

Yachts Fail To Finish In Fifth Race

(Continued from Page One.)
still about ten miles away, almost dead to windward.

Race Against Time
At 2:35 Resolute was leading by easily half a mile. Both sloops were heading offshore on the starboard tack.

At 2:40 both yachts set baby topsails and began a nine mile beat to the outer mark. Five minutes later they were standing off to the northeast of Seabright and making slow time.

Even in the fickle wind Resolute pointed a higher course than the challenger. Resolute's fight to hold the cup appeared to lie in her inability to beat the time limit, unless she came beating or through an accident victory went to the challenger.

Early Breeze Brisk
Sandy Hook, N. J., July 26.—A brisk breeze of about 12 knots came out of the northwest early today and provided fine wind conditions for the final contest between Shamrock IV and the American defender Resolute for the America's cup.

With the wind holding from the northwest, a run of fifteen miles seaward and a thrash to windward home was indicated.

All hands aboard the cup sloops felt the inspiration that a smart sailing wind brings. The crews receive a bonus for each racing start and get an added bonus for every winning contest. The Americans declare that Resolute will be returned winner today and Sir Thomas Lipton will fail to win the cup.

Charles W. Nicholson, designer of Shamrock, still insists that the present races have been little more than trial races for Shamrock. He also thinks that in all future America's cup races the contenders should be manned entirely by a crew from the country they represent. Resolute's crew is said to be made up largely of Scandinavian sailors.

Challenge Races Proposed
Suggestion has been made that should Sir Thomas Lipton fail to win today's race and lose the cup, that the Irish baronet enter the challenger in a series of races with Resolute and Vanitie.

It also has been suggested that all three yachts be sailed by professional skippers. Some members of the New York Yacht Club are said to be still of the opinion that Vanitie, which failed of selection for the honor of defending the cup, is the fastest of the cup yachts.

Sir Thomas is said to have spent approximately \$1,000,000 in his latest attempt to lift the cup.

Shamrock, after getting up her mainsail, took a tow at 9:35 a. m. and headed for Annapolis channel lights. The wind began to haul in the east and was probably not more than seven or eight knots in strength. Resolute dropped her moorings at 10:15. Both yachts sent aloft big club topsails as they were towed toward the starting line.
