

50 Killed In German Uprising; Communists Revolt In Dresden Fails

London, March 30.—Fifty persons were killed in yesterday's fighting at Genelsberg in Westphalia, while the police were dealing with the communist rising there, according to Berlin messages today to Reuters Limited. The town was captured by the authorities.

At Mannheim the police were attacked and returned the fire killing three persons and wounding five others.

A serious communist riot in Dresden has been put down, says a Berlin message to the Exchange Telegraph company. Ninety-two communists were arrested, among them fourteen women.

Reports from Duesseidort declare the communist activity in the Rhine region is increasing. Some mines have been seized by workers, it is reported.

At Jena, the glass manufacturing center, some success attended the communists in their efforts to start a general strike. Messages report that they have occupied the Zeiss optical works, a plant of world wide celebrity and have stopped street railway traffic.

Strike Effort Fails.
Cologne, Mar. 30.—Efforts by communists to bring about a general strike at Solingen have failed, according to a telegram from that city, which is occupied by British troops. Bands of rioters broke into public buildings in various localities in the rural districts surrounding the city and robbed some banks but are said to have been routed by police forces.

Genelsberg was for some hours yesterday in the hands of the communists, a telegram from Barmer says. The communists suffered considerable losses, 28 of them being killed. Several policemen were killed and wounded.

1 Mill Would Float Bonus For Fighters

Not more than \$1,200,000 will be required in meeting the provisions of the soldiers' bonus bill up or consideration of the voters at the special election June 7 according to estimates of the legislative committee named to draft the affirmative argument on the measure for the voters' pamphlet and copy of which was filed with the secretary of state today. This amount, it is pointed out, will necessitate a tax levy equivalent to only slightly in excess of one mill or a single year. These figures are based on the possibility of 10,000 ex-service men availing themselves of the state bonus at the rate of \$15 for each month of ser-

Students and teachers alike left for their respective homes for the annual Easter visit. Plans for Recall Of Non-Partisans Being Laid Today

North Dakota the direct obligations of the state, rather than of the various individual state owned industries as at present. Such a change, he added, probably would meet objections of bankers to bonds now being offered for sale.

Whether or not to call a recall election against several state officials with non-partisan league endorsements, including Governor Lynn J. Grozier and whether to initiate a number of laws which would affect the state-owned industries will be decided by the convention of anti-non-partisans which will open a two day session here this afternoon.

Sentiment among delegates arriving early seemed to be divided on the question of a recall in June or later in the year, probably early in the fall.

"Realization during the last few weeks that North Dakota will be unable to finance the planting of a crop this spring because bankers of the Twin Cities and the east refuse to handle North Dakota paper under present times is swinging sentiment in favor of a recall," according to E. L. Richter of the independent voters association, which is opposed to the non-partisan league.

One proposed constitutional amendment, Richter said, would make the bonds of the Bank of
