## Wedding Is Solemnized On Sunday

Miss Annie May Gibson and Kiony Smith were married on Sunday afternoon at three o'clock at the home of the bride's parents, Mr. and Mrs. Daniel Gibson. The house was decked in quantities of flowers, pink hued, and a bower arranged in the living room formed the shelter beneath which the bridal party stood. Leading the procession was the officiating minister, Rev. R. L. Putnam, and the bride entered on the arm of her father who gave her in marriage. She was attended by Miss Gladys Scott, of Newberg, a close friend, as bridesmaid, and Altha McCleod, of Salem, attended the groom. Mendelsohn's professional was played by Miss Mary Bullock, of Portland, and Miss Eva Miles sang "O Promise Me." Carlene Scott, of Portland, was flower girl. The bride wore a going away suit of navy blue, bead trimmed, and a hat of navy blue to match.

## What's New On The Market

With the price of Chinook salmon down to 15 cents a pound, announced this morning on the market, the Salem housewife is now given an opportunity to do some canning very reasonably. There is no difficulty in canning salmon. It is much easier than fruit and has been known to keep in good condition for as long as three years. The process is very simple. First put the salmon in jars with enough salt for seasoning, then place the jars in a boiler of water and boil for one hour and a half to three hours. If it is desired to make the fish boneless, boil the jars for three hours and at the end of that time the bones should be softened. It is not necessary to employ that length of time, however, if the salmon is only put up to keep, for an hour and a half of boiling will be sufficient to do this.

## Red Cross Health Hints

No. 5, The Itch. During the last three years there has been a great increase in the number of cases of the "itch" sometimes called the "Seven Years Itch" and properly termed scabies. A little bug called the itch mite causes the disease. The mite burrows down under the skin and causes an acute itching which is worse at night. Most of the sores that appear on the body are due to the infection caused by scratching. The parts of the body where the skin is thinnest, including those in front of the armpits, on and around the nipples, the lower half of the buttocks, the elbow and knee regions, between the fingers and toes, are those who are chiefly attacked.
