Land prices, however, he reported to be much higher; fruit acreage selling from \$1000 to \$2000 an acre, actual producing value of such land being no greater than similar tracts in the Willamette valley which could be purchased for less than half the price. U.S. Outvotes Britain In League Says Roosevelt

Butte, Mont., Aug. 18.—Franklin D. Roosevelt, democratic candidate for vice-president, told a Butte audience today that republicans were "playing a shell game on the American people" in respect to the league of nations.
"Since the league, he said, were still busy circulating the story that England has six votes in the league to America's one.
"it is just the other way," said Mr. Roosevelt. "I honestly think that Wilson put one over on Lloyd-George."

Mr. Roosevelt said that Haiti and San Domingo, Panama, Cuba and Central American countries, who had at least 12 votes in the league's assembly, all regarded Uncle Sam as a guardian and big brother, and that this country would practically have their votes in the league. He added that the assembly of the league was merely a debating society and that the real power of the league was in the council in which the British empire had one vote and the United States one.
Mr. Roosevelt said that Mr. Harding had resurrected the tariff as an issue when, as a matter of fact it was dead and buried as long ago as 1913. "In that year the tariff was taken out of politics by both parties," he said. "A commission was named to treat it as it should be treated and we are going to let those experts work it out for us. The tariff is not an issue in this campaign."

Issue Is Progressivism

Mr. Roosevelt appealed to voters to keep in mind that the real issue in whether progressivism should prevail.
"You cannot be a progressive back home and a reactionary in foreign lands," he said. "I am a progressive democrat and I think that the emphasis is on the 'progressive.' I'm not ashamed of it, either."
