

ENDURING PEACE IS PLEDGED

War Between America and England "Unthinkable" Says Pres. Harding in Speech

Yorkton, Va., Oct. 1.—A doctrine of enduring friendship between the United States and Great Britain was pronounced by President Harding today at a ceremony commemorating the final surrender of the British expeditionary forces here to the revolutionary of Washington.

Surrounded by high officials of his administration and standing within sight of the spot where Cornwallis laid down his sword in 1781 the president declared in deliberate chosen words a sentiment of peaceful relationship between the two great English speaking nations for all time to come. That either should ever again lift the sword against the other, he said, must be "unthinkable."

Interests Converge
"In the trusteeship of preserving civilization," he continued, "we were naturally arrayed together, and the convictions of a civilization worthy of that costly preservation will exalt peace and ward against conflict for all time to come."

In his address the president took occasion to renew the nation's pledge of participation in the broader affairs of the world and declared his belief that the time had come for "essential cooperation" among nations generally for the betterment of the world.

"We must not claim for the new world," said Mr. Harding, "certainly not for our colonies alone, all the liberal thought of a century and a half ago. There were liberal views and attending sympathy in England and a passionate devotion to more liberal tendencies in France. The triumph of freedom in the American colonies greatly strengthened liberal views in the world. Inevitably this liberal public opinion, deliberate and grown dominant, brought Great Britain and America to a policy of accommodation and pacific adjustment for all our difficulties. There has been honorable and unbroken peace for more than a century, we came to common sacrifice and engendered association in the world war, and a future breach of our peaceful and friendly relations is unthinkable. In the trusteeship of preserving civilization we were naturally arrayed together and the convictions of a civilization worthy of that costly preservation will exalt peace and ward against conflict for all time to come."

French Debt Resaid
"In our great crisis, nearly a century and a half ago, France came to our aid and made our independence possible. In her supremely anxious hour, we gladly went to her support and did our part to secure her liberty. A grateful republic filled an obligation which the passing generations had not dulled.
"Reflecting today upon the inevitableness of our participation, on our ties of kinship, friendship and fellowship and appraising anew the way the world—God's good world—must share the noblest ideals for mankind, there is a fresh hungering for understanding, a new call for cooperation, a clear conviction of purposes and devotions and loyalties not limited to sovereignties nor national boundaries.
"One need not picture a world sovereignty, ruling over all the varying races, traditions and national cultures, because it will never be. No program which seeks to submerge nationality will succeed. This republic will never surrender so priceless a heritage, will never destroy the soul which impelled our gaudy attainments. In the sober circumstances, retrospection and introspection of these crucial times, we do believe there is sanity and urgent need in bringing the best thought of all great peoples into understanding and cooperative endeavor which shuns the alliances in arms and strengthens the concord of peace, so that each may realize its rightful destiny and contribute its utmost to human advancement and attending human happiness."

of the statute passed by the 1921 legislature. The members of this subcommittee will then report their findings to the council and the nine citizens who will compose the committee on budget.
The council was then called in regular session to conduct the business before it; among which was the petition by Mr. Lee, the contractor, for apportionment of money due on the uncompleted contract. This petition was supported by the bondsmen of the contractor, but the council decided that no more money would be paid until the contract was completed because the contractors are now six weeks in default.
Several other matters of minor importance were discussed and the council adjourned, subject to the call of the mayor for the purpose of effecting the budget, or N. L. Guy, who was made chairman on the subcommittee.

Girls Glee Club Plans Concert Tours This Year

The girls of the Willamette Glee club, under the leadership of Miss Loriel Blatchford as president and Miss Helen McInturf as manager, are planning a new venture for this year. Inasmuch as the men's club takes an annual tour it is planned that the girls shall likewise have a tour.

Miss McInturf wishes to take the girls upon a three-day trip to Astoria, Oregon, and upon a two weeks' trip into Southern Oregon. The latter trip would be taken at the same time the men's club tours northward in Washington. The girls wish to go as far south as Ashland and Grants Pass. This gives them a trip of 600 miles. Letters will go out in the next few days seeking contracts, as correspondence must start now in order to whip a two weeks' tour into shape by February. Several one and two night concert trips will also be arranged for small towns near Salem that can be reached by truck service. Miss McInturf wishes to hold a downtown concert in Salem this year, rather than give their concert in Willamette chapel. This has been an annual practice of the men's club for many years.

"Red Hen" Worth Its "Keep," Is Claim

Topeka, Kan., Oct. 19.—Who said the "little red hen" was not worth its "keep"?
When the Louisiana Purchase was made more than a century ago many citizens throughout the nation severely criticized the government for wasting money. Yet in 1920, according to figures compiled by the state board of agriculture, the Kansas hens alone pro-

Dallas Knights Honor Member

Dallas, Or., Oct. 19.—A notable gathering of Pythians was held in Dallas Monday evening honoring Leif S. Finseth, the new grand chancellor of the state of Oregon. And while those present were at it they included in the honor list another citizen of Dallas, and who is also a prominent member of Marmion lodge, K. of P., Mr. Patterson.

The jubilee over the election of Mr. Finseth followed work put on in the rank of page. Charles E. Lynn, chancellor commander, presided. In the lodge room the principal speakers were Walter L. Toose Jr., and Mr. Finseth. Mr. Toose gave some of the history of the extending influence in Oregon Pythian affairs of Mr. Finseth, paying notable tribute to the latter and to two or three of those who strongly supported him. Mr. Finseth responded in an appeal for Pythian fidelity, for unselfish devotion to the principles of the order, and concluded by honoring Doc. P. Patterson.

Mr. Patterson was presented with a chain and engraved knife from the members of Marmion lodge and from the grand chancellor he was the recipient of a veteran's emblem. This emblem is given to only those who have been in good standing in the order for twenty-five years. Mr. Patterson made an appropriate response, in which he tendered a tribute to the new grand chancellor.

duced and represented more than twice enough wealth to pay the original cost of this immense area of the United States.
That the hen of Kansas is a distinct asset is revealed by the fact that in 1920 the hen produced almost \$20,000,000 worth of poultry products, which, if divided equally among the 152,000 farms of the state, would give the farm approximately \$135.

Rockall, an islet in the Atlantic, 300 miles west of Scotland, is supposed to be the only remaining portion above water of a lost island.

Labor Board To Be Given Full Support

Washington, Oct. 19.—The railroad labor board will be given the full support of federal authority in its endeavor to avert the national railroad strike and will be expected through the result to justify its creation.

The above summary of the strike situation was given in official circles before President Harding, accompanied by several members of his cabinet left the capital for Yorktown, Pa., to participate today in celebration of Yorktown day.
With the problem definitely as-

Fords Run 34 Miles On Gallon Gasoline

Start Easy in Coldest Weather—Other Cars Show Proportionate Saving.

A new carburetor which cuts down gasoline consumption of any motor and reduces gasoline bills from one-third to one-half is the proud achievement of the Air-Friction Carburetor Co., 1907 Madison St., Dayton, Ohio. This remarkable invention not only increases the power of motors from 30 to 50 per cent, but enables every one to run slow on high gear. It also makes it easy to start a Ford or any other car in the coldest weather. You can use the very cheapest grade of gasoline or half gasoline and half kerosene and still get more power and more mileage than you now get from the highest test gasoline. All Ford owners can get as high as 34 miles to a gallon of gasoline. So sure are the manufacturers of the immense saving their new carburetor will make that they offer to send it on 30 days' trial to every car owner. As it can be put on or taken off in a few minutes by anyone all readers of this paper who want to try it should send their name, address and make of car to the manufacturers at once. They also want agents, to whom they offer exceptionally large profits. Write them today.—Adv.

signed to the labor board for solution, and each interested branch of the government ready with a defensive program in the event of the strike materializing, no important local developments were expected today.
Reports from military area headquarters that steps were being taken to list men in the service who have had experience in various phase of railroad work are understood not to be the result of a general order from Secretary Weeks.

Negro Admits He Murdered Child

Vineland, N. J., Oct. 19.—Louis Lively, the negro accused of killing a little girl at East Moorestown, N. J., last spring, was arrested here early today after shooting a policeman. According to the police he confessed to killing the child. A small crowd surrounded the jail after his arrest became known, but every precaution was taken to guard the prisoner.
Lively is charged with killing 7-year-old Matilda Russo, mutilating her body and burying it in the cellar of his home. He fled and last night was recognized by a policeman who, with another policeman, pursued the negro. Lively shot one of the policemen, who is not expected to recover. The other policeman captured the fugitive.
"I didn't mean to kill Matilda," said Lively, who declared the child played often at his home and that when she broke a dish he became angry and hit her with a piece of wood and, later, terrified, he cut up and buried the body.
Thirty thousand people are killed or injured in the United States every day; five persons, it is estimated, meet death by accident in this country every minute.

Justice and the American government was circulated widely in the Paris street cars yesterday and a copy of the pamphlet was delivered at the embassy today.

Threat Made To Tear Flag From Embassy

Paris, Oct. 19.—Threats to tear down the American flag over the American embassy here are contained in many letters which have been received at the embassy in the last few days protesting against the conviction in the United States of Nicolo Sacco and Barolomeo Vanzetti, two Italians, for the murder of Frederick A. Parmenter, paymaster of a shoe manufacturing establishment at Braintree, Mass. In all, between 300 and 400 letters of protest have been received, at the rate of more than 100 a day.
The police and the French government departments have initiated precautionary measures. A pamphlet attacking American

The Farmer Today Is a Business Man

HE does not run his farm in the haphazard fashion he did ten years ago. It's his business. He figures his costs and profits.

He knows, of course, what he gets out of the productive acres of his farm—and how much he is paying out in taxes on the idle unproductive stump and swamp land that brings in nothing.

That is Why He is Clearing More Land Every Year
It's just good business. Every acre cleared and planted means more profit every year. The clearing cost is usually more than covered by the first crop.

More land is being cleared, too, because of the manufacture of dynamite for this purpose, which makes the work easier, quicker and more economical.

Take an Inventory of Your Land
How much is productive? How much idle? Then see our local dealer and plan how much dynamite you need for this season. He will help you—and will furnish you with reliable, efficient and economical explosives, now in greatest demand throughout this section—

Dallas Council Starts Work On Budget Tangle

Dallas, Oct. 19.—The council met at the chambers on Monday evening at 7:30 o'clock, at which time the nine citizens chosen by the mayor to assist with the budget meeting, as follows, were present: W. B. Williams, H. A. Joslin, C. W. Blyden, Conrad Staffin, August Riser, Walter Ballantyne, Eugene Hayter, Joe Craven and J. R. Craven.
After a discussion as to the method of procedure, Joe Craven, Walter Ballantyne and H. A. Joslin were chosen from the nine to assist the finance committee of the council to go into the records for the past three years and compile a budget according to the provisions
