**CHICAGO, Nov. 19.**—Sentiment in a saloon has its drawbacks, two of which are bartenders and patrol wagons.

Miss Jessie Gordon and Miss Eva B. Brown, aged twenty-three and twenty-one, and John J. Davis, of Kansas City, Missouri, are the principals of a case in point. They recently opened with Lieutenants Lukes and Garrick a discussion of just how close ardent love may resemble a fight.

"He tried to make love to us," declared one of the young ladies, after their arrest by Policemen Hayes and Anderson in a downtown buffet.

"They were fighting," declared the bartender who was on duty at the time. "It was a three-cornered mill, and it looked like they would wreck the place."

Miss Gordon said that she and Miss Brown had been automobiling with Davis and three other men who left them earlier in the evening. They were drinking in a booth at the time Davis is said to have made amorous advances. The girls resented, with accompanying damage to glassware about the buffet.

Berlin, Nov. 19.—Although Allied officers may go where they please in Germany and in a high-handed way demand information in furtherance of the fulfillment of the Versailles Treaty, it's a thangle and dangerous undertaking for German citizens to engage in the spy business for the Entente.

The Munich police have arrested three young mechanics ranging between nineteen and thirty-one years of age on the charge of high treason. The youths are accused of having attempted to sell information to the Entente. One of the defendants declared at the preliminary hearing that he had been informed that for information of the type he was peddling the Allied Missions had been known to pay as much as 300,000 marks, and he didn't know why he shouldn't also receive some of the easy money.

Washington, Nov. 19.—Germany's exports will pass imports during the present year, if the record made by that country in May, as just announced by the Bureau of Foreign and Domestic Commerce, continues throughout the war.

The bureau, in explaining the large increase in Germany's imports and exports during the first five months in this year, as compared with the same months last year, explains that the value of the mark has depreciated in that time. The exports, however, increased from 251,000,000 marks, in May, 1917, to 6,417,000,000 in May, 1918.

Last year's figures, made public by the German Government and received here indirectly by the Department of Commerce, show that Germany imported goods valued at 32,376,000,000 marks last year, against exports of 19,157,000,000 marks.
