Independence To Continue Fight On Road; Dallas Quits

Dallas, Or., Mar. 21.—The road committee from Independence and Dallas who combined for the purpose of fighting the highway commission when they directed the highway through Holmes Gap, Monmouth and thence south, leaving Dallas and Independence on a tub line, met at the Commercial rooms Saturday morning at 11 o'clock to consider what their future actions would be pertaining to the fight with the highway commission.

The committee representing Dallas, composed of A. B. Muir, E. C. Kirkpatrick, C. B. Sundberg, Oscar Hayter and Harry Joslin, decided that they would notify the court of their intention to accept the highway commission's program as outlined and would do what they could to promote the immediate construction of the highway. But the members of the road committee from Independence, composed of H. H. Hirschberg, C. G. Skinner, Mike Walker, Clair Irvine and Mr. Horton, made known to those present that they would continue their fight to influence the highway commission to extend the road south from Independence. They stated that the people in the territory south of Independence, around Parker and Buena Vista, are very insistent that the road committee use all their power to influence the highway commission to extend the highway south of Independence, and that funds for the prosecution of the case were available if the committee would proceed.

The county court was present at the meeting as were many citizens and henceforth the effort to change the commission's decision will be dropped so far as Dallas is concerned.

Independence May Bond for Fire Engine

Independence, Or., Mar. 21.—The question of floating a bond issue in the sum of \$4000 will be submitted to the taxpayers of this city, probably during the early part of May. The purpose of the bond proposed is to purchase modern equipment for fire protection. This decision was reached by the city council subsequent to a visit of the mayor and councilmen to Lebanon for the purpose of inspecting the Lebanon equipment. The proposition has been receiving the attention of the city council for some time with the result that definite steps toward consummating the negotiations have been taken.

Lebanon installed a power motor truck about one year ago which is equipped with 1000 feet of hose, a 50 gallon chemical tank and 150 feet of chemical hose, extension ladders and other necessary equipment. It has proven entirely satisfactory and officials of that city claim that it has saved the city more than its cost. An exhibition run over muddy streets was made at Lebanon for the benefit of the Independence visitors.

It is the intention of the Independence council to purchase a similar machine. If present plans are consummated Independence will have one of the best fire companies and fire equipments in the state outside of the large cities.

Espee Files Answer

Roseburg, Or., Mar. 21.—The Southern Pacific company has filed an answer to the city of Roseburg's petition for a grade crossing at the end of Mill street where it is proposed to construct a bridge to Umpqua park. It also recommends that the public service commission disallow the petition, and advises the construction of a road along the west side of the river to connect with the Oak street bridge.

Silverton May Again Vote on Bond Proposal

Silverton, Or., Mar. 21.—Believing that school patrons have experienced a change of heart since the recent school election when the question of bonding the district for \$60,000 for a new grade building and gymnasium was voted down, a petition is being circulated and will be filed with the school clerk in a few days asking that the question be voted upon again at a near future special election. It is said there is still considerable opposition to a \$60,000 bond, but many believe that sentiment has so changed that the issue will carry if it comes before the patrons at a special election.

There are 8 males and 16 females and efforts will be made to distribute them in sections where they will receive proper protection for a number of months at least.
