World Crying For Reduction Of Navies, Claim

Washington, Jan. 21—Staggering burdens of taxation resulting from the world war have caused the peoples of all nations to favor a world agreement on disarmament, Henry White, former ambassador to France and a member of the American peace commission to Paris, declared today before the house naval committee holding hearings on this subject.

"I think the world is crying for some agreement," said Mr. White, "but I do not favor the United States being the only nation to disarm."

The United States, he added, should take the initiative in the disarmament movement, and the conference should be held in this country. Any gathering looking to general disarmament should include France and Italy as well as the United States, Great Britain and Japan, he said, but discussions looking to a reduction of naval building only should be limited for the present at least to Great Britain, Japan and the United States.

"Would not general disarmament open the way to bolshevism throughout Europe?" he was asked.

"I think France might feel that way," said the witness. "The keeping of Germany in a state of chaos over reparations is opening the way to bolshevism more than any other factor right now, in my opinion. The present condition of Germany makes bolshevism a menace."

Resignation of Logan Needed To Appease Senator

Resignation of John F. Logan as a member of the state parole board not later than March 1 would sufficient appease Senator Eddy to bring about the withdrawal of his senate bill number nine it was stated here following a meeting of the revision of laws committee which had the bill under consideration.

The bill which would bar attorneys or court officials from membership on the parole board is regarded as aimed specifically at Logan between whom and the author of the bill there is said to be no high mutual regard

Logan was appointed to membership on the board October 26, 1911, and has served continuously since that time.

It is understood here that he is willing to yield to the terms set forth by Senator Eddy for the withdrawal of his bill if that sentiment is backed by a majority of the senators, rather than permit the measure to take its course and become a law.

Calkins Brands Buyers' Strike As Serious Move

San Francisco, Jan. 21.—John U. Calkins, governor of the federal reserve bank of the twelfth district, in an address here today said that the "buyer strike" would not come to an end until an equitable relation had been established between producers prices and consumers prices. He said the "strike" was a "tremendously effective" factor in the present curtailment of business.

"The buyers strike is very serious," he said, "for so long as it blocks retail trade, business cannot revive." Retail stocks are low, he asserted and the public is ready to buy just as soon as prices satisfy.
