

Polk County Mass Meeting On Road Crisis

Dallas, Or., Aug. 20.—A mass meeting of Polk county citizens will soon be called to take place on the second day of the county fair, to consider for next year.

This was the outcome of a report made to the club last night by A. B. Muir, chairman of the committee on highways and roads. Mr. Muir and some other members of the committee have been investigating road matters in other Oregon counties and are prepared to lay definite proposals before the people for consideration.

It is the plan of the club to get as large an attendance as possible, that all interested in roads may be able to have a hearing. It is hoped next year to have a road program that will show results. To make this possible every man and woman in the county interested in roads is urged to be at this meeting. All will be welcome and every man will be given an opportunity to have his say. In this manner it is hoped to satisfy as far as possible the conflicting interests and being about an understanding that will adopt a program extending over a series of years making it possible to achieve real road results.

E. J. Himes reported to the club that work on the Dallas-Salem road has been definitely stopped for the year. The contractor has dismantled his plant and stored it at Rickreall. It was the opinion of some that the highway commission would see the error of its way and consent to the paving of the road to Rickreall at least. But the order has gone forth to stop the work at Brunk's corner after the state has been old, and the campaign against the Dallas program made on the theory that the road is already paved to Rickreall.

Politicians are beginning to visit Dallas. The first to come was William D. Bennett, democratic candidate for public services commissioner, western district, who was in town yesterday. He stands a chance of election, and predicts that he will carry Portland by quite a majority. As is generally known he runs in the eighteen counties west of the Cascades.

The Valley Lumber company has changed its name to Hamilton Lumber company. The change was made last week on account of the similarity to the Willamette Valley Lumber company. The mill is owned by Edward Hamilton.

Frank McCann, who is working at Hillsboro as a section foreman on one of the Southern Pacific runs, spent the week end with his parents, Mr. and Mrs. Charles McCann.

Miss Leone Williams has returned from Portland, where she had been spending a few days visiting with friends and relatives.

Miss Alice Stevens of Eugene, niece of Floyd D. Moore, is visiting at the latter's home for a few days.

Editor Koen returned Monday from the Oregon Editorial convention, held in Astoria. He reports that the people of Astoria and Seaside say to it that the editors had good times, and saw all that was to be seen in that section.

T. B. Hooker and family drove to Tillamook and Bay City last Friday, returning the same day.

J. B. Eakin made a trip to Salt Creek Wednesday to adjust a claim for Jack Voth, who recently injured his back, but is recuperating nicely at his home.

Puget Sound Salmon Industry Declines

Portland, Ore.—Improper methods of artificial propagation used by Washington state fish hatcheries are said by Oregon State Fish commission members to be responsible for a noticeable decline in the salmon industry of Puget Sound.

The Oregon commissioners point out that the salmon industry in Puget Sound has decreased from more than \$600,000 cases in 1913 to some 42,000 cases in 1917, while the pack on the Columbia river has increased from \$25,000 cases in 1913 to 600,000 in 1917.

The salmon in Puget Sound are now Fish Warden R. E. Clanton of the Oregon Fish commission.

SEATTLE WOMAN HAS GAINED 15 POUNDS

"I have gained fifteen pounds in weight and am enjoying the best of health since I began taking Tanlac," said Mrs. A. G. Sekund, who resides at 2404 Third ave., Seattle, Wash., recently. Continuing, she said: "For the past several years I have suffered from a severe stomach trouble. My appetite was very poor and I had to virtually force down every mouthful I ate, and even this would sour and ferment, gas would form and I would blot something awful. I also suffered with terrible pains in my stomach, my heart would palpitate dreadfully and I had great difficulty in breathing. My head would ache so badly I thought at times I would simply burst open, and I would have such bad dizzy spells it was with the greatest effort I could keep from falling. My nerves were in such bad condition I could get but little sleep, and I was so restless at night I would just roll and toss from one side of the bed to the other all night long and would be completely exhausted in the morning. I lost so much weight and became so weak I could hardly get about at all and was unable to do my housework. "A friend of mine who had been greatly benefited by Tanlac advised me to try it and I took her advice. The results I have obtained are simply remarkable. I now have a fine appetite and can eat anything I want and never suffer from indigestion or bloating and never know what it is to have a pain of any kind. The headaches and dizzy spells have all gone and my nerves are in such fine condition I can now sleep all night long as peacefully as a child and get up always feeling greatly refreshed. I am regaining my lost weight and strength every day, and can do all my own housework with the greatest ease. I owe all my present good health to Tanlac, and am glad to recommend it to others."

Tanlac is sold in Salem by Tyler's drug store and by leading druggists in other towns. (adv)

Bringing Up Father—By George McManus

Santiam Forest Fires Reported Under Control

Albany, Aug. 20.—Except that two new small fires were reported the forest fire situation in the Santiam national forest improved today. None of the fires are serious now. There was a high east wind, however, and this may cause trouble.

Forest Supervisor Hall telephoned warnings to all stations to use extra precautions because of this wind. One of the new fires is near Lake Jern, between Marion lake and Mount Three Fingers Jack, near the divide. The other is near Quartzville. Both are small yet, but both are in green timber.

The two new fires make a total of nine fires now burning, but none is making serious progress. The fire which started Tuesday on the headwaters of the middle fork of the South Santiam river, the one at Little Meadows and that near Jefferson park are reported practically out. The fire which started Wednesday on Canyon creek, near Cascadia, and the one in the southwest corner of the forest are burning yet but very slowly.

The big fire on the headwaters of Blue river has been conquered and most of the fire fighters who were there are coming out, leaving only a patrol. The other big fire, at Duffy Prairie, has also been controlled to the extent that some of the fire fighters there have been withdrawn and are being sent to combat the new fire near Lake Jern.

New Bank Opens In Scotts Mills

Scotts Mills, Or., Aug. 20.—The new bank of Scotts Mills opened for business yesterday in the new building which was erected for that enterprise. Charles Scott is president, A. Z. Brougher vice-president and Mr. Dixon is cashier.

Mr. Stoppenbach of the Butte-Creek Lumber company, left yesterday for Portland, where he will be for a few days attending to business matters in connection with that enterprise.

Mrs. T. M. Dunagan has been spending the week with her daughter at Black Rock.

Threshing and clover hulling is the order of things in this vicinity and everybody is busy.

Mr. and Mrs. Uriel Hooley have moved to Scotts Mills and expect to make this their future home.

The prune harvest will soon be in progress here and the growers will

Solve Problem Paving Entrance To Mt. Angel

Mt. Angel, Aug. 20.—A plan has been suggested and met with considerable encouragement on the part of property owners, whereby Main street may be paved to connect with the hard surface recently put on the highway north of town. When the matter was first suggested a number of the property owners thought that it would be a great expense, and it has been hinted that the proposition would be renegeated if paving was undertaken by the city. J. W. Culver, county road master, was asked by the city of Mt. Angel to furnish an estimate of the cost, and the figures ready to submit to the city council show that the work can be completed at the present time for \$1.47 per running foot. This seems to meet with the approval of property owners and it is probable that the work will be completed this fall. According to the plan suggested the city will employ the county to pave that portion of Main street according to the estimate given by Mr. Culver, and the adjacent property owners will ultimately meet the expense.

Old Light House Reported Depot Boozie Smugglers

Details of a bootlegging enterprise so extensive in its scope as to convince officials here that it exists only in the imagination of the narrator are contained in a letter picked up on the streets of Portland and forwarded to Governor Olcott for investigation. According to the letter a deserted light-house on an island some 15 miles from Marshfield is the scene of the activities of this alleged bootlegger who employs three airplanes in the importation of his liquor from Vancouver, B. C., and counts his profits on each importation in four figures.

42 Loads Hot Stuff

Forty two loads of "hot stuff" were hauled two miles yesterday and put on the county road. This is said to be the best record in the county. A record of forty three loads per day was made last season at Salem, and this was the best record made until yesterday. On account of the good record established by the crew, Mr. Johnson, foreman of the works, purchased a box of cigars and gave the boys a smoker.

Dr. Klenzinger of Silverton Was in the City Yesterday

Dr. Klenzinger of Silverton was in the city yesterday, having been called as one of the witnesses in the case of the county against Geo. Santell.

P. N. Smith, J. J. Keber and S. O. Rice went to Salem last evening to attend a meeting of the county federation of community clubs.

M. Schaffer, who has been visiting relatives here for a week or more, left last evening for Tracy, Cal.

Frank Hynes, one of North Howell's prosperous farmers, was in the city yesterday. Mr. Hynes says that harvesting is progressing rapidly in that neighborhood, and the farmers are gathering in bountiful crops.

Mr. Stoppenbach of the Butte-Creek Lumber Co., was in the city yesterday on route to Portland.

It is understood that Adam Laford of Dickman, N. D., who has been in the city for several days, expects to establish a new bank in Mt. Angel

Social Disease Is Target of Reports to Health Boards

The scope of the work outlined by state and federal boards of health is indicated by the receipt in this city of blank report forms for venereal diseases. These blanks have been received by County Health Officer C. E. Cashitt and will be distributed at once to all Marion county physicians. Under the provisions of newly enacted requirements, venereal diseases must be reported by physicians in the same manner as reports are made of other contagious diseases and in vital

Plans for the big eastern Oregon Labor day celebration at Baker are rapidly developing, according to the reports of the various committees.

Statistics, as births and deaths. These reports are of strictly confidential nature and the information required is used only in preparing measures for combating the diffusion of venereal diseases.

Prompt reporting of these diseases to reliable physicians and proper treatment is of great service to those who are affected, health reports state, aiding medical practitioners in controlling the disease and safe guarding the patient from suffering results due to ignorance and neglect.

A SIMPLE WAY TO REMOVE DANDRUFF

There is one sure way that has never failed to remove dandruff at once and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. (adv)
