

Arrangements Made on Recall Of Polk Judge

Dallas, Jan. 1.—The people promoting the recall against County Judge Robinson report that it has taken longer than expected to secure the recall petitions, but the documents are ready now.

Following the recall convention it was found necessary to organize the committee and formulate the charges upon which the recall will be asked. Before the attorney could get to work it was necessary that he have this information.

In addition the committee secured full data from Baker county, where a recall election was recently held. Members of the committee thought it best to secure all possible information before formally proceeding.

More than a hundred applications are on file from those willing to circulate petitions, and if each one of these gets ten, there will be signers a plenty and some to spare.

During the past week there has been a big change of sentiment in Dallas relative to the recall of Judge Robinson, the county judge, and the members of the Ulrich for county judge committee are now confident that their candidate will carry the town.

The members of the committee say that reports from all sections of the county are favorable, and that from now on it will be an aggressive fight. If Judge Robinson stays in the field they say they propose to defeat him.

Following the filing of the petition with the requisite number of names, and the calling of the election Judge Robinson will have five days in which to resign. It is believed, however, that he will risk the election.

The campaign issues are becoming apparent. It is now evident that the state highway matter is to cut a big figure in the battle for votes. The Ulrich committee is preparing to lay before the voters the testimony in the Portland trial, where the court found against the contention of the Dallas and Independence citizens. This testimony is held to reflect upon Judge Robinson.

Plans are being made by the recall forces for a series of old-fashioned campaign meetings during the election. It is proposed to go before the people with a definite program, and to ask support upon this ground. No personalities will be indulged. No personalities will be indulged. No personalities will be indulged. No personalities will be indulged. No personalities will be indulged.
