Baby Clinic To Feature O.A.C. Exhibit

Oregon Agricultural College, Sept. 5.—The Oregon Agricultural college exhibit at the state fair at Salem this year has been planned with the object of giving the public an insight into the work of the experiment station, the extension service, and the work of students in different divisions of the college. Such features as the "O. A. C. Information" booth, transparencies, and the rest room, that were popular in previous years, will be retained. Decorations will be much more elaborate than in past years and the lighting system will be as complete as the light and power department of the school of engineers can make it.

A space 22 by 80 feet, just inside the entrance of the educational building at the fair—the same space as occupied in previous years—will be devoted to exhibits which will include a baby clinic, the main part of the show put on by the school of home economics. Considerable effort is being made to insure the success of this feature, which will demonstrate clothing, feeding and care of the baby.

Dictaphones, adding machines, mimeograph machines, typewriters, other office appliances and a representative of the school to operate them, will be in the booth of the school of commerce, according to the announcement of R. V. Gunn, chairman of the committee appointed to arrange the college exhibits at the fair this year.

Machinery and models in motion will probably be used by the engineering interests of the college, including the school of engineering, the school of mines and the school of forestry, while the school of education will probably put on something along the line of Smith-Hewlett work.

"Jimmie" Richardson has promised to display some of the pens, silver cups and other trophies won by students of the college and the exhibit committee plans to include a military display and some sort of musical entertainment.

Portland Machine Works Incorporates

The Supple & Walker Machine Works of Portland, capitalized at \$20,000, filed articles of incorporation with the state corporation department here Friday. The incorporators are Joseph Supple, C. T. Walker and L. E. Crouch.

Articles were also filed by the Pacific Construction company of Portland, capitalized at \$5000. The incorporators are Charles Burton, Edward Jenkins and L. B. Sandblast.

Certificates filed Friday show increases in capital by the following corporations: Blake-McFall company, Portland, \$250,000 to \$750,000; Rutledge Seed & Floral company, Portland, \$25,000 to \$75,000; Deer Island Logging company, a Washington corporation, \$10,000 to \$200,000.

The Albina Engine & Machine Works, Inc., filed a certificate showing a decrease in capitalization from \$100,000 to \$100.

A supplemental article, filed by the Pence Motor company of Salem shows a change of name to Bartlett Motor company.

North Canal Co. Incorporated

The North Canal company, organized for the purpose of reclaiming 27,000 acres in the central Oregon irrigation district, filed articles of incorporation with the state corporation department here Saturday. The incorporation which will maintain headquarters in Portland is capitalized at \$250,000. The incorporators are Samuel Hill of Seattle and J. C. Potter and A. L. Grutz of Portland.

The Electric Service Auto company of Portland filed supplemental articles showing a change of name to the Westinghouse Service company.

Resolutions of dissolution were filed by the Oscar B. Gingrich Motor & Tire company of Salem. The Fisher Flouring Mill company, a Washington corporation, filed a certificate showing an increase in capitalization from \$1,200,000 to \$2,000,000.

Scio's Electric 6 Plant Opened

Scio, Or., Sept. 5.—The Scio municipal electrical plant built on Thomas creek nine miles east of Scio has been officially opened and is a big success.

The plant has been built by the citizens of Scio to take the place of the old plant on which the franchise had expired. The town has been bonded for more than \$30,000 to pay the expense of construction which has been subscribed by local citizens. It is reported, in time the farmers along the line are to be supplied with light and power.

Albany Scouts Finish Outing

Albany, Or., Sept. 5.—Accompanied by Monsignor Arthur Lane as scoutmaster, the Boy Scouts of St. Mary's church have returned from a three-day encampment on the banks of the North Santiam one mile this side of Marion. Monsignor Lane said today that the boys confirmed their reputations as speedy bikers and as good fishermen, and enjoyed bathing, general sports and hearty appetites as well.

New Jordan Church To Be Dedicated

Scio, Or., Sept. 5.—The new church at Jordan will be dedicated with appropriate ceremonies Sunday September 11. The dedicatory services will be conducted by the Most Rev. Alexander Christie of Portland, beginning promptly at 10 a. m. Dinner will be served at noon by the ladies of the parish.

The regular services scheduled for Scio on the same date will therefore be postponed until a later date, announcement of which will be given in due season.

President Not To Hear Whitney Boys

President Harding will not "listen in" on the concert to be given by the Whitney boys' chorus at the state fair grounds here Sunday afternoon, October 2. A telegram received by Governor Olesit from George B. Christian, Jr., the president's private secretary, conveys the thanks of the nation's executive for the invitation contained in the governor's letter but "regrets that it will be impossible to meet your wishes as he does not expect to be in Washington on the date in question."

The plans whereby the president was to have "listened in" on the program to be staged in Salem contemplated the installation of telephone amplifiers in the white house at Washington.

The plans whereby the president was to have "listened in" on the program to be staged in Salem contemplated the installation of telephone amplifiers in the white house at Washington.

Nine Drivers of Trucks Arrested in Coos

Nine arrests were made for overloading trucks in Coos county Tuesday and Wednesday by members of the state traffic squad in cooperation with the coos county court, according to reports made to T. A. Rafferty, chief of the state squad here.

Three of the nine trucks caught up for overloading were county trucks. The state squad is now at work in Benton and Linn counties with the state loadometers in an effort to put a stop to overloading. "We expect to cover the entire state as rapidly as is possible," Rafferty stated.

Clackamas county has already purchased a set of the weighing jacks and coos county intends to secure a pair for exclusive use within the county, Rafferty states.

School of Fire Fighting Methods at Fair Planned

Arrangements for a firemen's school to be conducted in connection with the state fair here the week of September 26-October 1, are announced by A. C. Barber, state fire marshal. The school will be held under the auspices of the state fire marshal department with Captain George W. Stokes in direct charge as drill master.

Among those who will contribute to the instruction of fire fighters attending the school are: D. F. Dowell, ex-chief of the Portland department; Thos. R. Graham, chief of the Corvallis department; F. A. Zellner, captain in the Portland department; Lee Holden, battalion chief, Portland; J. W. Davis, chief of the Marshfield department, and W. P. Cooper, secretary of the Portland fire marshal department.

Diversified Trade City Feels Pinch

Syracuse, N. Y., Sept. 5.—Syracuse, with its numerous and varied industries, for nearly a year has been undergoing a gradual decline in production. Its great chemical, plow, automobile, typewriter, steel and other industries have, and still are, seriously feeling the curtailment of demand for their products.

The steel and allied industries have suffered the most. Busy to the very capacity, and beyond that, of their plants during the world war, these fields of activity are now comparatively at a standstill. The number of men employed in these mills and factories number well into the thousands.

In wartime, those workers, pushed to endurance, received wages which soared high above their fondest dreams. Now they are out of work. Their liberty

bonds, bank savings have been drawn upon until, in most cases, there is remaining but a small balance. Grocers, the butcher, the landlord and other merchants are trying to "carry" them until the tide of depression turns.

The last to feel the reaction in business in this city are the automobile pottery and typewriter industries.

Idle List Grows

Oklahoma City, Okla., Sept. 5.—Three thousand men are out of employment in Oklahoma City, according to Claude E. Connelly, state labor commissioner. The unemployment situation has hit the unskilled laborer particularly hard, but skilled labor is also affected. The conditions at this time are worse than usual for the reason that the summer harvest has ended, and the fall harvest has not begun. The number of unemployed is growing.

The number of unemployed is growing. The number of unemployed is growing. The number of unemployed is growing.

Canby District To Join Growers

Growers of the Canby district are organizing for the purpose of gaining admission to the Oregon Growers' association. At a meeting Friday night in Canby nearly 50 growers met to discuss the problems they must meet before they ask the association to establish a warehouse for their district.

At present their acreage of fruit is not large enough to warrant the establishment of a permanent warehouse in that locality but the growers of that district are planning to increase the acreage of some of the fruits already grown there so that they can reach a large enough volume of business to permit a permanent warehouse in the district.

Loganberries, prunes and strawberries are the fruits having the largest acreage near Canby at the present time. Broccoli grows well in that locality and it is probable that it will be grown more extensively during the next season.

Outlook In Mexico Is Not Encouraging

Mexico City, Mexico, Sept. 5.—Mexico is facing the prospect of another dreary, workless winter for the masses.

Mining is still stagnant. Some of the mines which resumed operations at the time President Obregon issued his decrees to stimulate the mining industry and give employment to the idle miners have shut down.

Closing of mines is reported from the states of Coahuila, Chihuahua, Durango, San Luis, Potosi, Aguascalientes and other sections. Most of the properties closed are silver mines, the owners declaring that they have been unable to operate at a profit.

Crop shortage and actual crop failure reported in some places have added to the gravity of the situation.

While gloomy reports are coming from many mining and agricultural sections, news from Tain-

Portland to Help Jobless In Winter

Portland, Or., Sept. 5.—Unemployment in Oregon approaches the 15,000 mark, according to A. W. Jones, director of the Portland municipal employment bureau, who bases his estimate on reports from all sections of the state. The normal unemployment in Oregon is about 5000.

The greater part of the army of jobless men is composed of unskilled workers. However, all the building trades report unemployment which averages 40 per cent. Jones reports, and in the miscellaneous trades 20 per cent are without work.

The harvesting of the hop crop in Oregon, beginning September 1 and lasting four weeks, will provide temporary relief for a few thousand who are now without work.

The city of Portland, anticipating an unusually "hard winter," is already making tentative plans for creating work for unemployed men who are citizens.

Los Angeles Area Not Feeling Pinch

Los Angeles, Cal., Sept. 5.—Leaders in all lines of activity in Los Angeles and vicinity agreed today that southern California is one of the best favored sections of the nation in the matter of unemployment.

In Los Angeles county, with a population of 1,000,000, the total of unemployment is 12,000, and in southern California, comprising seven counties, it is said the total of unemployed will run from 22,000 to 25,000.

In Los Angeles the unemployment situation is due in part to a serious slump in production in the large motion-picture studios.

The southern California labor surplus is due in part to a crop shortage. Many farmers did not harvest crops in some localities because of the high freight rates.

In Arizona there has been a general business slump for the last eight or nine months, due to low

Posse of Citizens and Police Hunt Bear in Chicago

Chicago, Sept. 5.—A patrol wagon load of policemen, a citizen's posse with torches and shot-guns and a score of hounds last night were pressed into service to run down a big brown bear found wandering through Chicago's residential district. The bear, thought to have strayed from a carload of lumber from Wisconsin, eluded all pursuers and was still at liberty today.

New Army Officer Attached to Guard

Captain Paul — away of the 47th Infantry of the Fourth division, stationed at Camp Lewis, has been attached to the Oregon national guard, as instructor, according to an announcement issued from the office of the adjutant general this morning.

Captain Hathaway was with the guard in 1913 and 1916 and will take up his new duties here after he has returned from a three-months' leave in Washington, D. C.

What Causes Skin Troubles?

Many of the fiery, itching skin troubles are due solely to disorders of the blood. Don't let these impurities torture you. Thousands have gotten relief from such troubles by taking S.S.S., the blood medicine that drives out the impurities and helps put in the healthy red blood corpuscles.
