Ask Your Wife Tonight
 HOW SHE WOULD HANDLE YOUR ESTATE if she were suddenly left ALONE. You would doubtless find her rather vague on the subject—women are rarely proficient in financial business.
 MAKE SURE that the necessity for handling Your estate will never fall upon YOUR wife. Name this bank as Trustee in your Will and she will never need to bear this burden—and a steady income is assured.

Prejudice Against Glasses
 Persons are often prejudiced against glasses and sometimes positively refuse to wear them even when they know they are imperatively needed.
 But a contest with age is hopeless, and it is the wisdom to yield gracefully to the first summons to surrender.
 We are prepared to give you advice in this matter—correct advice, time-saving, sight-saving advice. We are properly equipped for making thorough and intelligent examinations of your eyes and if you need glasses, we furnish them at as low a figure as correct lenses and perfect fitting frames can be had anywhere.

WHAT IS SCIENTIFIC ACCURACY WORTH TO YOU? It doesn't seem to make much difference whether a lens varies from a prescription by one ten-thousandth of an inch. Yet even so slight an inaccuracy has its inevitable effect upon the eyes.

We pride ourselves on having the finest lens-grinding room on the coast. Yet we are still more proud of the accuracy of the lenses we grind. Every scientific help, every bit of personal technique that scientific training and long practice can bring to bear, are used in grinding lenses for YOUR eyes.
