## Citizenship Of Woerndle To Be Fought

Portland, Or., Sept. 14.—Continuation of proceedings to cancel the citizenship papers of Joseph Woerndle, alleged agent of the Austrian government during the war, was ordered yesterday by Attorney General Daugherty in a telegram to United States Attorney Humphreys.

Mr. Humphreys started the proceedings against Woerndle in April. In June he was directed by the attorney general to make a full report on the case, and the general impression was created that the demand for a full report on the case meant a discontinuance of any governmental effort to take away Woerndle's citizenship papers. German organizations in Portland and throughout the state passed resolutions lauding Woerndle for his "Americanism," while hundreds of telegrams from citizens and veterans organizations have been directed to the department of justice calling for the continuation of the proceedings against Woerndle.

Before America entered the war, Woerndle was the local consul for the Austrian government. In 1917 Hans Boehm, an agent of the German government who was formerly an employe of the Arlington club in Portland, was arrested in England. He had in his possession a passport bearing the name of J. Leftoy Thrasher. This passport was found to have been forged. It also developed that in making his flight from the United States, Boehm had used the name of Woerndle.

Department of justice agents under William R. Bryon made a raid on both the office and the home of Woerndle. There they found a diary, and other evidence sufficient to cause an investigation that later brought out the attempt on the part of the local federal officials to cancel Woerndle's citizenship papers.

## Murder Charge Filed Against Doran's Slayer

The Dalles, Or., Sept. 14.—M. L. Evans of Bend today faces a charge of first degree murder and investigation in connection with two mysterious murders which occurred west and southwest of The Dalles last winter and spring.

The murder charge was filed Tuesday afternoon by District Attorney Francis V. Galloway and is the result of the shooting of James Doran, McMinville rancher, Saturday night. It follows the recommendations of the coroner's jury, made Monday night, that the case be referred to the grand jury for immediate action. The jury held Evans directly responsible for Doran's death.

Sheriff Chrisman was advised from Bend of evidence which indicates that Evans may also have been involved in the murder of Geb Hanson, hermit, who lived in a cabin on the city dumping grounds and was thrown over the Columbia river cliffs after having been attacked with an ax. Robbery was the motive of this crime.

## New Anti-Saloon League Attorney for Coast Named

Portland, Or., Sept. 13.—With the announcement that Captain Frank B. Ebbert of Washington, D. C., will head the legal and law enforcement department in the Pacific coast states, and will arrive in Oregon September 18, is the information from the Oregon Anti-Saloon league that law enforcement conferences will be held in every county seat town in the state beginning on that date. Plans include a meeting with county officials at 3 o'clock and a community mass meeting in the evenings.

The conferences will be held under the direction of Captain Ebbert and W. J. Herwig, superintendent of the Oregon league. Their purpose is to arouse public sentiment for law enforcement.

"The greatest need in Oregon is to get the people to co-operate with the officials," declares Mr. Herwig. "Where officers are deficient in their duty, we hope to bring the pressure of public sentiment to bear upon such officials and compel them to act."

## Fearful Orders Given Clowns Of Sells-Floto Circus This Season

There's something new under the white tops this season. At least, there is with Sells-Floto circus—"second largest show on earth," coming to Salem on Wednesday, September 21.

Yes, street! Somethin' new, and it has to do with the clowns. This year they've told the "jokeys," so bi gtop argot terms the chalk-face cut-ups—this year, to repeat, they have told the clown to go out in the three rings and two stages and in the hippodrome track and be funny. Honestly, every one of the fifty-five has been told to be fun—each one has been instructed, he ny, and if he can't be funny, so must go out before all the people and mislead 'em with his starched pantaloons and peaked cap. Those are the management's orders. Fact is, the orders read: "Every clown with this show is hired to get laughs. Any clown not getting one or more laughs in each clown display will be fined \$100 for the first offense, \$200 for the second offense, and, for the third offense, he'll have his clown suit taken away from him for one performance. Offenses after that will be handled without mercy."

This is a fearful thing, folks. Perhaps, the story should not have leaked out, but there are twelve hundred folks with the second largest show this year, and the management can't watch 'em all. The only chap with the big show exempted from the ruling is "Poodles" Hanneford. His orders read: "After the third encore, you, Edwin 'Poodles' Hanneford, will cease riding and cease being funny. This show can stand almost everything, but when people die laughing in the stands during your encore, a halt must be called. Failure to comply with this order, Mr. Hanneford, will result in your not being allowed to help the front door boys and the ushers during turn-a-way business."

der the direction of Captain Ebbert and W. J. Herwig, superintendent of the Oregon league. Their purpose is to arouse public sentiment for law enforcement.

### New "Oregon" Prune to Be Exhibited

This remarkable new prune which was originated near Salem by Mr. Andrew Vercler will be on display at the State Fair by the Oregon Nursery Company, of Orengo, Oregon, to whom Mr. Vercler has given exclusive propagating rights. Anyone contemplating planting prune trees this fall should ascertain the advantages this new prune affords before arranging elsewhere for his trees. Some of the best informed prune men of this section pronounce it a more desirable prune than the Italian. New Oregon trees this year have a 100% crop. See our representative at our booth in the Agricultural Building, during Fair week.

## Citizenship Plea of Draft Evaders Denied by Court

Astoria, Or., Sept. 14.—Three alleged slackers met their Waterloo at the session of the circuit court Monday morning, when they were denied admission to citizenship, their petitions being dismissed with prejudice, which means they are barred forever from becoming citizens of the country. The men were Olav Johannes Aune, a native of Norway; Johan August Suominen and Arvid Rudolf Makela, native of Finland.

Examiner Tomlinson brought out the fact that each of the applicants had claimed exemption from the military draft during the war on the ground of being aliens. On his recommendation, Judge Eakin denied the petitions, saying: "A country that is not good enough to fight for is certainly not good enough to become a citizen of. If you did not care enough for this country to help defend her when she was at war, you are not the right material to enjoy her citizenship, when she is at peace."

## Veteran of Civil War Still Hale and Hearty

**GEORGE D. SHAW, Springfield, Mass.**

"To say that I feel twenty five years younger, twenty five years healthier and twenty five years stronger expresses what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil war, who now lives at 231 Walnut street, Springfield, Mass.

"I am now seventy eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me.

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been so wonderfully built up, I now weigh one hundred and forty three pounds and my stomach is as sound as a dollar. In fact, I believe I could eat the old army rations again without it hurting me in the least.

"I never miss a chance of saying a good word for Tanlac and the "Sixties" who are not feeling right to give it a trial, for I am sure it would put them in line again just as it has me. For a man of my age to be well and strong and enjoy life as he did twenty five years ago, is certainly something to be thankful for and there is nothing too good I can say for Tanlac."

Tanlac is sold in Salem by J. F. Tyler, druggist, and by leading druggists everywhere. (adv)

## The most marvelous machine in the world—and how it is neglected

**AWAY** back in the school books was a lesson on physiology. Rather dull as a lesson. Yet it was the story of the most marvelous machine ever created—and how the machine gets its power and does its work.

That machine is the human body. Some day the mechanical expert of this machine—the doctor—finds out for us where we have missed the lesson and neglected the machine.

**GRAPE-NUTS** food was made in accordance with the school book lesson on what the body needs and how its needs may best be supplied.

It is possible for a delicious food to be a scientific, "power" food. Grape-Nuts is such a food.

**Perfecting Natural Gifts**  
Twenty hours of continuous baking has done certain wonderful things to the nourishing properties of whole wheat and malted barley flour, from which Grape-Nuts is made—and has produced a food in the form of crisp, golden-brown granules.

You chew Grape-Nuts thoroughly. The rich, sweet flavor of Grape-Nuts is the reward of chewing. Nature meant the teeth to be used. Primitive people, who keep the natural teeth sound and perfect to old age, are eaters of food which requires chewing. Grape-Nut gives the teeth work to do.

Perhaps you remember a little of the physiology lesson, now—how the salivary juices respond when the food is thoroughly chewed—and the first important step in digestion is taken.

## Do You Want Greater Heating Comfort at 1/2 Cost?

**YOU** can have it—easily. Read what these Convector Owners say:—

"I made a lot of inquiries and found that the Convectors surpassed other makes in heating, handiness and fuel economy."

**MUELLER "Big 3" CONVECTOR**

"I think the Convectors is the best made. It is better constructed, burns less fuel and gives better circulation."

"With the Convectors I can heat twice the space with less money than it takes to heat two rooms with a base burner."

"The Convectors is a wonderful heating plant. Two shovels of coal will heat the whole house in ten minutes."

Why put off the installation of this better heating system with its greater comfort and healthfulness—when you have such positive evidence that it will save you money.

Come in today and let us show you how easily it can be installed in your home.
