

Boosters Club Aims to Enroll All Sport Fans In Salem and Vicinity Behind Willamette Varsity Teams

"Every sport fan in Salem and vicinity a member!" That is slogan before the membership committee and the rest of the club members, for every member is a membership committee in himself, at the opening of the membership campaign of the Willamette Athletic Boosters club today.

"We are out to get everyone, man, woman, or child in and around Salem interested in athletics and who wants to see more and better athletic contests played in Salem, to join the club," is the announcement of Dr. H. H. Olinger, president.

Purposes Explained.
"The club was organized to support and promote athletics at Willamette university—to show the teams representing the Salem school in contests with the rest of the northwest colleges that we are behind them. Willamette has had some creditable teams in the past and, as a non-conference college, made a wonderful record, even with but meager support from the people of Salem. But now they have tackled something bigger and have got to have the whole-hearted support of the community."

"When Willamette enters the Northwest Intercollegiate conference she not only assumed the responsibility of developing better teams to compete with those of colleges having many times the number of students registered here, but it assumed a financial responsibility many times as great as was formerly carried. To make trips into Washington, Idaho and Montana, or to bring teams from those states to Salem costs money, and the gate receipts at the games played here must be sufficient to meet these expenses. Big gate receipts are the result of unanimous support from the athletic fans of the community, and it is to stir up the interest which has been lying dormant in and around Salem that this club has been organized."

Will Insure Good Games.
"Willamette has not been entirely selfish in its endeavor to get into the Northwest conference, by any means. The students and school officials realize, of course, that to rank athletically as a class A college they must enter into competition with colleges of that class, but they also need the interests of the sport lovers of the community at heart. They realize that the Salem fans want to see the best football, basketball, track and baseball teams in the west in action here, and they are trying to bring them here."

"To accommodate these terms and to accommodate the spectators who want to see the contests, better athletic equipment, better playing fields and floors, and better seating facilities for the crowds are necessary. But the students lack the finances to meet these incidental, though necessary expenses, and it is here that the Willamette Athletic Boosters club will function."

Join and Help.
"If you are interested in athletics if you want to see Willamette remain a member of the intercollegiate conference, if you want to see football, basketball, baseball and track teams from the universities of Oregon, Washington, Montana and Idaho and the agricultural colleges of these same states in action in Salem—if you would help make all of this possible join the club. It means athletics of the highest class for Salem; it means a greater Willamette university and a greater Salem."

No time limit has been set on the membership drive, but it will be rushed at top speed during the coming few days in order that the club may be fully organized and ready to function as soon as possible. About fifty members were enrolled Thursday afternoon following the meeting of the executive committee at which plans for the campaign were laid and membership cards handed out to those present.

Membership cards may be obtained at the Graybelle, The Spa, Smith's cigar store, Adolph Bros. cigar store and Hauser Bros. The membership fee is one dollar and members are not subject to assessments.

Shall Men Keep Hats On in Lifts?

Cincinnati, Ohio, Jan. 27.—Shall men keep their hats on in the presence of women while in public elevators?

This question has occasioned wide-spread comment here. The Building Owners and Managers' Association here has suggested that the practice of men removing their hats when women step into the elevators be abolished.

Members of this association say one man's eyeglasses were broken and he was injured as a result of doffing his hat, and that numerous accidents have occurred, due to the slippage of courtesy.

Cincinnati club women, however, oppose the suggestion.

"Simply because women have received the right to vote, or have entered the business world, is not a sufficient reason to affect the innate courtesy of men, which a true gentleman will show toward a woman, insist officials of the women's clubs.

Expressing the hope that this old-time courtesy never will be discouraged, they say they do not see why relations between men and women should change in any way.

Japan Protests Yank Wireless Station In China

Tokyo, Jan. 24.—Japan will enter a protest against the construction with American capital of a large wireless station at Shanghai, with branches at Tien Tsin, Che Fung and Harbin, says the local newspaper, Nichi Nichi. This action will be based on the claim that the work would infringe upon concessions granted Japan, authorizing this country to build wireless plants in the interior of China.

If You'er A Booster, Join

Clip this Card, sign it, and mail it and one dollar for a year's dues to Harry Wenderoth, Ladd & Bush Bank, or the Sports Editor, Capital Journal.

WILLAMETTE ATHLETIC BOOSTERS CLUB

OFFICERS
Dr. H. H. Olinger, President
Harry Wenderoth, Treasurer

Burglar Found In Shop Escapes Despite Shots

Silverton, Or., Jan. 28.—Due to poor marksmanship or the fact that a gun in the hands of Mayor L. C. Eastman failed to act the second time, a burglar found in his place of business late Saturday night is still alive and unapprehended.

When H. R. Irish was passing the Silverton Blow Pipe company's establishment after 12 o'clock that night he noticed the front door was open. From his home he telephoned Mr. Eastman that he had observed and the mayor immediately went down to the shop. Before leaving the house he put his gun in his pocket. When he reached the shop, however, the door was locked. He then called Mr. Irish to make sure that he was not mistaken and learned that the door was really open when he pushed the door. Eastman returned to the building and quietly entered the front door and as he stepped in the front office he heard someone in the back room. He opened the side door and looked out in the shop just in time to see a man making his exit by way of the back window. The mayor fired, but missed his mark, and attempted to fire again but the gun failed and before he had time to get it in shape the burglar had disappeared in the darkness.

Mr. Irish, in the meantime, went back to the shop and others hearing the shooting ran to the scene of the excitement. Upon investigation it was learned that the burglar had entered the building from a side window and broken a lock on the door leading from the stock room to the main office. The safe, which is never locked, was open and papers were scattered over the office floor. There was some money in the same, but the intruder had not attempted to tamper with the lock. Nothing was found missing.

Mr. Eastman believes that the party wanted to get hold of some papers which he thought might be in the safe. The bullet fired at the burglar entered the wall probably not more than 10 inches above his head as he went out the back way.

Rumors of Mill At Crabtree Are Rife In Vicinity

Crabtree, Jan. 28.—People living in this vicinity are anticipating a little boom in Crabtree during the summer since the report is current and well founded that the Hammond Lumber company contemplates building a road from here to the timber belt at the head waters of Crabtree creek. It is also stated that the Hammond company will build a mill at this place.

Men have been here surveying for the road during the past few days and representatives of the company are negotiating with different property owners with a view of buying a mill site. On the strength of this anticipated manufacturing activity property valuations have already advanced a little.

Whether or not the mill will be erected seems uncertain at this time, but it is stated that the company has definitely decided to build the road to their timber in this vicinity, and if the mill is not built the logs will be taken out by way of this station and hauled to the Mill City plant.

Man Arrested For Advertising Drink With 'Kick' In It

Pueblo, Colo., Jan. 27.—A Fuschino, prominent Pueblo business man, apparently wanted to let his thirsty friends in on a "good thing," so he advertised, prohibition enforcement officials charge, that a mixture of a certain kind of bitters and a soft drink had a real "kick." He was arrested by United States officials on a charge of violating the Volstead act.

The bitters, according to federal officials, were advertised as having an alcoholic content.

The case is said to be the first of its kind since the enactment of the Volstead act, and will be prosecuted as a "test."

"As I understand it," said United States District Attorney Bock, "there is no call on the part of the government that Fuschino violated the law in advertising the alcoholic content of the bitters. The violation, if there was any, was in suggesting the combination of the bitters and the soft drink, the implication being that the result would contain a 'kick.'"

As I understand it, said United States District Attorney Bock, "there is no call on the part of the government that Fuschino violated the law in advertising the alcoholic content of the bitters. The violation, if there was any, was in suggesting the combination of the bitters and the soft drink, the implication being that the result would contain a 'kick.'"

Inspection Of State Guard Set For Next Month

Dates for the annual army inspection of the Oregon national guard to be made by regular army officers have been announced by Adjutant General George A. White and are being sent to all commanding officers of the organizations.

On the reports of the inspecting officers the continued issuance and retention of military property given by the government to national guard units will be determined by the war department.

Units will be inspected in full field equipment and particular attention will be paid to the care of small arms. All commanding officers are urged to have all military property received by them, accessible and ready for inspection at least one day before the inspecting officers arrive at their station.

Officers and enlisted men temporarily absent from their home station may be attached to any organization for inspection upon orders issued from the headquarters of Adjutant General White.

The schedule for the inspection follows:

- Co. D, Medford, Feb. 9.
- Co. C, Eugene, Feb. 11.
- Co. K, Independence, Feb. 18.
- Co. M, Salem, Feb. 21.
- Co. I, Silverton, Feb. 22.
- Co. B, Portland, Feb. 23.
- Headquarters Co., field and staff, Portland, Feb. 24.
- Headquarters Co., Portland, Feb. 24.
- Machine gun company, Portland, Feb. 25.
- Supply company, Portland, Feb. 28.
- Co. F, Portland, March 1.
- Co. G, Portland, March 2.
- Co. H, Portland, March 4.
- Co. A, McMinnville, March 7.
- Co. L, Dallas, March 8.
- Co. E, Portland, March 9.
- Sanitary corps, attached to 5th infantry, March 3.
- Engineers, Co. A, Portland, March 11.
- Coast Artillery, First company, Ashland, Feb. 7.
- Second company, Marshfield, Feb. 16.
- Second company Newport, Feb. 14.
- Government property in possession of the United States army and property and disbursing office at the armory in Portland, also the Blackhawk rifle range will be inspected on March 19 and 12.

Motor Stalls, Auto Hit by Street Car; Driver Is Angered

Declaring that the motorman of the streetcar which struck his automobile while it was stalled on the State street track this morning, M. J. DeLapp, 225 State street, told police this morning that he would hold the streetcar company liable for damages.

Mr. DeLapp said he was just crossing the track when his motor went "dead." While he was endeavoring to persuade the engine to again function, the streetcar bore down on him and struck the machine, he said. His automobile was slightly damaged.

Attended Sunday School 91 Years

London, Jan. 27.—Has America any Sunday school attendance that can equal those of Wales?

It will require something out of the ordinary, for there are people in Wales fast approaching centenarians who are still active in their attendance at Sunday school.

The Gee memorial medals for the longest Sunday school attendance in Wales were awarded to the following:

Owen Jones, aged ninety-four, ninety-one years' attendance.
Robert Owen, aged ninety-one, eighty-eight years' attendance.
John Jones, aged ninety-six, eighty-seven years' attendance.
Miss E. Fugh, aged ninety, eighty-seven years' attendance.
Evan Jones, aged eighty-seven, eighty-four years' attendance.
The winner of the champion medal was a Liverpool Welshman.
