 Don't Blame the Poor File Clerk
 Nine times out of ten slow letter filing and finding is the fault of the system. Any person who knows the alphabet can operate the "Y. & E." Direct Name System and give ten second filing service. Its utter simplicity is the secret of its accuracy and speed. And it doesn't need "college trained" file clerks.
 Let us show you how it works.

Could you do this?

VIEW-C 44 INCH MATERIAL SIZE 32 SELVEDGE

NO, not easily—ALONE
YES, easily—with the DELTOR

Looks easy—is easy and saves from fifty cents to six or more dollars.
 The Deltor layouts are professional layouts that only an expert could get from such a small amount of material by placing the pieces so skillfully that it is almost legerdemain.
 They are specially worked out for all sizes and for all suitable widths of material.
 They save from a quarter of a yard to a yard and three-eighths over what you could plan for yourself.
 In using an inexpensive material, the Deltor saves the price of the pattern. In an expensive material, a coating or instance, the Deltor will save five dollars or more.
 With the Deltor, the Butterick Pattern costs less than nothing.
