordinances must be complied with, or every man breaking them will have to face the judge."

County Clerk Floyd D. Moore just returned from St. Helens, where he acted as attorney for a boy, age 15, who was on trial for theft of an automobile. The case was hard fought and many witnesses brought from Vernonia via Portland a distance of 90 miles. The young man who was accused, formerly a Salem resident, the boy was delivered into the keeping of his mother as the evidence did not prove his guilt.

Prune Market Will Be Lower Than Last Year

Portland, Or., July 22.—The prune market in Oregon is about to open and it is safe to say prices will not be as high as last year. A few contracts have been made with growers at 18 and 15 1/2 cents for 50-55s, but at the moment packers are not disposed to take hold. It is said the growers are showing more of a willingness to sell and in view of this fact the buyers are waiting in expectation of lower prices. There is much interest in the action the cooperative association will take. Last year the market opened at 12 cents and advanced to 20 cents and better. A lower average is looked for this year, as there will be a big Oregon crop and market and financial conditions generally are against high prices.

Most of the Oregon packers have made sales of the new crop east to the extent of their contracts here, but just now the demand is reported inactive. A New York trade report says: "The last of the big packers of Oregon (Hallen) turns to make prices on the new crop put them out as follows: for 30s 14 3-4c for 40s, 13 3-4c for 50s and 13c for 60s. Although the prices as first announced by the other packers differed somewhat, it is understood that all are now quoting the figures above given. It contemplates some of the sizes allowed in assortments very somewhat as to packer, however, ranging from 15 to 25 per cent on 30s and 15 to 25 per cent on 40s, while in all cases assortments include 50 per cent of 40s and 10 per cent of 60s. Buying interest in new crop Oregon appears to be languid, as it also is in connection with 1920 California prunes. The spot market for both descriptions is dull, but there is no selling pressure in evidence."

Jefferson Way Notes

Yankee Credit Lost; Huns at Mercy of Allies

Berlin.—All hopes of American credits must be definitely abandoned as a result of the outcome of the Reichstag elections and the fate of Germany consequently will be completely in the hands of the Entente, according to Baron von Rishthofen, defeated democratic candidate, who outlines his views in a long article in the Moersson Zeitung.

Americans were not unfavorably disposed toward Germany's political and economic future. Baron Rishthofen continues, but the defeat of the democratic program at the elections dissipated many fond hopes based on that fact.

"We must expect Americans will demand priority for any of their credits over the allied indemnity claims, which means the final decision will lie with the Entente," he believes.

Betting Among English Girls Grows Common

London.—Some of the London news papers lament that English women and girls have gone "betting mad," and that it is a common thing for girls in offices, on the stage, married women and even school girls to lay wagers varying from six pence to a pound.

"Why shouldn't we gamble?" one pretty office girl asked. "Now the war is over we must have some harmless excitement, mustn't we?"

"Some of us bet on tennis and golf, on engagements to marry, and even on what word people will open conversation with."

A business man complained his office girls "chatter more about their bets than their work" and another declared his cook seemed "more concerned about odds than ovens."

"She has even incited my wife to making bets."

Swartz Paroled To Family For Suitable Care

The governor of New York is without authority to act in the case of Milton Schwartz, alleged moral pervert, who was paroled on the 21st of Oregon through the action of Justice Tierney of the New York supreme bench. This is the information received by Governor O'Connell in reply to his request for action by the New York executive in returning Schwartz to New York.

In an enclosure from P. E. Enright, police commissioner of New York, it is stated that Justice Tierney turned Schwartz over to the care of his parents rather than commit him to an institution because he thought such a course better for the health of Schwartz. The justice denies that he ordered Schwartz taken to Oregon, it is stated.

Scientist Seeks To Make Danish Survey Complete

Copenhagen.—An attempt to reach North Point and thus complete the Danish exploration of North Greenland will be made by Lange Koch, the young Danish scientist and Polar explorer, this summer. The aim of his expedition, which is expected to last about two years, aside from scientific purposes, is to secure Danish sovereignty of all Greenland.

Koch, who in the capacity of geologist participated in Knud Rasmussen's last expedition, hopes to reach Ingfield Gulf by motorship and in August or September will endeavor to establish a depot 250 miles northeast of there. A mechanic will be the only white man to accompany him, the other members of the expedition being Eskimos.

Henry Ford has placed an ice-drawing tractor at Koch's disposal.

Public Control Expected To Put End to Troubles

Paris.—Paris' slow and inadequate surface transportation is expected to be vastly improved beginning next year when the department of the Seine, which is Paris and its suburbs, is to take over all systems.

Payment is to be made in 30 annual installments now fixed at nearly 40,000,000 francs each but which the authorities hope may be driven a little lower by some more bargaining.

There are 117 street cars and 44 auto buses operating 2,540 cars and buses. The companies are capitalized for 420,890,000 francs.

The city and the department formerly operated the surface transportation systems but the franchises were given to corporations that have evolved a puzzling network of lines but few of which give transfers. The two subway companies are not involved in the deal.

Quincy, Calif.—A yellow pine tree cut near here recently, was said to be 258 years old by woodmen. The tree yielded 12,140 board feet. A narrow section was shipped to Washington, D. C. for exhibition in the Bureau of Forestry.
