J. A. Rowland has opened a second hand store on North Commercial street.

J. A. Wright formerly employed by the Portland Railway, Light and Power company, has recently accepted a clerical position at the Salem postoffice.

A demurrer was filed Monday by D. C. Minto and Jeanette Minto in the civil action instituted against them by the Salem Water, Light and Power company. The demurrer claims that the company's efforts to effect settlement of a water intake site on the Willamette river are not sufficiently supported by facts to warrant cause for action. Insufficiency of facts for cause of action is also embodied in a demurrer filed by Minnie Hurley and J. T. Hurley, defendants in the civil action instituted by Barbara E. Robbins.

Judge G. E. Urah of the justice court, left Salem this morning on a short business trip to Portland.

Miss Eloise White, a student of the University of Oregon, is spending a few days visiting at the home of Miss Marjory Kay in this city. She is a member of Gamma Phi Beta sorority.

Harold Cook to Scout For Deer

Scout Executive Harold Cook returned last evening from Portland, after spending the week-end in that city on business. Mr. Cook accompanied several of the members of the Whitney Boys' chorus, who had been taken ill in this city, and who needed attention for the remainder of the journey. Mr. Cook reports that he was able to place the boys among relatives in that city, and at times he left all but three or four boys recovered.

The executive will leave this evening for his ranch in Douglas county, where he will establish headquarters during the season of deer hunting. The fact that deer are seemingly plentiful in that part of the country would indicate that the hunt will be successful. Mr. Cook says he will stay until he gets his quota. Bear and cougar are plentiful in that vicinity as well as other smaller game, and an exciting time is anticipated.

Scout Henry Wesley Thielsen, who returned from Newport yesterday, will accompany Mr. Cook on the trip. They will be entertained at River Crest (the home of G. E. Cook).

2 Alleged Drunks Jailed; 1 Gets 5 Days Hard Labor

Judge Earl Race admits that all wages have gone up with the sole exception of those credited to the man who serves time in jail.

"I hate to profess it, but you'll have to serve five days at hard labor," he observed Tuesday morning when Fred Moyer, of this city, appeared in the police court on a charge of drunkenness. Moyer stated that he was without the necessary \$10 and was put to splitting wood and cleaning Monday night by Officer Engle near the South Pacific station, where the bluecoat stated, he was endeavoring to get out of town on a freight train.

Pa Devine, also charged with being intoxicated, appeared before Judge Race Tuesday and was fined \$10. He was arrested by Officer Brown Monday night.

Salem Vamps Man; He Buys Orchard; 55 Campers Visit

Rainy weather failed to keep crowds of tourists from coming to Salem, according to the superintendent of the local auto camp grounds. Fifty-five campers were registered at the grounds Monday night, and 51 were there Tuesday night, he stated.

"I can't seem to talk myself into getting away from this country," W. F. Bryant of Long Beach, Cal., declared yesterday, the superintendent said. Bryant told him that he had purchased an orchard near Liberty.

"All of the campers seem to appreciate the grounds here," the superintendent added.

Final Half of Cox's Tour West To Be Rushed

New York, Aug. 31.—The latter half of Governor Cox's western speaking tour was announced here today by Senator Pat Harrison, chairman of the speakers bureau of the democratic national committee.

The governor's itinerary, after leaving Cheyenne, Wyo., September 26, calls for fast traveling with many speeches, most of them from the rear platform of his private car.

His Kansas City speech will be the last of the western swing.

Landlords Will Meet In Portland

Portland has been selected as the site of the next convention of the National Association of Business Owners and Managers to be held during the third week in June, 1921, according to word received this morning by Governor O'Leet from Gordon Strong of Chicago, president of the association. Governor O'Leet had extended an invitation to the association to meet in Portland. Dean Vincent of Portland, Gordon states has been named as the convention committeeman in charge of local arrangements for the 1921 meeting.

County Paving Plant at Salem Again Operated

The arrival of one carload of asphalt breaks the period of enforced inactivity of the Salem branch of Marion county's road paving units. Because of a 30 day delay in the arrival of road building material, the Aumsville and Mount Angel plants are out of operation. The carload of asphalt, for the local plant has been augmented by four hundred barrels of asphalt secured from the Huber plant at Eola, this private plant having closed down upon the completion of work in that section.

The Salem plant was in operation Tuesday and is supplying material for the two mile stretch of paved county highway near the North Howell schoolhouse on the Salem-Silverton road.

Asphalt shipments slow
County Roadmaster W. J. Culver reports that the failure of material to arrive is seriously interfering with the Marion county market road program. That the present good weather cannot be taken advantage of by all county road-building forces is the cause of much anxiety by the officials who have this work in charge.

Twenty cars of asphalt were ordered from California nearly 30 days ago, but due to unsatisfactory freight conditions 13 cars of the material are still "on the way."

During enforced cessation of activity, the crews of the various plants have been occupied in repairs and also in grading and surfacing roads preparatory to final hard surfacing.

Mr. Culver hopes to have all three plants in full operation within the present week. Every effort is being made to speed up the tardy shipments of asphalt.

Big Truck Loads Ruining Roads

"Roads built to stand the wear and tear inflicted by five-ton loads cannot possibly come up to the demands made by many truck drivers who do not hesitate to throw an eleven-ton load upon the limited surfacings," states County Judge W. M. Bushy in outlining the stand of the Marion county court against overloads on all open traffic routes.

Roadmaster Culver and the county commissioners report that little or no attention is paid to laws enacted by the legislatures of 1919 and 1920 which attempted to curtail abuses due to extreme loads. Although small penalties are provided, the county officials state that no means of systematizing the loading of trucks has been provided. "Very few scales will register these extreme loads and officials apparently find little vested authority for the detection and arrest of violators," is Mr. Culver's summary of the situation.

Highway Broken Down

The county officials state that newly constructed highway sections, soon break down under the wear and tear of an overloaded truck, traveling on one side of the route causes the outer edges of the surfacing to gradually crumble and crack.

Similar complaints are reported from counties in this state and county officials are confident that remedial measures will be enacted at the next session of the Oregon legislature.

Five Apply For Water Permits

In order to supplement its present municipal water supply the city of Wallowa has filed with the state engineer's office here an application covering the appropriation of water from Big Canyon creek.

Other applications covering water rights have been filed as follows:

By Wm. G. Tait of Medford covering the appropriation of water from an unnamed stream for a municipal water supply for Neart's Bay park in Tillamook county.

By R. B. Reilly of Parkdale covering the appropriation of water from an unnamed stream for domestic purposes and for the irrigation of a small tract in Hood River county.

By Firman Crum of Adel covering the appropriation of water from a spring for the irrigation of 80 acres of land in Lake county.

By Jay Dobbin of Wallowa for the Associated Ditch companies covering the appropriation of water from the South Fork of Wallowa river for storage for the irrigation of lands in Wallowa county.

Britten Admits Charge Made Only Rumor

Chicago, Aug. 31.—Fred A. Britten, Illinois congressman, failed to produce any evidence to support his recent charge that \$37,500 appropriated by the British government "for entertainment purposes" at the British embassy in Washington had found its way into the democratic national committee's funds.

Under a grilling examination by Senators Reed and Pomerene Mr. Britten admitted he had no facts to support the charge and that it was only his personal idea.

Mr. Britten asked the committee to subpoena Thomas W. Lamont, owner of the New York Post, the heads of Doubleday, Page and company, publishers, and officials of the Western Newspaper Union, a syndicate supplying "boiler plate" to newspapers. He presented an advance proof sent by the plate syndicate to newspapers offering them, free of charge, with shipping charges prepaid, plates of a story entitled "Uncle Sam of Freedom Ridge" which is said to be an argument in favor of the league of nations. He said he believed British interests were financing league propaganda. The committee summoned the heads of the Western Newspaper Union.

Representative S. D. Fess, chairman of the republican congressional campaign committee, confirmed Fred Upham's testimony that the congressional committee was seeking to raise \$500,000 independently of the national campaign committee. Of this sum he said \$400,000 was for use in the present campaign.

He said the committee had received one contribution of \$5000 and two of \$2500 each. The average contribution was \$40, Mr. Fess added.

Mr. Fess raised a laugh when he testified that his republican committee was sending out copies of the speech of Senator Reed, democrat. "I thought they were good ones, quite a number," he added.

Soviet Agents In Mexico Face Arrest Today

Mexico City, Aug. 31.—Warrants for the arrest of three persons, charged with disseminating bolshevik propaganda in Mexico, were asked of the federal district court by an agent of the public prosecutor yesterday afternoon. The persons named are a German named Tabler, who came from the United States, a Mrs. Linn and A. E. Gale, who was connected with a print shop where the bolshevik literature was printed, it is alleged. This literature was distributed in barracks and factories and called upon soldiers and workers to unite in a movement intended to bring about a dictatorship by the proletariat.

A similar bolshevik campaign has been reported discovered at Monterey.

Denver, Colo., Aug. 31.—Labor will not parade here next Monday, according to an order of Colonel C. C. Ballou, commandant of federal troops enforcing military control following the traction strike published today. Parades will be permitted without speech making. All other demonstrations have been abandoned.

WHOSE LUCK

TAKE PHOSPHATE WITH MEALS IN SUMMER TIME

Your Nerves Demand it. Your Blood Needs it. Say Physicians

There's not enough phosphorus in modern foods to benefit nearly one half of the men and women of America, scientists declare.

To overcome this lack of an element of your body that is necessary to your health, your happiness and even your success in life, weak, anemic, nervous, run down people are advised to take Bitro-Phosphate as dispensed in leading drug stores in the original package.

Speaking of people who are easily fatigued, who lack ambition, nerve and are oftentimes thin, weak and sadly lacking in firm, healthy flesh, Joseph D. Harrigan, formerly visiting specialist, North East Dispensary, N. Y., says: "Patients who were apparently physical wrecks, who foolishly thought they needed only a blood tonic to enrich the blood, have come for treatment trembling and shaking, their nerve force almost exhausted and in many cases the administering of Bitro-Phosphate has produced seemingly magical results."

People who feel the heat of summer fire easily and often become irritable and depressed, will find Bitro-Phosphate an inexpensive and helpful friend.

Druggists report a wonderful increase in the demand for men and women who are anxious to renew old time ambition and who are making an honest effort to become vigorous and keen minded with a power of endurance that denotes almost perfect health. They ask for Bitro-Phosphate because they know they need an inexpensive organic phosphate. (247)

Tennessee May Yet Repudiate Suffrage Act

Nashville, Tenn., Aug. 31.—The Tennessee house of representatives by a viva voce vote, adopted a motion to reconsider the action of the house of its suffrage ratification resolution and then by a vote of 47 to 24, with twenty members not voting, adopted a motion to non-concur in the action of the senate.

The action followed directly upon the assembling of the first quorum in the house since Friday, August 20.

Nerve Energy

—Every person needs nerve energy to fight the battles of life; for every action, whether physical or mental, is a drain upon this force.

—It is said that the nerve energy consumed in seeing is twenty times that used in hearing for the same period, and the eyes use many times more energy than any other organ of the body.

—When one considers that this energy is drawn upon continually for from sixteen to eighteen hours daily, the importance of keeping the eyesight in good condition is at once apparent.

Two Feeble Minded Lads Leave School

Two lads, Jim Roton and Roy Roton, both inmates of the state school for feeble minded, escaped from the institution Monday evening about 8:45, officials stated today.

Salem police were notified and are searching for the boys who

are believed to be somewhere in the city. Both are described as having red hair and freckled faces. It is believed that they will remain together.

Frank Davey to Have State Job

Frank Davey, Salem newspaper man and republican candidate for the state legislature from Marion county, has been employed by the state industrial accident commission as a special claim investigator. Davey, it is expected, will devote most of his time to work in the Willamette valley and southern Oregon.

Strike Against British Ships Reaches Boston

Boston, Aug. 31.—The unauthorized strike of longshoremen against steamship and marine companies under the British flag in New York in protest against the English attitude toward Ireland, was extended to this city today when women pickets induced the crew of sixty men to quit work on the Leyland liner Nitonon, loading for London.
