

Marines Landed In Tampico Says Socialist Note

Chicago, July 15.—A claim that American marines have been landed at Tampico, Mexico, from the warships now stationed there, is made in a telegram dated July 9, addressed by the Federation of Railway Unions of Mexico to socialist national headquarters here.

The telegram transmits resolutions adopted at the federation meeting in Mexico City, July 8, in which the American socialists are asked to join the Mexican workers in resisting any move that would lead to war between the two countries. The resolutions protest "against the attitude shown by the government of the United States in sending men of war to the port of Tampico, thereby violating the sovereignty of the Mexican republic," and added:

"We also protest against this act of force which establishes a sinister precedent in the history of international relations on this continent as the American warships have disembarked American marines in Tampico with out having solicited the necessary acquiescence of the Mexican foreign office."

The telegram is signed by Eduardo Venegas, president of the Confederation of Railroad Societies of the Mexican Republic.

among officials of the Postal company, the Pacific Telephone & Telegraph company, the state highway commission and the public service commission.

The Pacific Telephone & Telegraph company already has a pole line on the highway and, the highway commission declared, a second line of poles would tend greatly to detract from the scenic beauty of the highway.

Representatives of the Pacific Telephone company stated that, prior to the time that their line was constructed, their company had invited the Postal company to join with it in the building of a line to accommodate the wires of both companies, and that the Postal company had refused. In consequence, the Pacific Telephone officials said, their company erected the line to meet only its own demands.

Wages Are Cut.
Youngstown, Ohio, July 15.—The Brier Hill Steel company, an independent steel company normally employing about ten thousand men, has announced a reduction in wages which will bring common labor from 26 cents to 30 cents an hour.

Lost Battalion Hero Is Buried With Honors

New York, July 15.—Full military honors marked the funeral today of Private John J. Monson, hero of the Lost Battalion, who died in Bellevue hospital after being taken ill while on leave of absence from his post in the regular army.

Monson died last Friday, and it was three days before his body was identified. As soon as it became known that he was the man who on September 18, 1918, carried the message through the German lines that reunited the Lost Battalion in the Argonne, scores of civic organizations planned that fitting honors might be paid him. Today a column five blocks long marched behind the casket that carried the body to the Church of the Ascension where a high requiem mass was said, and thence to Cypress Hills cemetery, where military services were held. Movements have been started to erect a memorial.

States employment bureau. This has been due the last two weeks to the harvest of hay and berries and other farm work which has brought a temporary demand for laborers, he says.

Farm and orchard workers are drawing \$2 a day and board or \$3 without board. This is also the common wage for unskilled workers in lumber mills and for highway construction at the present time. Raspberry pickers are being paid 2 and 2 1/2 cents a pound for work while 1 1/2 cents is the wages of loganberry pickers.

LaGrande May Have Cannery

LaGrande, Or., July 15.—At a recent meeting of the farm bureau executive committee the chairman from the various sectional bureaus in the county were instructed to make an investigation regarding the available fruit and vegetables for canning purposes. The communities which were especially asked to make reports include Cove, Union, Elgin and Imbler.

The purpose of this investigation is to determine the available tonnage a cannery would be able to draw from here. An eastern concern has made inquiries regarding the possibility of securing sufficient tonnage to establish a cannery here.

Frank Spores sustained a loss of \$10,000 when his residence at Donna, Lane county, was destroyed by fire July 4.

Summer School Pastors Leave For Home Today

Pastors who attended the Willamette school for city and rural pastors have been leaving Salem during the day, and by tonight all the outside men will be gone. The city session ended last night while the rural pastors continued until noon today.

Although no definite plans have been announced as yet, it is the general understanding that a school will be held here next summer. It has been rumored, however, that the board of home missions and church extension of the Methodist church, under whose auspices a series of similar schools have been given over the country during the summers of the past three years, may discontinue this particular activity, in which case, of course, the school would not be held.

Many members of the faculty have expressed their satisfaction over the work of the local school. "There are no mossbacks here," is the way one eastern man said it. According to Dr. William Mitchell, pastor from Philadelphia, the men here were all live-wires, and the work here was much more satisfactory than in the middle west, where the men were generally much more conservative.

Designer For Elks Building Is Retained

Construction on the proposed \$150,000 Elks building at State and Cottage streets will begin next spring. It was definitely announced yesterday in connection with the retention of Cuyler Van Patten as architect and designer of the structure. The special building committee of the local lodge has been busy for the past year in connection with the matter.

Members of the committee and Cuyler Van Patten will visit in the near future various buildings of the northwest of a design that would be adaptable to the needs of the local hall. The proposed building will be devoted exclusively to Elks quarters, club rooms and lodge rooms.

Members of the building committee are: Chairman, Charles R. Archerd, Dr. H. H. Olinger, W. D. Evans, E. W. Hazard, Frank Wrightman, T. B. Kay and Homer Smith. Exalted Ruler Roy Byrd is a member ex-officio.

Second Line of Poles Along Highway Fought

A vigorous protest against the Postal Telegraph company's plan to install a duplicate pole line on the Columbia river highway between Goble and Astoria was entered by the state highway commission, through its attorney, at the informal conference held here
