

Fires Destroying big Timber Stands In California

San Francisco, Aug. 19.—Townships far away as Stockton, 75 miles distant, were called on today for fire fighters to check a fire that in the Stanislaus national forest had burned over between 10,000 and 12,000 acres. Today the fire had spread out into four distinct forks and it was racing toward the rich timber stands in the heart of the forest.

Another fire had swept over 25,000 acres in the Mill creek district of the Lassen national forest and a third, uncontrolled, was sweeping up Moffat creek near the Klamath national forest.

The Mill creek fire was so vast that it took an airplane 20 minutes to circle it. It was reported checked on all sides but the east. An airplane in contact with the ground through a portable wireless set, is directing the fire fighters.

Other fires in the Lassen forest at Lost creek, McElroy trail and Cornez lake were said to be under control today while another at Tamarack, in the same forest, had not been subdued.

The Soda creek fire in the Shasta national forest, which was expected yesterday to burn for five days, was under control today.

Visibility for airplanes in the fire areas was improving today, it was reported, and the airplanes were doing good work in directing the fighters.

Bond Required of Alleged Speeders Caught Wednesday

Two more motorists who are said to have felt the speeding "urge" were halted by Officer Verden M. Moffitt Wednesday night. Each was required to furnish \$5 bond for his appearance in the police court.

Mathis was arrested, and about ten minutes later Paul Perlick, also going east on State, was arrested on the same charge. Both were violating the traffic ordinance, it is said, between 29th and 24th streets.

BUYING IN BULK

Grocers used to display their wares by placing them in bushel baskets on the sidewalk. In those days customers often paid for dirt when they were buying coffee.

Then came the day of standardized merchandise. Grocers gradually learned to sell their wares in sanitary packages trade-marked for definite quantity and quality.

Advertisers used to buy space in publications "in bulk." Like the old-time grocer's customers they frequently received as much refuse as "coffee."

The Audit Bureau of Circulations has done for advertising what standardized merchandise has done for the consumer. It has marked circulation with the stamp of accuracy.

London.—Sir W. E. Richmond, Royal academician, will go to jail rather than pay the increased taxes now being charged by the Hammersmith Borough council. He writes to the local press, "I have refused to comply with this bolshevik demand of \$149 annually on my house and grounds, just under two acres. I would rather, at the age of 70 years, go to prison than be a party to such injustice and robbery."
