## Grape-Nuts

is a scientific food which nourishes the body without burdening the stomach. It contains the perfected nutriment of nature's best grains. It is partially pre-digested.

It gives energy without taking energy. There's a big difference in the day's work, with a helper like that. Many have found it so.

Grape-Nuts, served with cream or milk, is a joy to the taste. But that's only the beginning. It's a first aid to body and brain. That's the delightful finish.
