Conductor Says He Had Narrow Escape

"The engineer who told me to take Tanlac certainly did me a good turn, for I followed his advice and am like a new 'man now,'" said A. Ebertson, well known conductor for the Southern Pacific railroad, living at 466 Hancock St., Portland, Or.

"My stomach got out of order about two years ago and nothing I ate agreed with me. I suffered intensely after every meal and got to where I actually dreaded to go to the table, as I knew what agony I must go through with if I ate what I wanted. My nerves went to the bad, too, and I couldn't get the rest I actually needed. I was miserable, worried and discouraged and didn't know which way to turn.

"I will always be grateful to my friend for putting me on to Tanlac. I'm as strong and well now as I ever was in my life, can eat anything I want without it causing me a bit of trouble, my nerves are steady and I sleep like a log. I'm in the best of health and spirits and no matter what I would say about Tanlac I feel it wouldn't be half what it deserves."

Tanlac is sold in Salem by J. P. Tyler, druggist, and by leading druggists everywhere. (adv)

Fair Bathers Sport on Beach and in Press Are Ruled Off Films by Angry Censors

NEWS FILM EXPLICITLY FORBIDDEN BY NEW YORK CENSORS

New York, Aug. 25.—New York movie fans are protesting against the action of the State Censorship Board in eliminating bathing-beach beauties, clad in skin-tight, one-piece garments, from films. The film in question was put out by the Pathe News, showing dazzling maids from Dallas, Texas; but the censors would not allow the picture to be shown in local theatres. And, strange to say, newspapers immediately published the picture without hindrance, as they have been printing similar pictures of other beauties in like dress for months.

Ruth V. Brittenstein, of the Bronx, observes: "Any person who claims this is not a responsible picture has a vile and degraded mind. To me the girls look natural and very pretty."

E. Kalina, of Brooklyn, chips in: "Can't Comprehend Fuss." "I cannot comprehend why such a fuss is made over one-piece bathing suits. Curiosity is aroused when the figure is covered that is oftentimes conducive to immorality."

M. E. Wheeler philosophizes thus: "Nobody objects to the public exhibitions showing the female form divine in the nude, and, as far as I can see, no harm has come from it. I venture to say that nobody is shocked at seeing a shapely girl in a one-piece bathing suit on the beach, if that girl behaves in a proper manner. America should be proud of its robust, healthy, athletic and beautiful girls."

Evil Minded Defined
Mrs. E. Griffith, of First avenue, declares: "These old 'hens' who are raving are the evil-minded. What is more beautiful than a well-formed girl, full of youth, to gaze upon? We have nude paintings and call it art. Why not class the fair bathers as art?"
Captain O. H. Ahrens, Brighton

Beach left guard, states: "I favor girls wearing a short suit, as it is essential to have one's leg movements free. How can they swim when weighed down with bloomers, stockings and shoes?"

"The trouble is we have too many narrow-minded old cronies sitting around on the beach that probably never took a good salt-water bath and don't swim and can't see a shapely young girl walking around."

The Pathe company has announced it will appeal from the censorship board's decision, carrying the case to the U. S. supreme court.

Railroad Man Gives Good Advice
"Several years ago I was under treatment of a stomach specialist for 5 months, 3 weeks of which were spent in a hospital. Another stomach specialist told me I had gall stones and that an operation was necessary. I did not want to have this. I lost 15 lbs. in weight. Talking with a brakeman one day he told me of Mayra's Wonderful Remedy and since taking it I have gained 16 lbs. and am feeling fine. I am advising others to try it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry, D. J. Fry and druggists everywhere. (adv)

Drunkenness On Increase In Great Britain

London, Aug. 25.—Drunkenness increased by over 65 per cent in England during last year, according to official licensing statistics. The reaction after the war-period of sobriety was shown by 55,763 convictions, compared with 57,945 in 1919. There were only 29,075 convictions in 1918.

The convictions of women were 35 per cent more than in 1919, and more than double the total of 1918.

A daily express, while admitting the figures are startling, attributes the increase in convictions to the continuance of early closing regulations enforced during the war and suggests that "people who are denied reasonable facilities for obtaining liquor, have taken in their resentment more than was good for them when they could get it." The paper also holds that the closing of properly conducted saloons has led to the opening of many bogus clubs and illicit drinking dens.

Official health returns for 1920 just issued indicate, on the other hand, that the nation as a whole is distinctly healthier. Tuberculosis figures are the lowest recorded since compulsory notification came into force. The number of deaths from consumption was 33,469.

The infant mortality rate, 80 per 1000, is also the lowest recorded, while the birth rate rose from 18.5 in the previous year to 25.4 and the death rate, 12.4, shows a decline at most ages.

Paper Mill Increases Protection from Fire

Parts for the new automatic sprinkling system which will soon be installed in the plant of the Oregon Pulp & Paper company have arrived, according to E. T. Barnes, general manager.

A special pumping system has been installed between the Spaulding Logging company's mill and the paper plant which will be kept in operation continuously in order to keep up the pressure in the stand pipes. Through a connection

with the boilers of both plants the pumping system can be operated with steam from either. In addition the lines are connected with the city water main so that fire protection may be had in case there is steam in neither boiler.

What's New On The Market

Sugar dropped 15 cents on the sack today following a similar reduction in the larger centers. There is still a wide difference in price stores selling all the way from \$6.85 to \$7.35. It may be that this last drop will bring a more uniform price later, for there seems to be no excuse for the difference.

Peaches are down about as low as they will get per bushel price. They are scarce, the county crop being very light. The quoted prices on early Crawfords are \$3 and \$3.20 a bushel.

Tomatoes are still mysteriously high. One store sells a box of tomatoes weighing 20 pounds, for 90 cents, which is reasonable enough. Another store is selling the same weight box at a price 25 cents higher than its competitors. Both stores have no bushel price. From a bushel of tomatoes nearly three boxes the size on sale can

be obtained. The wholesale price on tomatoes ranges from \$1.25 to \$1.50. At ninety cents a box a profit of \$1.20 is made on the highest wholesale price, or nearly 100 per cent. This may be justified, it possibly is.

Eggs look like they might rise. The highest wholesale price is 30 cents and retail 35 cents.
