

America May Resume Trade With Russia

Negotiations To Be Opened With Soviet Delegates

Modification of Rulings Made by Wilson Administration Already Made Is Report; Relaxation of Passport Restrictions Are Understood To Be Pending

Washington, March 23.—Early consideration is to be given to relations between the United States and soviet Russia, it was indicated today at the state department.

Formal announcement of any change in the relations between the two countries or in any of the rulings by the Wilson administration may not be made for some time, but it was made clear that already certain modifications of those rulings either are under consideration or have been made.

These decisions were reached independent of the appeal from the soviet government to President Harding and the American government for a resumption of trade relations between the United States and Russia. That appeal reached the state department today from the White House.

Soviet Appeal Received.

The appeal was received at the White House and sent to the state department without being called to the attention of President Harding and it was first announced that it had not been received. A similar announcement also was made at the state department, but this subsequently was corrected.

In the event of an agreement by the United States to treat with the soviets, it was indicated that no technical bars would be placed against the entry into the United States of a delegation which the Moscow wireless dispatch to London said the soviet proposed to send here to negotiate a trade agreement.

It also developed that a slightly broader view has been taken by the department regarding the issuance of passports and visas. While there has been no indication of any material relaxation of the regulations it became known that in certain exceptional cases visas and passports would be authorized. The announcement in press dispatches from Stockholm that a quantity of Russian gold now is on the way from that place to the United States also developed that the American government would not raise the question of the metal's origin. It was explained, however, that the parties to whom it was consigned would accept it at their own risk. The official view is that its status cannot be properly impugned if it bears the mint mark of any recognized government such as that of Sweden, which is reported to have been placed on the consignment. It, after it is received and accepted, a claim as to its origin or ownership is made, the question would be one for the courts to decide.

May Relax Bars.

The lumber men assert prices are only 60 per cent above the 1914 level and that one-third of that is due to high cost of transportation.

Indian Who Took Horse Jailed Here

"Burglary not in a dwelling house."

That is the charge faced by Billy Williams, 17-year-old Indian of Chemawa, who now sits dejectedly behind the bars of the county jail. Feeling a great "urge" to ride the range in the manner of his ancestors, Billy says he "borrowed" a horse which he found in the barn of A. Hudnall, a rancher who resides near Chemawa. After doing a turn over terra firma, Billy tied up the animal to a fence nearby.

But Mr. Hudnall was riled and yesterday swore out a complaint charging Billy with burglary. Officers say that Hudnall is of the opinion that Williams intended to return on horseback to the Nevada reservation where he formerly resided.

Stillman Charges Wife Is Mother of Indian Guide's Child; Crowd Jams Court

White Plain, N. Y., March 23.—A definite charge that Mrs. Anna U. Stillman, wife of James A. Stillman, president of the National City bank of New York, was the mother of a child by an Indian guide, was made in supreme court here today by counsel for Mr. Stillman during preliminary arguments in the divorce suit the bank president has brought.

Addressing Justice Morschauser, who presided at the hearing on alimony and counsel fees, Delancey Nicoll, chief counsel for Mr. Stillman, said:

"Evidence already before you shows that Mrs. Stillman took as her lover an Indian guide by whom she had an infant son, whom Mr. Stillman must either acknowledge as a member of his family or repudiate as illegitimate.

Relations Long Continued. "This criminal intimacy began in 1916 and continued through 1919. Mr. Stillman feels it his duty to his father's memory, to his family and to his children to press this matter to a conclusion.

"Had it been possible to do this otherwise than in court proceedings, he would have done it. But there was no other way than to make the mother and child co-defendants in a suit."

Mr. Nicoll said he could not understand the feelings of a father "whose wife yielded to the em-

braces of an Indian guide" but that he could understand why he would hesitate to take court action under such circumstances.

Crowds Pack Courtroom. The hearing lasted only about half an hour. When it was adjourned Justice Morschauser reserved decision on the motions before him for alimony of \$10,000 a month and counsel fees of \$25,000 for Mrs. Stillman.

When court opened today so many spectators crowded into the room that deputy sheriffs had to be stationed at the doors to prevent entrance of many more. Many persons stood on the window sills.

The lawyers plunged into the question of Mr. Stillman's income which finally was admitted by one of his lawyers to have been \$536,000 in 1920. Counsel for the defendant had claimed it amounted to \$800,000 or \$1,000,000.

Defense Satisfied. John F. Brennan, of counsel for Mrs. Stillman, conceded that (Continued on Page Six.)

Americans Sent to Jail For Attempt To Take Bergdoll

Mosbach, Baden, Mar. 23.—Carl Neuf and Franz Zimmer, American detectives, have been sentenced to terms in prison in criminal court here for "illegal assumption of power" in attempting to arrest and abduct Grover C. Bergdoll, American draft evader, in Eberbach last January. Neuf, against whom a charge of "inflicting bodily injury" has been preferred was sentenced to jail for 15 months while Zimmer's term in prison was fixed at six months. The additional charge against Neuf arose from a bullet wound suffered by a young woman when a revolver was fired during the attempted abduction.

Four Germans who were tried as accomplices of the Americans were found guilty and sent to jail for terms varying from five to eleven months. It was shown one had driven the detectives' car and that the other three had accompanied the two Americans on their trip to apprehend Bergdoll in Eberbach.

Authority Exceeded. In passing sentence on Neuf, the German court declared the American detective was aware that aside from the charge of desertion, no other indictment was pending against Bergdoll, but that nevertheless the detective had attempted to arrest Bergdoll without the cooperation of the German police and take him into the occupied area, although Neuf was aware that such a procedure constituted an illegal assumption of authority in unoccupied Germany. The use of a weapon, declared the court, constituted "negligent infliction of bodily injury."

The penalty upon Neuf was fixed at fifteen months in jail, the court said, because the detective's conduct constituted "a gross breach of the law and an invasion of the rights of the German authorities."

The other defendants were guilty, the court ruled, because they knew their acts were not permissible and were punishable under the criminal code.

The six defendants were assessed the costs of the trial. Each of them was credited on his jail sentence with eight weeks of preliminary confinement.

Japan Will Fight To Prevent Soviet Rule In Kamchatka

Tokio, Mar. 23.—Japan will be obliged, whatever action may be deemed necessary, to preserve her rights in Kamchatka, if the Russian far eastern republic persists in its course of transferring a part of that peninsula to the authority of the Russian soviet government, Viscount Uchida, foreign minister declared in the house of peers here today.

After stating that Japan had recently received information that this transfer had been made he said this country had sent a protest to the far eastern republic administration at Chita and had submitted five demands. He declared that these demands had not been accepted yet.

Japan has extensive fishery interests in Kamchatka. (This report of the transfer of part of the peninsula of Kamchatka to the soviet government in Moscow appears to have a direct bearing upon concessions granted there to Washington B. Vanderbilt of California, by the bolshevik regime in Russia. The concession, covering the exploitation of the oil, coal and fishery interests of Kamchatka was granted last year.)

It is learned that Charles James, one of the men killed by an Oregon Electric train near Salem last week, had an uncle residing at Barren, Wash. His name is Clarence Simon.

Refuses Payment of Billion Gold Marks and Dispute Antagonistic Figures

Mar. 23.—Germany in reply today to the recent ultimatum of the allied reparations commission refused to pay the one billion gold marks due on this date and the commission's figuring a balance of twelve billion marks due May 1.

Claim Payment Made.

It is maintained in the German press that the twenty billion marks of the peace treaty provided for the handing over by May 1 of more than paid. The note asks that a joint commission of experts fix the value of German deliveries on reparations account but it declares that Germany would be impossible to pay twelve billion marks by the first of May. The note concludes as follows:

Seeks Foreign Loan.
