Dr. Wirt Will Speak Here on Day of Thanks

An appeal for ample and immediate aid for the Near East relief was made by Dr. L. L. Wirt, at the Rotarian banquet at the Marion hotel, Wednesday noon.

Dr. Wirt, who has just returned from Armenia, spoke of terrible conditions existing in that country. The Turks remain insolent and interfere with relief work, he asserts.

While speaking a good word for relief work in Central Europe, Dr. Wirt made the point that these children and families have homes and governments behind them while the Armenians are without homes and surrounded by Moslem enemies who are determined to destroy them because of the Armenian allegiance to the Christian religion and to the allied cause.

The many Salem business men and residents who thronged the banquet room were treated to an inspired description of the Holy Land and the sacred ideas with which it is associated. Dr. Wirt told of the British expeditionary forces' success in bringing to a realization the dreams and wishes of the old Crusaders.

Dr. Wirt said that of all the heroes of the recent war, British soldiers must be given credit for their accomplishment in restoring to Christianity the Holy Land and giving aid to the Armenians. The troops of some other nations failed to this, he said.

Dr. Wirt will deliver the Thanksgiving address at the First Presbyterian church at 10 a. m., Thursday morning.

Representative Mondell Hurt; Crutch Breaks
 Washington, Nov. 24.—Representative Mondell of Wyoming, republican leader of the house, was confined to his bed today as a result of the third accident he has suffered since congress adjourned last June.

While ascending the steps at his home here last night, a crutch which he was using as a result of a previous injury, broke causing the representative to sustain a severe fall. The extent of his injuries has not been ascertained today.

Soon after returning to his Wyoming home last June Mr. Mondell fell from a hay stack on his farm and suffered two broken ribs. The second injury—a broken leg—occurred in October when a boulder rolled down upon him while he was inspecting construction work at the Shoshone dam. Examination this week was said to have revealed that the bone was knitting improperly and probably would have to be re-broken.

pose. Many of these requests have already been formulated. Anyway to get a hand into the public crib and there never was a time when the public have scrutinized the acts of a legislative body so closely as they will be the coming session. Judging by the number of letters I have received, commending the few short articles I have written on this question before election, but the election itself sounds a note of warning. The extension of time, division of session, the mileage and raise in salary, all having been defeated, and the strongest opposition came from Marion county where people are most familiar with the legislative acts, and where it should be a special benefit to people locally. The salary is certainly insignificant, but they must get the confidence of the people before there will be an increase. Let them abolish the plan of electing presiding officers, committees and chairmen weeks before the members are sworn into office or assume their duties. Let the members elect the committees. Abolish personal clerks and stenographers. Cut down the employees to just a sufficient number to do the work. Make a rule that no one can be employed who is related to any member of the body. Create no new jobs for office seekers. Provide state institutions with what is absolutely necessary, but cut out all unnecessary buildings and expenditures until such time as we get back to normal conditions. Show a general inclination to be economical. Cut out all lobbyists or make them register as such with the secretary of state. There are many more things that might be beneficial. I am seeking no office or notoriety, but shall not hesitate to express my thoughts thereafter. L. H. SUTER.

Patronize Home Industries. To the Editor:—I remember that upon one occasion a certain Farmer's Union lecturer was telling the farmers of Oregon of the mistake they were making. He said: "The great mistake with the Oregon farmer is that he doesn't live at home—he depends on selling produce to such. You are continually buying something, and you don't ever sell anything. To illustrate what I mean, I need but call your attention to the fact that when you awake in the morning it is to the alarm of a Connecticut clock. You get up and button Chicago suspenders to your Detroit overalls. You go out and wash your face with Cincinnati soap in an Indianapolis wash basin. You sit down to your breakfast and eat from a table made in Grand Rapids, Mich., and you eat Chicago meat. Your bread is made of Idaho flour, cooked on a St. Louis stove. You go out and put a New York bridle on a Kentucky mule, fed on Iowa corn, and plow your farm all day, which is covered with a Massachusetts mortgage. And at night when you get home you read a Bible printed in Boston and you say a prayer that was written in Jerusalem. And you crawl under a blanket manufactured in New Jersey, to be kept awake all night by a damned dog—the only home product you have on the farm." R. R. G.
