Jurymen Needed

(Continued from Page One.)
Work of obtaining a jury was resumed this morning with eleven tentative jurors in the box. After challenging four men yesterday the defense had eight peremptory challenges available and the state had four after removing two men.

The list of tentative jurors, several of whom escaped challenge, is as follows:
Walter G. Coates, Olalla; Amos B. Cripp, Riddle; Q. W. Hartshorne, Riddle; Vincent Applegate, Yoncalla; Mr. K. Eby, Sutherlin; Joseph Winiford, Sutherlin; Fred Parker Sr., Canyonville; J. O. Metz, Days Creek; C. L. Hamilton, Oakland; Dick Hanan, Yoncalla; and H. W. Jones, Myrtle Creek.

Officers have been watching Dr. Brumfield closely following his complaint of illness yesterday. When court adjourned at noon only two names remained in the venire box, only eleven tentative jurors were on the accepted list. The state had used two of its challenges, the defense six of its twelve challenges.

Walter G. Coates, one of the first tentative jurors accepted, was excused this morning by Judge Bingham, on account of sickness, and S. R. Brislin, a grocer of Edenbow, was accepted to replace him. Brislin said he held no opinion in the case.

The prosecution today began to ask if veniemen knew Veita Ellenburg, the nurse who for 18 months lived in the Brumfield home.

Pretty and attractively dressed, Miss Ellenburg has been in the court room every day. During other hours she has been a great deal of the time with Mrs. Brumfield.

The usual throng of curious Roseburg residents Friday watched Dr. Brumfield make his daily pilgrimage to the courtroom. The accused dentist did not touch his breakfast in the morning. He told his guards that he was suffering from stomach trouble and nausea and that this morning he had used all his will power to keep from becoming ill in the courtroom.

Brumfield Rubs Forehead
For the first time during this hearing Dr. Brumfield failed to follow every minute of the trail alertly. At frequent intervals he closed his eyes and his head dropped forward slightly as if he was dizzy or about to doze off.

He rubbed his forehead with a nervous hand and covered his apparently tired eyes with his hand occasionally.

During the noon recess he ate a light lunch and declared that he felt better, according to Sheriff Starmer. He appeared at the afternoon session without his glasses. This seemed to bother him, and he smiled happily when Mrs. Brumfield appeared a half hour later with his glasses, which she had taken to be mended. He cleaned the lenses slowly and carefully with a cloth, adjusted them deliberately, and nodded his head in a pleased way when Attorney Orcutt asked "Does that feel better?"

Wife Is Helped to Seat
When Mrs. Brumfield entered the courtroom her husband got up quickly from his chair, bowed with a Chesterfieldian grace and helped her to a seat beside him. He repeated this in the afternoon, and seemed to take a warmer and more kindly interest in his wife than at any other time during the trial.

Kindness On The Percentage Basis
Kansas City, Mo., Oct. 8.—The axiom "return good for evil" was followed by L. W. Cleary, a druggist here.

J. M. Taylor of Columbus Junction, Ia., imbued freely from a bottle of hair tonic. He became "froggy." He jumped through a plate glass window in Clary's drug store.

While in his cell in the police station, Taylor tore his clothing into shreds.

When he appeared in court he wore a borrowed overcoat and an air of penitence.

Taylor agreed to pay the cost of the broken window, \$13. Clary then took Taylor to his store and outfitted him with clothes.

Veteran Operator Passes
Sioux City, Iowa, Oct. 8.—Death has written "30" for William H. ("Bill") Staley, veteran telegrapher. He died early today after a long illness. He had worked the Associated Press wire in the Sioux City Journal office for twenty six years. He came to Sioux City from Lincoln, Neb. He was known from coast to coast among telegraphers. A widow and five children survive.

Washington, Oct. 8.—The nation's breath is becoming weaker and prohibition is not to blame. Garlic is rapidly losing out as one of the great American smells.

Return of thousands of foreign-born garlic eaters to their original homes at the close of the war has caused America's garlic imports to drop from 10,000,000 to 7,000,000 pounds a year. Department of Commerce figures showed recently.

But 7,000,000 pounds is a lot of garlic.

47 Club Leaders

(Continued from Page One.)
automobile drive around the city and state institutions.

What to do with the Thompson hotel, left the Port Angeles, Wn., club by David Thompson and valued at close to a half million dollars also came up for discussion. It was determined to use it for the welfare work of boys and girls.

Work of this class will form the major part of the program of Rotary throughout the northwest this year.

Reports from various club presidents were received and discussed along with the question of what is the most pronounced weakness in the organizations and how they can be remedied.

Policies Discussed
Whether the rotary clubs should endorse local and national political questions was another item which met with considerable discussion along with the relation of the organization to similar organizations.

Tonight the visitors will be the guests of the Salem Rotary club at a banquet to be given in the Marion hotel and at which Estee Snedecor, immediate past international president of Rotary, will be the principal speaker. Mr. Snedecor is known as one of the most active workers of Rotary and is a member of the Multnomah bar association, having practiced law in Portland for a number of years and being foremost in welfare activities of that city.

Club Representatives
Many of those present at the convention today will be in the city tomorrow to enjoy games of golf with their fellow executives.

The names of the clubs and those executives attending the convention are:
British Columbia clubs—Nanaimo, Pete Bard, secretary, Geo. L. Person, president; Vancouver, Langby G. Bell, secretary; Victoria, Lester Patrick, president; T. G. Goodlake, secretary, Washington clubs—Aberdeen, Jean Cade, secretary; Bellingham, Dr. W. R. Barlow, president, Will H. Towner, secretary; Centralia, John M. Benedict, Jr., president; Chehalis, Thomas B. Horn, president; Everett, George H. Rich and W. R. Connor; Hoquiam, Frank H. Lewis, secretary; Olympia, Silas R. Holcomb, secretary; Port Angeles, George Cuppler, Howard H. Van Brocklin, Mayor Sawyer; Mt. Vernon, Morton Beaumont, secretary; Seattle, W. A. Wicks, Tom L. Monson, Frank Moran; Spokane, R. O. McClintock; Tacoma, Charles E. Buckley, Glen Collins; Wenatchee, H. F. Morse, Cliff Godfrey; Yakima, R. D. Ronig.

Oregon clubs—Astoria, John Taita, Merie R. Chessman; McMinnville, Dr. Walter Striker, Thomas R. Parson, Rev. Eugene Schrey, Barney Garrett; Pendleton, S. R. Thompson, Lester M. Hanley; Portland, Andrew J. Bale W. L. Whiting.

Leeds, Jr., Marries Princess In Greece
Paris, Oct. 8.—William B. Leeds, Jr., son of Princess Anastasia of Greece, and the late William B. Leeds, the "tinplate king," of Richmond, Ind., and Princess Xenia, niece of King Constantine of Greece, were married by civil ceremony here this afternoon.

Omaha, Neb., Oct. 8.—Samuel J. Perkins of Sioux City, Iowa, part owner of the Sioux City Journal, died in a hospital here last night following a nervous breakdown.

Net Around Hightower Closing In
Redwood City, Cal., Oct. 8.—E. O. Heinarich, criminologist and chemist, identified in the trial of William A. Hightower, charged with the murder of Rev. Patrick E. Heslin that fibre found on a knife taken from Hightower was of similar character as that of string found about boards taken from the priest's grave at Salada Beach August 10.

Heinarich said Hightower wrote the letter of August 3 demanding \$5,500 ransom for Father Heslin. He formed his conclusion by comparisons of writing on the ransom letter with that of Hightower. This testimony was in confirmation of that given yesterday and Carl Eisenachmel, another expert on the subject of handwriting.

Heinarich said said found on a tent taken from Hightower's room in San Francisco was of similar character as that found on a hat taken from near Heslin's grave.

James Adam, a newspaper man of San Francisco, said that in Hightower's room August 11, Hightower told several persons that he had been experimenting with a gun or infernal machine that would fire simultaneously ten loads of buckshot from ordinary shotgun shells.

At noon court adjourned until 10 o'clock Monday morning.

Business Gain Sends Up Price of Eastern Oils

Oil City, Pa., Oct. 8.—Improvement in business conditions, even though slight so far, and a consequent increase in demand for lubricants, forming a big percentage of the products refined from crude oil, is the reason given by Joseph Seep, head of the Seep Purchasing Agency, for the first increase in the price of Eastern crude oils since the bottom was touched about three months ago.

The six grades affected—Pennsylvania, now up to \$2.50 per barrel; Cabell Ragland, Somerset light and heavy and Corning—are very largely dealt in by the South Penn Oil Company (Standard Oil subsidiary) for whom the Seep Agency does its buy, besides supplying most of the independents in the same fields.

Depression Corner Turned
"There has been a marked spirit of optimism in the oil business lately," said the head of one of the largest independent refineries in this section of the State. "This spirit of optimism, which may be attributed to the independence in industrial lines that the corner has been turned in the depression, coupled with the fact that the season of the year is factoring when the demand for kerosene materially increase in no small measure responsible for the rise in the price of crude oils."

In other circles a number of contributing factors to the rise in prices are pointed out.

English Actor Crosses Channel Upon a Bicycle
Paris, Oct. 8.—Harold Bigby, an English motor engineer, has just crossed the English channel, from Folkestone to Calais on a bicycle fitted on two large floats with a propeller on the fore part of the machine driven by a rod which in turn was operated by the pedals. The rider said that he covered just thirty miles in a "little less than two hours."

Mr. Bigby was accompanied by a motorboat on the trip. Describing his ride, he said: "A strong sea was running and a southwest wind blowing but I was much better off than those in the boat for the cycle rode the waves better."

"For three hours I was seasick and I couldn't be fed as the waves prevented the boat from getting close enough to me. Once I was almost washed off my saddle and frequently I was covered with water up to the saddle of my machine."

His companions said Mr. Bigby alighted from his machine quite fit.

Hay Inspection Work Extended
The public service commission has authorized its grain inspection department to establish hay inspection points at Stanfield, Umatilla, Boardman, Messner, Peters, Hermiston and Irrigation in order to fully provide for the inspection of the large amount of hay produced in those sections. Harry Straw of Hermiston has been appointed chief deputy inspector in charge of the work at these points with deputies to have personal charge at each inspection station. T. O. Yates will have charge of the inspection work at Stanfield, O. Strangely at Umatilla, Charles Dillabaugh at Boardman, Messner and Peters, and W. A. Moore at Irrigation. Establishment of these inspection centers, it is explained, has been made possible through the co-operation of the Oregon cooperative Hay Growers association of the Oregon cooperative Hay Growers association with headquarters at Hermiston.

Portland, Or., Oct. 8.—Six Chinese were under arrest today in connection with the death of Wong Gee, who is thought to be a member of the Hop Sing ton who was killed yesterday.

Lee Sing and Huie Thet are charged with the actual shooting. The others, Harry Wong, Harry Shin, Lim Gay and Harry Toy are charged with being accomplices.

Revival of Trade Starts In England

Middlesbrough next week. "The Welsh export coal business is steadily expanding."

"Cotton machinery manufacturers are filled with orders that will last them for two years ahead."

"The slump seems to have run its course in the textile industries and there are indications of a continuously improving situation."

"An immediate although perhaps more gradual improvement in the cotton trade is anticipated. The threatened lockout in the Lancashire mills was averted recently when the cardroom workers withdrew their claim to be paid wages during structural alterations to machinery."

Masons Plan Splendid Temple In Mexico City
Mexico City, Oct. 8.—Masons in Mexico, believing that members of the order will soon be completely united, are planning to build a splendid Masonic Temple here.

The capital has always wanted such a structure, as this as the meeting place of Masons throughout Mexico and a point to which great numbers of Masons come from foreign lands.

The prospective understanding between the York Grand Lodge and the Grand Lodge of the Valley of Mexico and the recognition of Mexican Masons throughout the United States, prominent Masons here say, give an encouraging outlook for the building project.
