Farmers in all directions from Salem have resumed plowing since the rain has ceased long enough to dry out the soil a little. Owing to the early rain many farmers were unable to do as much plowing last fall as they usually do and as a result the acreage of fall sown grain in some localities is much less than in former seasons. The hill lands are said to be easily worked at the present time and some few farmers are plowing on Howell Prairie and French Prairie.

**Refused to Swap Possum for Horse**  
Crawfordville, Ga., Jan. 27.—An unusual horse trade was made here a few days ago when the owner of the horse agreed to swap in an even exchange for a possum. When the horse was produced, however, the owner of the possum decided he had spent too much time and had contracted too much cold as to the possum to warrant the exchange. The trade was called off. This incident, however, is not to be taken as a criterion of livestock value in the county.

who issued a statement describing "there is no claim on the part of the metal. Radium is a metal that is described as having a white metallic lustre," says the statement. "It has been isolated only once or twice, and few persons have seen it. It is ordinarily obtained from the ores in the form of sulphate, chloride or bromide, and it is in the form of these salts that it is usually sold and used."

These salts, it is stated, are all white or nearly white substances, whose appearance is no more remarkable than that of common salt or baking powder. Tubes containing radium salts glow mostly because they include impurities which the radiations from the radium cause to give light, say the survey experts. Radium minerals, they add, are rarely if ever luminescent.

**The CHENEY**  
Tones of Crystal Purity

The secret of a favorite musician's charm does not lie in the bold primary tones of the voice or instrument. It is the individuality displayed in the control of subtle overtones which wins the appreciation of myriad music lovers.

When music lacks these delicacies, it becomes mechanical. But The Cheney mirrors the exquisite tones of the original reproduction in all their vibrant beauty.

The Cheney is a distinct acoustical achievement. Each instrument is finished in period design, perfect in craftsmanship.
