Paving Types Cause Dallas Council Grief

Dallas, Or., Mar. 23.—The city council met last night expecting at that time to terminate the long drawn out discussion pertaining to hard surface streets in Dallas. At their last meeting two weeks ago it was the decision of the council to lay concrete pavements, but much pressure has been brought of late in favor of bitulithic. Mr. Shannon representing the bitulithic firm of Portland, was present and gave arguments in behalf of the bitulithic while Mr. Stewart, representative of the Standard Oil company's process, likewise endeavored to convince the council of the durability and value of his type of pavement.

The Portland Cement company was represented by L. E. Burton, who endeavored to prove to the council that concrete was the only type of durable pavement now being laid. The council is confronted by the financial problem and will make its final decision as to the advertising for the street improvements at an adjourned meeting tonight.

The health and police committee recommended the purchase of a street flusher and after the machine decided upon was described to the council, the health and police committee was empowered to purchase a street flusher for the city.

A petition for the improvements of parts of Cherry, Ellis, Birch and Hayer streets was presented and the street committee reported favorably on the same. The engineer was instructed to prepare specifications for the purpose of publication of the contemplated improvement. After some discussion on the part of several property owners who will be affected by the improvement contemplated, the council adjourned for private discussion of the improvements and later will make their decision known to the people.

Stump Blaster Is Found Dead On Polk Farm

Dallas, Ore., March 23.—A working man by the name of Chas. Walters, who has been working on the ranch of Walter Domes living near McCoy, was found dead Sunday morning by a neighbor. Mr. Walters had been employed thru an employment agency in Portland to blast stumps in clearing off land on the Domes ranch. He did not live in the home of Mr. Domes, but, instead, was batching in a shack some distance from the Domes residence. He had been procuring milk from a neighbor and, on last Sunday morning the neighbor having discovered that he had not called as usual for the supply of milk anticipated that there was something wrong and he went to the shack and found that it was locked. He proceeded to the scene of the stump blasting and found Mr. Walters lying dead in a field on the opposite side of the fence from where he had been doing blasting.

Mr. Walters was 53 years of age and, thus far, only a brother-in-law by the name of Ernest Spindal, of Winlock, Washington, has been located. Mr. Spindal arrived Monday evening and took the remains to Winlock for burial.

How To Revitalize Wornout Exhausted Nerves

Your nerve power depends on plenty of good, rich, red blood of the kind that organic iron—Nuxated Iron—helps make. Nuxated Iron is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the action of strong acids on iron filings. Nuxated Iron does not irritate the teeth nor upset the stomach; it is an entirely different thing from ordinary metallic iron. It quickly helps make rich, red blood, revitalizes wornout, exhausted nerves and give you new strength and energy. Over 4,000,000 people annually are using it. Beware of substitutes. Always insist upon having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.

In 1850 they liked Folger's Coffee — so will you

In the homes of the Western pioneers, in the coffee houses and hotels of the early Fifties, Folger's Coffee was the "cup that cheered." From the days of hoop skirts and prairie schooners, "Folger's" has been the name of better coffee.

Through all these seventy years the Folger ideal has been to produce coffee of distinctive flavor. Folger's Golden Gate Coffee is the realization of that ideal.

Care in selecting only coffees of highest quality combined with skillful blending and roasting gives Folger's Golden Gate Coffee a uniformly good flavor—a flavor that never changes.

Find out for yourself how good it is. Ask your grocer for it.
