Jury Venire for Circuit Court of Polk Arranged

Dallas, Sept. 27.—To serve during the fall term of circuit court, which convenes here Monday October 4th, the following jurymen have been drawn by Sheriff Orr and Deputy County Clerk Senter: P. N. Lewis, Falls City; John E. Martin, Dallas; J. U. Yeater, Monmouth; J. A. Tetherow, Monmouth; J. O. Price, Rickreall; H. S. Fudge, Ballston; Clifford E. Hunkers, Amity; C. A. Kerber, Airlie; F. B. Kelley, Independence; O. E. Focht, Ballston; W. H. Felker, Salem; Homer V. Link, Airlie; E. S. Henry, Monmouth; Mark Capps, Independence; J. B. Hayes, Sheridan; Fred E. Elliott, Dallas; J. N. Jones, Independence; C. H. Morris, Dallas; Noah Ferguson, Falls City; W. S. McClain, Buena Vista; J. A. Reynolds, Independence; Ira C. Yeocum, Sheridan; Peter Kutra, Independence; M. D. Coultre, Independence; R. M. Powie, Airlie; N. A. Kambe, Falls City; H. Mattison, Independence; Edward Miller, Ballston; William Addison, Independence; Albert Teal, Falls City; J. H. Talbot, Grand Ronde.

County Clerk Floyd D. Moore, has returned to his work after 3 weeks in a Portland hospital, to find his office force again depleted. Miss Otella Friar, who has been employed as 3d deputy, has accepted a position as cashier with the Mountain States Power company. This is the third time Mr. Moore has had to fill vacancies in his office in the past year, due to the low salaries paid by the county for clerks and stenographers. The demand for efficient stenographers and clerks makes the county position only a stepping stone to better salaries. Mr. Moore says until the county can learn that capable assistants in the offices are as valuable to the county as they are to individuals or corporations, they cannot expect and will not get real efficiency in the county offices. Furthermore, it is an injustice to compel an official to spend a portion of his time to the training of inexperienced help for the benefit of business men and corporations. Mr. Moore will present the circumstances to the court and ask for an increase in his deputies' salaries.

Miss Otella Friar was a business visitor in Salem Saturday. Mrs. Florence Wisner began work in the county clerk's office today, taking the position vacated by Miss Otella Friar. Mr. and Mrs. Floyd D. Moore made a trip to Monmouth Sunday, to visit Mr. Moore's people.

Chan. F. Cole, who has been employed at the Dallas Iron Works shops, left Dallas yesterday with his family for Arizona, where he will enter the services of the railroad company. Dr. A. B. Starbuck and family are moving temporarily to their prairie ranch in Eola hills where they will remain until after the crop is harvested. Dr. Starbuck says his loss, apparently, will be 1-3 of the crop. At a regular meeting last night at the Commercial club in the Imperial hotel building, a committee composed of Rev. D. A. McKenzie and H. A. Joslin was appointed to cooperate with the Women's club, in the solicitation of clothing for the Armenians. An appeal has been made to the United States for clothing and wearing apparel and the two organizations are going to make a thorough canvass of the city, to secure shoes, clothing and undergarments for men, women and children. Mr. and Mrs. Kai Kude of West Salem are in Dallas visiting with friends. Mr. Kude formerly lived in Dallas and was the owner of the orchard tract which is

Bringing Up Father—By George McManus

now owned by H. M. Webb just north of Dallas, on the Salt Creek road.

A. B. Muir, one of the owners of the Dallas tannery, was severely injured yesterday morning while working in the plant. Mr. Muir got his hand caught in the revolving machinery which bruised his shoulder painfully and tore the flesh off the back of his right hand. Dr. McCallon was called to attend him and found it necessary to take about fifty stitches in the lacerated flesh. Mr. Muir is suffering considerably but his physician says if unforeseen complications do not arise he will recover the full use of the hand.

Survey Shows Prune Damage In Polk Heavy

Dallas, Sept. 27.—The prune growers around Dallas are somewhat discouraged at their present loss due to rain the past week and weather conditions indicate a still greater loss. It is conceded by the larger prune growers that there will be about 1-3 of the crop left on the ground a total loss, due to cracking.

L. D. Brown who has about 25 acres and has made a survey of the conditions, says the older orchards near his place will lose about 25 percent of the crop from mold and cracking while the younger orchards that ripened later will only lose about 15 percent.

Viers and Grindheim, who have about 100 acres, estimate a greater loss. Mr. Grindheim said they would be lucky to save 2-3 of the crop. Their loss is due to cracking and, as yet, they have not discovered any mold. This orchard was expected to produce 10,000 bushels this year, of extra fine prunes.

Dr. Mark Hayler, who has 50 acres near Polk station, says his loss will be about 30 percent from cracking. Of the 80 acres, 45 are old trees and they are endeavoring to save them first. Very few prunes that have fallen will be saved and a low price will be realized for the product, but Mr. Hayler states that if the weather clears up, the prunes on the trees can be saved with little loss. R. L. Chapman, who has one of the best orchards in the county, says his loss is 1-3 and principally among his best prunes. Mr. Chapman's orchard is just north of Dallas, consists of about 65 acres and in a hearing from this, he estimated that he would get 225,000 pounds, but believes now he will not realize more than 135,000 pounds. The cost of gathering has greatly increased as they have to be gathered, then sorted to clean out the defective ones. The pickers have been urged to work thru showers, but it has been nasty work, having to kneel on the

ground, then return home wet and muddy. While most of the local prune crop will be dried, the Dallas cannery is taking quite a percent of the crop of those having a small acreage. In the rush to get in every prune possible, the big orchardists with dryers find themselves unable to care for the crop of the small growers which compels the smaller growers to find market for their crop at the canneries. Both Dallas and Falls City canneries are running to full capacity.

Mint Harvest Hindred by Rain

Gervais, Or., Sept. 27.—Working between showers, Moisan, Manning & Thurman have a large force of men at work harvesting their mint crop, having commenced Wednesday. The mint had attained a vigorous growth before the rain came and the heavy fall of water has laid it flat on the ground in a very much tangled condition. The condition of the crop was such after the rain that cutting with mowers had to be abandoned and the harvesters are using scythes. This, of course, will retard the progress of gathering the crop and the harvest, which would have been finished in this section of the country by the middle of this week will be prolonged considerably. It is found difficult, in fact, to get some of it even with a scythe. The growers, however, do not anticipate any great loss. Mr. Manning says they will realize large returns from the industry and all the growers interested are very much encouraged over the future outlook.

J. G. Moisan has been drawn on the federal grand jury and will be called to Portland next week. Mrs. Myra Beers of Michigan is spending a few days at the Mrs. E. L. Dusenberry home in this city. Mr. and Mrs. August Schaefer who moved to Hagar not long ago, have returned to this part of the country and are living at St. Louis, Or.

L. W. Hubbard has purchased a farm near Turner and is moving his family there. J. W. Grassman was a business visitor in Salem the early part of this week. The Misses Alice and Winifred Gleason were Salem visitors this week. Levi Armstrong sold his hotel property in this city Saturday and intends to move his family to Hoquiam, Washington, in a few days. Mr. Armstrong has been a resident of Gervais for some time.

Indigestion

Stomach disorders respond to Vinol's pacifying qualities when taken in time. At the time of your first stomach distress get bottle and notice the result.

Aurora Grower Contracts Hops For Three Years

Aurora, Or., Sept. 27.—John Pugh, 72 years young, as he expresses it, seems to have as much hope for the future of the hop industry as many of the younger growers. His hops are contracted for three years. Forty-three cents for 1920s, thirty-three cents for 1921 and twenty-nine cents for 1922. The Pugh yard of thirteen acres is said to have produced 85,000 pounds when baled. Next year they expect a crop nearly twice as large from the same acreage.

W. O. Bergerson, who lives on the highway near Abriow, comes in on the extension of the Aurora mail route and has changed his post-office address to Aurora, that part of the highway having been added to Route No. 1. Fred White of Salem was here on business a few days ago. Mr. and Mrs. E. M. Hurst were Portland visitors during the week-end.

Mrs. Will Ehn of Eugene has been in the city for several days visiting her mother, Mrs. Frederick Will. Mr. and Mrs. J. R. Leach of Portland have been visiting at the home of Mr. and Mrs. W. W. Irvin a few days this week. Mrs. E. E. Brett of Hood River has been visiting her parents, Mr.

and Mrs. Chris Geisy. T. M. Snyder has sold his two houses on Fifth street, one to D. S. Miller and one to Mrs. Clara Atkinson. The consideration is said to have been \$2000. Henry Ziegler shipped one of the largest carloads of oats to California last week that ever left the Aurora warehouse. The car is said to have contained 100,000 pounds. Mr. Ziegler says that it is labor to load in this manner, but it is the proper way to reduce the freight car shortage.

The directors of the Hood River Apple Growers' association have elected E. W. Birge of Barnett president to succeed P. S. Davidson.

Waconda

Waconda, Or., Sept. 27.—Friends here received words a few days ago of the marriage of Francis Nussom and Miss Myrtle M. Flier. They were married in Portland on the 17th of this month. The wedding took place at the home of the bride's parents. They will make their home on a farm near here. Both of the contracting parties are well known in this vicinity. DuRette Brothers have always heard it said that good luck follows the act of picking up a horseshoe, but they know of at least one instance wherein this is wrong. A few days ago a horseshoe was picked up with the corn stalks and fed into the snailage cutter with the result that they had to remove 75 feet of pipe to get the obstruction. Work was delayed for several days. There are several young students

from this vicinity attending the high school at Woodburn. Mrs. D. Blackburn and children visited in Hillsboro a few days this week. Miss Agnes and Cecil DuRette of the Fairfield way are attending the Oregon Agricultural College in Corvallis.

An Americanization school has been started at Marshfield to help aliens who want to take out citizenship papers.

Tobacco Habit Dangerous

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up to date drug store and get some Nicotol tablets; take them as directed and in 10 to 14 days the habit quickly vanishes. Nicotol refound the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result. (adv)

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid. It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. Zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases. Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The E. W. Rose Co., Cleveland, O.

When a Feller Needs a Friend

—When a fellow really needs a friend is when, because of weakened eyes, he must have someone else read to him. —So many people, because of neglect of their eyes in earlier life, are now depending upon others. —Had they provided the friendliness of glasses to their eyes at the right time in their life, they would still be enjoying good eyesight and independence. —An examination will reveal the true condition of one's eyes. It's a little thing to seek, but a big thing to get, and so important.
