

Daredevils Perform on 1 Plane

For the first time in the history of aviation two performed stunts simultaneously on one aero. The first was "pulled" at Long Beach, Cal., by Clarence Doolittle and Wiley Post, 500 feet in the air, while Doolittle piloted the plane. The exhibition was performed in the face of an adverse wind which endangered the aviators. The above photo shows Braumier doing some stunts on the "flying tractor" while Post is balancing the machine. The photo shows the men swinging their arms in easy grace.

Rain Pit Sign Language Is Again Used by Traders

Chicago, October 12.—Sign language, with its mysterious and its vital importance to the trader, has again been used in the grain pit after an absence of three years with the recent resumption of dealing in wheat futures delivery on the Chicago Board of Trade. The simple movement of the fingers buyers and sellers in the world open market where supply and demand are the dominating influence make transactions worth thousands of dollars within the limits of a few minutes. There is seldom an error despite the volume of business each day, said Israel P. Runsey, who became a member of the board just sixty years ago this month. The board's rigid rules no contract, oral or written, are more binding than the contracts to which a board member is a party. A clenched fist, palm turned outward, and you are dealing that you'll sell at an even price of 24 1/2. A finger extended means 1 1/2 cent, two fingers 3/4 cent, and so on. Turn the palm inward it signifies a desire to purchase. When the fingers are held vertically the quantity is indicated, each finger representing 5,000 bushels. To the onlooker it is as if to see a hundred arms and several hundred fingers in the air at one time. But to the official reporter who records each transaction and to the traders themselves there is no doubt of misinterpretation.

Negro Preacher Baptizes Four White People

Hyannis, Mass., Oct. 14.—The end of feast week of the Holy Christian church of the Apostolic Faith, was signalized here by the baptism in the waters at Hyannisport shore of four white persons and a negro child, by Bishop John Edward Harris, a negro preacher of oblation. He was assisted in the baptismal rites by Senior Elder Albert Anderson, a negro. The four white residents of Hyannis to be baptized were Mrs. Nettie Cottle and Earl Cottle, wife and son of a railroad fireman, who wants to sell his home and take up preaching under Bishop John Rogers, aged 74, a car shop worker, and Percy Lorin Clark, a railroad brakeman. The Bishop stood on a box float, five minutes before the baptismal rites to the congregation of mixed color, who sat on lobster pots and boats. Each communicant was baptized by being forcibly thrust forward three times beneath the water.

Too Many Jail Breaks; Jailer Resigns His Job

Taylorville, Ill., Oct. 14.—After seven prisoners had escaped from the "hoosegow" in as many days Jailer John Mienheimer resigned his job. Relatives who brought saws, hammers and other implements of assistance in jail breaking to inmates were blamed for the wholesale escapes by the jailer.

* THE EASIEST WAY *
* TO END DANDRUFF *
* ***** *
There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail. (adv.)

Portland.—Three acres have been purchased at St. Johns as a warehouse site for the Western Wool Warehouse company. The location also has dock facilities, modities.

Construction of the first unit will begin within 60 days. The company expects to be able to make by re-discounts, from \$6,000,000 to \$10,000,000 in wool loans. In off seasons the building will be enabled to store grain and other commodities.

Collage Grove.—Within a month an iron foundry will be placed in operation here by James Feeney of Tillamook. It is to be brought from Redport and will occupy a new two-story building. It will be able to handle a casting up to three tons.
