Chautauqua At Monmouth Is To Be Repeated

Monmouth, Or., July 24.—The chautauqua session held here last week proved so successful that the company operating the circuit, the West Coast company, was signed up for service next year at the same time. Only next year we will have a six day program instead of the five day program put on this year. With a seven hundred dollar guarantee fund the local sales and tickets topped fourteen hundred dollars which was a persuasive feature in making a larger proposition next year. The five day program gave complete satisfaction, high spots being the Virginians, a colored troupe, the Handel Orchestra Choir and lectures by John Gray and Mr. McLaren.

Congressman W. C. Hawley was a speaker to a large assemblage of students and townspeople at the normal Wednesday evening. As a member of the ways and means committee of the house, Mr. Hawley explained the manner in which appropriations are made, financing the operations of government. Only one-tenth of one per cent of governmental expenses he said was spent by congress the rest being used in defraying expense of the administrative department. He explained also the workings of the proposed national budget bill as something that would make governmental expenditures more as private business is run and as tending to throw the responsibility of spending on the departments that actually use the money. Previous to the war, he said, the nation's revenues were always in excess of the expenses but now we face a period of deficits and he urged that a thorough study be made of national finances that the crisis of meeting the obligations of the war might be safely met.
