Produces 350,000 Tons Sugar

Manila, P. I. — Production of sugar in China amounts to approximately 350,000 short tons annually, according to George H. Fairchild, Manila sugar planter and exporter, who recently spent several months in China investigating the sugar industry. The yearly production, he said, is estimated at from 50,000 to 150,000 tons less than the production in China forty and fifty years ago. Kwang-Tung province comes next with 100,000 tons annually.

AFTER 4 YEARS IS BACK ON THE JOB

"For four years I was unable to work at all, but since taking Tanlac I am back on the job and never miss a day," said J. S. Brewer, well known architect and building contractor, who lives at 4300 Brooklyn ave., Kansas City, Mo. "For five years," continued Mr. Brewer, "I was in bad shape from indigestion, catarrh and a general rundown condition. Nearly everything I ate disagreed with me and caused so much gas on my stomach that I could hardly breathe, and my heart palpitated alarmingly. The catarrh in my head made me have a stiff, uncomfortable feeling all the time, and I frequently had bad dizzy spells. I could never sleep well at night, and became so weak that other troubles set in and it looked like my health would break down completely. I gave up business and for four years did nothing but take medicines and treatments, in an effort to regain my strength. Nothing did me any good, although I spent hundreds of dollars, and at last I made up my mind to try Tanlac. "Well, sir, I began to improve right away and four bottles of the medicine relieved me of every one of my troubles, and I went back to work feeling fit and fine in every way. Tanlac simply put me right back on my feet in such great shape it is a genuine pleasure to give it my strongest endorsement."

Tanlac is sold in Salem by Tyler's drug store and by leading druggists in other towns. (adv)

Canadian Pacific Buys Comic Line

Edmonton, Alta., Sept. 19.—Canada's comic valentine railway, the Edmonton, Dunvegan & British Columbia, will soon be transformed from a 400-mile stretch of steel into an efficient and profitable line. The work of repairing it has been begun by the Canadian Pacific, which recently took over the management of the road for five years with the privilege of purchasing it.

Though it is the only rail outlet of the rich Peace river valley, the road had been allowed to fall into a state of disrepair that turned it into a tragic joke. It took three weeks for trains to make the journey from Spirit River to Edmonton. The roadbed was overgrown with tall weeds and grass. In heavy rains the rails for miles would sink out of sight in mud. With trains at a standstill the crews had difficulty in finding the lost road. Having prospected and located it, they had to labor for several days to dig the silt cut of the ground and relay the track.

In the meantime hay would be cut along the road to feed shipments of cattle or sheep. Passengers had to leave the rabbits to wain neighboring streams for trout which they broiled over camp fires. The train that made the trip without running of the track won fame as a miracle worker. Travel became so dangerous it was difficult to hire train crews.

Alberta business men and the farmers of the Peace river country are rejoicing over the transfer of the joke road to the efficient management of the Canadian Pacific. The Alberta legislature has appropriated \$1,000,000 to repair and equip the road. The Peace river valley has been settling up rapidly. Warmed by chinook winds and with eighteen hours of sunshine a day in the ripening season, it is a wonderful farming country. The wheat yield of the region last year was 7,000,000 bushels. Livestock is an important source of farm wealth. With such a productive region to draw upon, there seems no reason why the railroad should not become one of the most

HEL-LO-O-O-O PETE:
In two more shakes of a lamb's tail I'd have been between the sheets—but I got taken with another large idea for Camel Cigarette ads that's so bright you can phone 'em to cut the current because you just had your lamps lit!

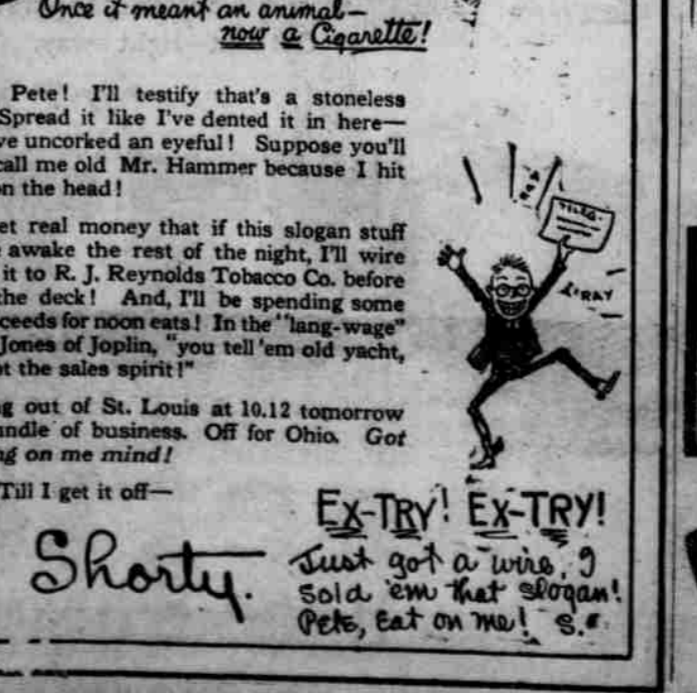

Tell you, it's a whale of a stunt! Everybody right quiet—and hats off! NOW—far as I know or ever heard, there never has been one of those zippy slogans under that big display name "Camel." I'VE GOT ONE—get me? Put both your ears close to the ground and get the rumble of a broadside like this:

Wow, Pete! I'll testify that's a stoneless peach! Spread it like I've dented it in here—and you've uncorked an eyeful! Suppose you'll want to call me old Mr. Hammer because I hit the nail on the head!

And, bet real money that if this slogan stuff keeps me awake the rest of the night, I'll wire and offer it to R. J. Reynolds Tobacco Co. before you hit the deck! And, I'll be spending some of the proceeds for noon eats! In the "lang-wage" of Jigger Jones of Joplin, "you tell 'em old yacht, you've got the sales spirit!"

Blowing out of St. Louis at 10.12 tomorrow with a bundle of business. Off for Ohio. Got something on me mind!

Till I get it off—
Shorty. Just got a wire, I sold 'em that slogan! Pete, eat on me! s.

Helena No Longer Horse-Trade Post

Helena, Mont.—For thirty-five years Helena was a horse-trading center for Indian tribes of Montana who annually drove huge herds of Indian ponies to the capital and sold them to residents for some ranging from \$1.50 to \$7.50 a head for the better class of these sturdy, sure-footed little bronchos, each a now has not a public livery stable. The county authorities recently purchased the last one for a garage for county road equipment, and while there still are a few such ponies left in the vicinity they are now hard put to find a rack in the capital of Montana, without trying to find the old well some sign: "feed at the sales stable; high here."

The following postmasters of Oregon have been commissioned: David Blumenstein, Elgin, and Victor B. Greensdale, Huntington.
