2 Polk Couples Married; Both are Well Known

Dallas, Dec. 7.—A surprise in the matrimonial field came to pass on last Saturday when Willis H. McDaniel was married to Stella M. Stinnette. Miss Stinnette is the daughter of Mr. and Mrs. Charles E. Stinnette who live on a farm near Rickreall. Miss Stinnette is popular among the younger set of Dallas and has attended the Dallas public and high school.

Mr. McDaniel is the son of Willis H. McDaniel, senior, who is a farmer living near Rickreall.

The young couple were married at the Methodist parsonage by Rev. Frank James, and departed for a short honeymoon. They will return to the McDaniel ranch to make their home.

Rasmussen-Minty
Miss Louise E. Rasmussen was married to George R. Minty yesterday, at the home of the bride. Miss Rasmussen is the daughter of Mr. and Mrs. N. P. Rasmussen, prominent farmers living east of Dallas on the Dallas-Moonmouth road.

Mr. Rasmussen is a prominent prune raiser and prune dryer, having erected one of the largest prune dryers in the country last year.

Mr. Minty is at the present time living near Corvallis where he is conducting a prune ranch. He is an ex-service man, having served with company L from Dallas in France. He received several wounds during his service. At the battle of Belleau Woods he received a wound from a bullet fired by the guns of the Germans. The bullet penetrated the back of his head and came out in his left cheek. The result of the wound made him unconscious and he lay on the battle field for two days, listed among the dead; but he was later discovered and recuperated after several months in the base hospital. The young couple will make their home on Minty's farm.

Fruit Cannery Closes Season

Silverton, Dec. 7.—In closing the Silverton cannery Saturday evening the Silverton Food Products Co. completed a most successful season's work, all things considered, and the stockholders have become so greatly encouraged that elaborate improvements will be made in the plant during the vacation period. When the season opens again with the ripening of the first crop of fruit, the plant will have been enlarged and necessary equipment will be ready for a greater volume of business.

Manager Hartley states that the company has been handicapped more or less during the first season by reason of a shortage in the fruit crop and inadequate rooming capacity. This winter they propose to provide all the rooms required for greater business and add such equipment as may be necessary to take care of the business. Mr. Hartley believes that with an average crop of fruit next season the output of the plant will be more than doubled.

The plant has been in constant operation since the first of the season, employing 50 people, and running full capacity up to the end of the preceding week when the last of the apples passed through the preserving process. Mr. Hartley stated that during the last few weeks more than 100 ones of apples have been put up, aggregating something like 1800 dozen gallons of apples.
