

CARD INDEX HEALTH OF SCHOLARS

Pennsylvania Schools To Keep Records of All Students Through New System

Beaver, Pa., Nov. 3.—"Johnny, come forward, please." "Your coat off. Step on the scales—eighty pounds. Chest, twenty-nine inches." And so on. This scene will be repeated in every third and fourth class school district, with every teacher of every room of every school in Philadelphia assuming the role of examiner, within the next few weeks, where examination has not in fact already been made. Next September the same drama will be enacted, and so on.

Pennsylvania has new medical inspection rules. The teacher begins, the physician ends it all, except filing the health cards away. School authorities must do this. Instructions to the teacher read that at the opening of the school term she must ascertain the age of each pupil under her care—the grade, weight, height, "and so forth." "And so forth" means cursory examination. After "and so forth" comes the doctor, who examines the pupil like an army doctor examines a recruit, or nearly so. If there is anything wrong with the pupil's teeth the trouble is noted. If the pupil's eyes are not normal this fact is noted. If the pupil's toes point in too many different directions the doctor sets it down on the health card. If speech is carried on with exceeding difficulty this is noted. If any organ is affected in any particular the organ is described upon the card. After the doctor has a pretty fair index to the physical capabilities of the subject treatment is advised, unless no treatment is considered necessary. There is a column for results to be noted. Over on the other side of the card are other blanks. They show what the pupil's record is in regular school work. Finally comparison is made after a time of the effect of proper physical development upon mental development. The aim is to build up the child's physical body and mental equipment by thoroughly modern methods.

All Secretaries of Commercial Clubs To Meet

Portland, Or., Nov. 3.—The annual meeting of the State Association of Commercial Club Secretaries will be held in the rooms of the Oregon State Chamber of Commerce, November 7. It is announced. Many secretaries of commercial organizations will attend the Pacific International Livestock exposition, to be in progress at that time and a large attendance is expected at the meeting. W. A. Reid, secretary of the Corvallis commercial club, is president of the association and L. Antles, secretary of the Bend commercial club, secretary.

Dallas Budget Calls For Levy To Get \$15,750

Dallas, Or., Nov. 3.—The committee for the preparation of the budget in compliance with the legislative act of 121 has completed its labor, after more than three weeks of work. The committee was comprised of nine citizens and the city council. The city charter provides that but eleven mills can be raised on the taxable property of the city, so the full amount to be raised by taxation next year is \$12,100. The various funds for which the estimated amount for the expenditure for the ensuing year are as follows:

Auditor and police judge	\$ 950.00
Treasurer	335.00
Attorney	700.00
Engineer	150.00
Outstanding warrants	3000.00
Marshal	1233.00
City hall	85.17
City park	250.00
City library	3005.00
City water	150.00
Fire department	750.00
City streets	1000.00
City sewer	350.00
Incidental—emergency	1763.33

In addition to the above amount \$2000 will be raised to dispose of bonds voted on by the people and \$1650, which is one and one-half mill levy for library purposes. The total amount of money to be collected from the taxpayers to meet the needs of the city is \$15,750, while the estimates of receipts for 1932 are \$1602. The budget is made in compliance with the law and will be extended on the assessment rolls. The council has been anxious to do many things in the way of improving the conditions of the city, but the money is not available and the improvements cannot be made. It was hoped to do some more street work in the ensuing year and to lay a system of sewage in the south and west part of town, but from all indications nothing can be done. The fire department is anxious to have a hose truck and chemical wagon purchased, but the only way the same can be procured will be by a vote of the people, and it is contemplated that a measure will be put on in the ballot in May next year.

H. H. Pomeroy, special arson investigator for the state marshal's department, will investigate mysterious fires that have occurred recently in the vicinity of La Grande.

Bonus Test Case Appeal Filed

Notice of appeal in the case of Thomas H. Boyd vs. Governor Olcott and members of the state bonus commission, involving the constitutionality of the state bonus law, was filed with the supreme court Wednesday. The case went out of the lower court on a demurrer. The suit is a friendly one in an effort to secure a court opinion on the constitutionality of the act. It is expected that briefs in the case will be filed within a few days and the case advanced for early action.

Hoover Summons Committeemen To Conference Friday

Washington, Nov. 3.—Call for the first meeting of the standing committee of the national conference on unemployment in New York Friday has been set out by Secretary Hoover. It was announced last night by Edward Lyre Hunt, secretary of the conference.

The Douglas county land products show, which was to have been held at Roseburg, October 24 and 25, has been canceled, owing to conflicting interests.

Kusers Accept Offers To Head Training School

In a telegram received by the state board of control here Mr. and Mrs. W. L. Kuser of Eldora, Iowa, announce their acceptance of the offer of the appointments as superintendent and matron, respectively of the state training school for boys here. The offer was tendered to Mr. and Mrs. Kuser at the time of their visit here three weeks ago and carries with it a combined salary of \$5000 a year and "keep." They are to take charge of the institution January 1, succeeding Mr. and Mrs. L. M. Gilbert, and will have charge of the erection of the new institution for which the last legislature made an appropriation of \$230,000.

Polk County Men Are Convicted On Liquor Charges

Dallas, Nov. 3.—Three Polk county men were arrested and fined for moonshining operations at Hood River. Jesse Davis, Joe Swearingen and B. Fox were the victims, and they were each fined \$250, and although the telegram advised did not so state, it is inferred that they paid the fines.

All three men are well known. B. Fox is but a comparatively young boy, the son of Jesse Fox of Independence, who recently served a term in the county jail and was pardoned by the governor as to the fine assessed against him. The three men arrested are young. None of them, so far as known, have been previously accused of moonshining. Fox is but about 18 and the other men are far more mature. Davis was in trouble recently because of drinking, but it was supposed that he bought the stuff. According to the Hood River advices the liquor put out by the men was rank poison, almost causing the death of two men. They were arrested upon information furnished by a couple of minors who were furnished with liquor.

At a meeting of the parents' association in Bend last week 48 out of 60 voted to take their children from high school until existing troubles are settled.

Due to the recent rains the fire dangers is over for the year in the Crater Lake national forest and all lookouts and fire fighters have been discharged.

Free Delivery of Mail Starts

Dallas, Nov. 3.—Free mail delivery began in Dallas Tuesday morning without attracting more than passing attention.

At 8:45 two carriers left the local post office with light loads of first class mail. The lightness of the loads was due, to a great extent, to the fact that few of the patrons of the office have yet signed the necessary request to have their mail delivered. Others had given wrong numbers. All these difficulties will be straightened out in time, and a large proportion of the mail received will be taken up by the carriers.

W. P. Miller and Lester George were the carriers. Ed Shaw was offered the place taken by Lester George, having passed highest at the civil service examination, but concluded that he could not physically stand the work. Mr. George stood second highest and accepted the place. Mr. Miller is well known, having been a substitute clerk in the local post office.

Collection boxes were ordered some months ago, and the institution of free delivery was delayed for their arrival. As the boxes did not come Postmaster Fluke asked for and received permission to begin the delivery without further delay.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them. Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath. Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

How an EXPECTANT MOTHER Prepared for Baby's Coming

Do YOU know that thousands of women never really suffer at child-birth? Perhaps you have thought with many others that this should always be the case. But how?

Let Mrs. Mattie Paul, of Ocilla, Ga., tell you. She is one of thousands who has demonstrated this fact:

"As I am a young mother of one baby, I am writing for free booklet to 'expectant mothers.' I used only two bottles of Mother's Friend before I was confined, and had a quick and easy time through labor. I can recommend Mother's Friend to all expectant mothers. I will never go through pregnancy without it."

You, too, can have this booklet for expectant mothers by sending coupon below.

WARNING: Avoid using plain oil, grease and substitutes—they act only on the skin and may cause harm without doing good.

BRADFIELD REGULATOR CO. Dept. 20, Atlanta, Ga. Please send me without cost a copy of your booklet on MOTHERHOOD and THE BABY. Name: _____ St., R. F. D. _____ Town: _____ State: _____

Kansas City Is Building To Beat Greedy Landlords

Kansas City, Nov. 3.—Kansas City is building to beat the landlord profiteers. This fact was made evident by a report recently issued by the American Contractors' Association, which shows Kansas City spent 220 per cent more in building during September, this year, than the same month in 1930. Kansas City leads all other Midwestern cities in building activities. Wichita has gained 110 per cent over last year and Omaha 50 per cent.

According to statistics compiled by the association mentioned previously the building in Kansas City during September amounted to \$1,865,850. During the month last year \$582,300 was spent.

Wireless Phone Is Used by Cops

Toledo, Ohio, Nov. 3.—A new method for using wireless phones has been adopted by the Toledo police department. Immediately upon receipt at the central police station urgent complaints will be communicated through the wireless apparatus to the occupants of the five police speed cars which are patrolling the city. The car nearest the source of the complaint will respond.

Each of the speed cars contains three plain clothes officers, one of the officials wearing a wireless receiver.
