

### The Campaign.

The republicans have made a political science of hatred, and of the lofty achievements of President Wilson a creed of contempt.—Newspaper editorial.

They have hymned them a hymn of hatred,  
And they chant with an arid sneer,  
While our splendid dead in Flanders fields  
Are but ghosts of a vanished year—

Our splendid dead in Flanders fields,  
High youth, high heart, high fate,  
Are vain in the hymns of hatred—  
Ye fools and ye swallow the bait.

They have groped for the lie and slander,  
They have jeered at the heart of the world,  
They have flouted the world-wide vision  
And ebb'd as its flag unfurled—

They have flouted the world-wide vision,  
Cold greed, cold heart, cold hate,  
And our dead lie chilled in Flanders fields—  
Ye fools and ye swallow the bait.

They have harried the love in mothers,  
Tricksters in tongue and mind,  
And prayed to the gods of hatred,  
Reckless, unenvenomed and blind—

They've naught but their bitter hatred  
As they ply with the lusts of hate—  
While our dead lie splendid in Flanders—  
Ye fools and ye swallow the bait.

They have lied in an evil blindness,  
They have sneered at a sick man's soul,  
They have mocked at the League of Nations  
And schemed for a faithless goal—

They have mocked at the League of Nations  
And strangled its visions with hate;  
Have our dead died vainly in Flanders?  
Ye are fools and ye swallow the bait!

CHARLES JOHNSON POST,  
(In the N. Y. World.)

### Chi Wheat King Was on Canal Berlin Sees 'Eve' Dance;

Helena, Mont., Oct. 22.—James Patten, wheat king of Chicago, is known familiarly to a few old cronies in the little town of Gilman, 70 miles north of here, as "Red." He gained the name for his aggressiveness and ability to accomplish things when he was employed on the old Dearborn Canal thirty years ago.

"Red" Patten was discovered to be the wheat king when he met Orin Brown and the Alhambra Hot Springs, near here, recently. "Red" Patten taught Orin Brown how to play checkers during their leisure time on the canal job years ago.

Donald Bradford, a pioneer of this city, built the canal, which was one of the first big irrigation districts in the West. Among the men on the job was "Red" Patten. He was at Gilman for several years and is well known and remembered here. Later Patten went to Chicago and became a multi-millionaire.

Brown and Patten met when Patten came to Alhambra to visit his son's ranch, which the wheat king bought for the benefit of his son's health. The younger Patten is making a reputation in this section of the State as a farmer of ability. His wheat yield was close to the record, and his neighbors say it is due to hard work, for the most part, and some natural inclination for the golden grain.

Berlin, Oct. 22.—"May I have the pleasure of the next stork-trot?" That will be a frequent question on German ballroom floors this Winter, according to a decision of the German Dancing Instructors' Association in their national meeting at Dresden.

While American dancing teachers are putting on the brakes and calming the American Methodist clergymen with talk of qualitates and Virginia reels, their German colleagues are pulling their long hair in an effort to invent something wild. They have succeeded, if one can judge by the titles of the new steps.

The "stork trot," the "cock dance" and the "let erf" will be the new frenzies which will compete with the none-too-refined "rocking Boston." But, after all, when you compare the suggestive "stork trot" with the "Venus dance" and the "Eve dance" offered in the Berlin theatres and cabarets, where the beauties wear the entire of Venus and Eve so popular among artists, you will understand why the dancing masters must take the new season's offerings wilder.

### New Japanese Line Starts Soon

Tokio, Japan, October 22.—What is regarded by some as a part of Japan's answer to America's extended shipping activity is the Japan-South America line of the Osaka Shosen Kaisha Steamship Company, which will start operation under Government subsidy on October 25. The line is to operate between Kobe, Japan and Buenos Aires and will have Cuba, Los Angeles and San Francisco on its ports of call for the return voyage.

The Osaka Shosen Kaisha is taking some of its best steamers for the South American run, and it is understood that this new undertaking will have the unlimited backing of the Japanese Government. The ships will leave as follows: Canada Maru, October 25; Tacoma Maru, November 25; Panama Maru, December 25; Seattle Maru, February 10; Mexico Maru, March 10; Chicago Maru, April 15.

### Albera Wheat Farmers Reap Golden Harvest

Edmonton, Alberta, Oct. 22.—Millions of Alberta are busy reaping a bumper crop of wheat. The bumper crop is a result of the prosperity due to a bumper grain crop. With wheat moving to a market, farmers have become the most numerous purchasers of the provincial Government's domestic bond issue. Local bankers declare they expect the remaining portion of the issue to be taken by rural investors.

The bond issue was offered by the Government as an experiment to see whether money for the provincial treasury could be raised at home. Former issues of larger amount had been taken by bond dealers in the East. This time an opportunity was given provincial buyers with an issue of \$1,000,000. This has been more than half subscribed. The bonds are in denominations of \$100, \$500 and \$1,000 and bear interest at 6 per cent. The interest the farmers have shown in the bonds has made this domestic plan successful and the Government, it said, proposes to make domestic bond issues a permanent feature of its financial policy in the future.

### Arms May Now Be Shipped Ino Mexico From U. S.

Mexico City, Mex., Oct. 22.—American manufacturers of arms and ammunition are now being permitted to export from the United States to Mexico moderate quantities of shot-guns and hunting and sporting material, according to information obtained by the American Chamber of Commerce from the State Department at Washington.

Until recently the United States Government would not permit the shipping into Mexico even of shotguns desired by hunters. Other countries raised no such barrier and foreign manufacturers have gained the inside track in the sale of sporting pieces and ammunition. Germany, quick to see a chance in its eager struggle for trade, has made two large shipments of arms and ammunition to Mexico in the past three months. According to word from Washington America manufacturers are limited at present to the exportation of moderate quantities of shotguns, shotgun shells, loading tools for same, sporting precision percussion caps, primers, BB caps, twenty-two-calibre cartridges, and cap-shooting materials of all kinds.

### T.R. Preferred Bird Refuge to All Memorials

By William L. Finley.

Theodore Roosevelt issued a special executive order No. 229 on August 18, 1908, creating Malheur Lake reservation "For use of the Department of Agriculture as a preserve and breeding ground for native birds." Since that time the Federal government has had full charge over the lands and waters within this reservation, and has employed a warden to protect the birds that live there. For several years certain promoters have been trying to get the state of Oregon to gain possession of this reservation through the courts so the lake can be drained and the alkali land sold to unsuspecting farmers.

Points at Issue.

The points at issue in the Roosevelt Bird Refuge Measure are very plain. This bill clears the title and the state does not start a long legal battle with the Federal government. If this measure passes settlers and land owners will hold exactly the same water rights as they now have. The bill does not interfere with irrigation and honest development, but it does block the promoters' scheme of draining the lake.

Roosevelt's judgment in this matter was sound; he was greatly interested in all irrigation problems and also just as much interested in the conservation of wild life. His opinion was that Malheur Lake was worth more to Oregon as the greatest wild fowl refuge in the United States than it would be drained and destroyed by promoters.

Theodore Roosevelt was an American of action and keen foresight. His policy of conservation saved great natural resources of our country from special interests. It is universally acknowledged that he deserves honor from the people of America.

"Bully," said Teddy.

In a conversation I had with Theodore Roosevelt in the Outlook office in New York concerning Malheur Lake Reservation, I said: "It will be one of the greatest memorials to your far-sightedness when both you and I are gone."

He leaned over in his characteristic way and said: "Bully! I had rather have it than a hundred stone monuments." Here is the greatest living memorial to this great American. Shall we destroy it or preserve it?

Can anything be more appropriate than at the time that we are celebrating the birthday of Theodore Roosevelt for the people of Oregon to vote in favor of the Roosevelt Bird Refuge Measure—#16 X YES—making permanent the greatest wild fowl nursery in the United States, a feature which is unique and can be capitalized like Crater Lake and the Columbia River Highway. I believe our voters will honor Oregon and Theodore Roosevelt.

An effort is being made to organize New York city's 12,000 girl telephone operators. Girl mill workers in Manchester, Eng., work 21 hours a week for 11 cents an hour.

The voters of Dallas are asked to vote bonds for the construction of hard-surfaced roads within the road district in which Dallas is located.

### Marion Babies Undergo Tests At City Clinic

Dr. C. E. Moore, of Portland, specialist on childhood diseases, was leader in Thursday program of the regular monthly clinic of the Marion County Children's bureau at the rooms of the Salem Commercial club.

Many children from Salem and vicinity were examined by Dr. Moore who was assisted by Salem doctors and nurses as follows: Dr. J. H. Garnobist, Dr. C. E. Downs, Dr. L. E. Fisher, Miss Lillian Godsey, Miss Grace Taylor and Miss Mina Cook.

During the clinic, twenty-five babies were examined. Many of these were brought from distant Marion county points.

In the course of his examinations of the wee tots, Dr. Moore allayed the anxiety of several of the mothers by explaining that ailments reported in several instances were peculiar to childhood, only. Each child was given a careful physical inspection and instructions were given in each instance as to the proper schedule in the matter of diet and general care.

Dr. Moore placed especial emphasis on the value of breast feeding, making this statement: "There is absolutely no reason for the discontinuance of breast feeding, under nine months, aside from the death of the mother or the presence of tuberculosis."

Results of the tests will be announced at a later date.

### Newton Place At Donald Sold

Donald, Or., Oct. 22.—The Newton farm near here was sold recently to a party from Mt. Angel who will take possession Monday and move his family there. Newton Bros. purchased the property from Williams Bros. less than a year ago.

Mr. Weisnar of Woodburn has been looking after his farming interests in this vicinity. He has sold his property in Woodburn and will spend the winter in California.

Mrs. Gertrude J. M. Pace of Salem was a recent visitor with friends in Donald.

Mrs. Helm, mother of Mrs. J. L. Goff, who was brought home from

London, Oct. 28.—Miss Marlane Caldwell, a London actress, has been drawing a salary for four years, and has not done any work for it. In 1914 she was engaged for "the run of the piece," for "Chu Chin Chow" at His Majesty's Theater. Before this obstinately successful play was produced it was found that Miss Caldwell need not be called upon for the part she had rehearsed and her services have never been required since.

170 N. Commercial Street

### To the Voters of Oregon!

The taxpayers of Portland and Multnomah County are not only willing but anxious to provide the Port of Portland with needed funds for dredging our River Channel to the sea. The Committee that formulated what is known as the Port of Portland and Dock Commission Consolidation Bill under the numbers 310 and 311 on the ballot insisted, however, upon weighting down the measure with an enormously expensive real estate scheme, and by a formal vote turned down the request of taxpayers that the Swan Island scheme and the River Channel scheme be presented as separate measures. Refusing to be forced to swallow something they cannot approve, Multnomah County is expected to vote adversely to the whole scheme by an overwhelming majority. Having done this, they will then be ready to vote for any needed amount for improving our River Channels. A Committee of the City Club has submitted a detailed analysis of the measure showing that it means an ultimate expenditure of at least \$40,000,000.

### The Taxpayers of Portland Appeal to You

Our Chamber of Commerce and other civic bodies with all of our river pilots and stevedore owners and others have protested against it. At least twelve former and present members of the Port of Portland and the Dock Commission have declared against it. A majority, if not all, of our City Commissioners oppose it. The Committee of 15 itself that drafted the measure is divided.

in a spirit of fair play to save this county from the imposition upon us of such an overwhelming and paralyzing debt as this measure contemplates. It would be deemed offensive if we gave expression to what we believe to be the selfish and ambitious political motives that have inspired the measure which is submitted with a distinctively deceptive title.

We simply appeal for fair play and a decent consideration of the hopeless plight in which this community will find itself if the measure carries. As citizens of outlying counties who will not have to pay a dollar of the debt imposed, we appeal to you to consider what would be your feelings if Multnomah County should try to impose a similar burden on you. Our interests in a general way are mutual.

It is our sincere judgment that the success of this measure will seriously retard, instead of promoting, the development of this port and that the state at large will in return suffer severely as a consequence.

### Vote Measure Number 311 X No

Taxpayers Vigilance Committee  
ROBT. J. LINDEN, Secretary
