Mississippi Is First State To Show Decrease

Washington, Oct. 2.—Mississippi is the first state to show a decrease in population in the 1920 census. Its population of 1,783,182 announced today by the census bureau, is 7,923, or 4 percent less than that of ten years ago.
 The 1920 population of Oklahoma, Wisconsin and South Dakota also were announced and each showed a substantial increase. Oklahoma had the greatest increase, its population of 2,027,544 being 370,409, or 22.4 percent greater than that in 1910. This, however, was the smallest numerical and relative increase shown by Oklahoma, since its organization as a territory in 1890.
 Wisconsin's population is 2,631,539, an increase of 297,979 or 12.8 percent as compared with that of 1910. The state retains its present rank as thirteenth most populous state.
 South Dakota with a population of 635,839, an increase of 51,951 or 8.9 percent, falls into 337th place, having been passed by North Dakota. The state showed both its lowest numerical and relative increases since its admission as a state in 1889.

Hunter Pays \$119 for Hunting Game Against Statutes

When Leslie Hughes of Woodburn undertook to anticipate the Chinese pheasant season, Wednesday, he reckoned without his host, or rather without his automobile. As a result he is minus the sum of \$119 after a session in Salem justice court.
 Hughes and a companion whose name has not been ascertained, left their car on the Pacific Highway near Woodburn, Wednesday afternoon and were hunting Chinese pheasants in a nearby field when District Game Warden Roy Bremmer happened by and halted near Hughes' machine.
 With the start they had on the game warden it was an easy matter for the hunters to take to the timber, but the Salem warden did not maintain a very serious pursuit, being content to return to the hunters car where he found two Chinese pheasants and a "Bob White".

Rain and Cold Weather Predicted

It does not require a weather prophet to make this prediction; the season is on us, when the rains will start, with cold winds blowing their icy blasts, and the Auto owner will dread driving his machine; but, that only means those who own the Open or Touring Car. The owner of a Closed Car will retain the happy smile, and continue to enjoy the conveniences and joy of motoring

Enclosed in plate glass with clear vision to every occupant of the car, riding on beautifully upholstered cushions, the car nicely warmed from the engine, the driver and guests protected

from the icy blasts and down pouring rain, the owner of a Ford Coupe, or Sedan—laugh at the elements and continue motoring without interruption.

quail. The game warden then sent for a mechanic and had the machine towed to Salem leaving a note as to where it could be found by its owner.
 Mr. Hughes appeared in Salem, Friday morning and after claiming his machine plead guilty to the charge of having the birds in his possession. He refused to disclose the identity of his companion. For the hunting offenses he was fined \$100 in addition to costs of \$18.

The Chinese pheasant season opened officially, October 1 and will close at midnight October 31. These game fowl are not reported as being plentiful, this year, due to the intense cold of last year during

which period many of the birds were frozen to death.
 There is no open season on quail in this county. The duck hunting period opens October 15, although in other counties, especially those near the coast, October 1 was the opening date.
 Marion county nimrods are reminded that it is always unlawful to carry firearms or hunt within the limits of incorporated cities or upon state lands.
