

# CHARLES' COUP ENDS IN PRISON

### Former Emperor Tries to End Life by Shooting Following Capture Yesterday

Budapest, Oct. 25.—Former Emperor Charles, whose attempt to re-establish himself upon the Magyar throne met with dismal failure yesterday, attempted to commit suicide by shooting, following his arrest near Komorn. Former Empress Zita saw him preparing to shoot himself and prevented him from carrying out his intention, the former emperor and empress are prisoners in the Esterhazy castle at Tata Tovaros, and Thomas Beaumont Hohler, British high commissioner in Hungary, is busy there, with the representatives of other nations, to insure the safety of the prisoners. Orders sent to the rebellious troops by Admiral Horthy, the

Hungarian regent, spelled the doom of Charles' attempt to regain at least a part of his former empire. The regent reminded the soldiers of their oath of allegiance to him and demanded their unconditional obedience, adding that the success of their undertaking would mean the ruin of the country. The firm stand of Admiral Horthy had its effect, and the royalist forces scattered. Latest advices from the section of country around Komorn indicated the government troops continued the pursuit of the royalists and that the Karlist premier, M. Rakovsky and Count Andrássy, were among the supporters of the former monarch, captured by the loyal troops. The Hungarian government will probably await action by the allied powers regarding Charles' future place of residence. It is known that Switzerland will not again give him refuge and it is possible that he will be removed to some place where he will be virtually a prisoner of the allied powers.

The followers of the former emperor are reported to have lost half their number in attempting to retreat from Bleske to Tata Eovaros. Peasant cut off their retreat toward the south.

Capture of Gustav Gratz, former minister of foreign affairs, who was involved in the monarchist, is reported.

# DRYS FEAR RESULT OF BEER EDICT

### Permission For Use of Liquors for Medicinal Purposes Decried by Prohibitionists

Washington, Oct. 25.—Beer as a medicine enjoys a full legal status today, through the unexpected action of the treasury department in promulgating regulations permitting its use for that purpose. Issued in accordance with an opinion submitted by former Attorney General Palmer last March, holding the medicinal use of beer to be legal under the prohibition laws, and after being withheld since then, in anticipation of early action by congress on the pending anti-beer measure, announcement of the beer regulations came as a complete surprise to prohibition leaders.

Reaction Predicted. Predicting an immediate reaction to the treasury's announcement in the direction of increased

pressure to effect enactment of the anti-beer bill, dry advocates in and out of congress did not conceal their disapproval of the department's action. Wayne B. Wheeler, general counsel for the Anti-Saloon league, described it as "less defensible than at any other time."

While the new rules, covering the use of wine and spirituous liquors as medicines, as well as beer, fix a limit of 2 1/2 gallons, the equivalent of a case, on the amount of beer that may be prescribed to the same person at one time, no arbitrary limit is placed on the number of prescriptions one person may obtain within a given period.

Except that the amount for a single prescription is limited to two quarts, the wine regulations are the same, while spirituous liquors are limited to one pint within any ten-day period.

Demand to Be Small. St. Louis, Mo., Oct. 25.—That the new regulations which place no limit on the number of prescriptions for beer a doctor may issue would not cause a large demand, was the consensus of opinion among several representative St. Louis brewers last night. They expressed doubt that the new ruling would cause the resumption of brewing in large quantities.
