

### Jap Demands May Hold Up Arms Action

Washington, Nov. 3.—Indication by the Japanese delegates to the arms conference that they desire to discuss limitation of armament prior to Far Eastern and Pacific questions brought forward today the possibility of difficulties that might delay negotiations.

While no certain attitude of the American delegates has been made known, it is understood they have largely confined their conferences to the arms limitation problem and are preparing to take the initiative in the conference and make a substantial offer to both governments looking to a reduction of naval programs.

The desire of priority for arms limitation on the part of the Japanese delegates became known soon after the arrival yesterday of Prince I. Tokugawa and Admiral T. Kato, who, with Ambassador Shidehara, will be the principal Japanese delegates, and their advisers in Washington after a trip across the continent. Prince Tokugawa told the Associated Press correspondent that he would devote himself to the "cause of removing any misunderstandings that may exist between our governments," adding that "they should know each other better and cooperate."

### California Oil Field Strikers Vote To Return

Washington, Nov. 3.—Southern California oil workers who have been on strike for several weeks have voted practically unanimously to accept recommendations of their district council for a return to work. Secretary of Labor Davis was informed today in a telegram from W. J. Yarrow, president of the council.

### Five Killed In Jerusalem Riot; 13 Hurt

Jerusalem, Nov. 3.—Five persons were killed and thirteen others were wounded in disorders today which included the throwing of a bomb. The trouble, the police report, originated in an attempted attack by Arab rioters on the Jewish quarter.

Of the killed, four were Jews and one an Arab.

There were a few cases of knifing and shots were exchanged between the factions.

The police frustrated an Arab attack. Later, while troops patrolled the city, the governor with the officer commanding the troops and the principal Moslem notables walked through the streets and restored order.

### Student Loan Fund Not To Be Enlarged

Word has been received by Dean George Alden of Willamette university that the Methodist board of education will not be able to allow Willamette more than \$3000 for loans to her students for this year. Dean Alden had applied for more by reason of the fact that 47 students have applied for a total of over \$6100. Inability to have Willamette's allowance increased makes it necessary for Dean Alden to reduce each applicant's allowance to a little less than one-half that requested, thus causing the students to suffer the shortage proportionately.

### Ship Afire at Sea.

Halifax, N. S., Nov. 3.—A large vessel, the identity of which is unknown, is afire four hundred miles southeast of Halifax, according to a wireless message received today by the Canadian naval department from the British oil tanker Saxoleine.

### Rainfall In October Is 4.69 Inches

Exclusive of the corresponding month of last year, when 5.91 inches of rain fell, the month of October just passed was the wettest in Salem in the past ten years. The report of Harvey McClain, weather observer, shows that 4.69 inches of rain fell here last month.

The most rain to fall in a single day was on October 26, when the official gauge showed 1.26 inches. Rain fell on 14 days during the month, 10 days were clear, 3 partly cloudy and 18 cloudy.

October 7, with a maximum temperature of 84, was the warmest day in the month, while October 1, when the mercury dropped to 36, was the coldest.

The temperatures and rainfall for each day was as follows:

	Max.	Min.	Rain fall.
1	75	36	.00
2	82	37	.00
3	79	29	Tr.
4	74	39	.00
5	73	41	.00

**Grapes Bring \$150 a Ton.**  
Penn Yan, N. Y., Nov. 3.—The Lake Kouka grape crop was several weeks earlier than usual this year. Favorable grape weather made this possible. The farmers are happy. They have contracted their grape crop this year at \$150 per ton. This is the best price ever received. A few years ago these same farmers were "doing well" when the crop was marketed at \$20 to \$30 a ton.

### Salem Bank Installs Burglar Alarm System

Due to the fact that many banks have been successfully held up in broad daylight or stealthily burglarized during the night, the Salem Bank of Commerce has just completed installation of a burglar alarm system which will prevent any attempts of such nature.

The door of the bank's vault is lined with sheet metal so that any attempt by robbers to burn through will immediately close the circuit and cause the alarm to ring. The bell cabinets on both the outside of the building and the vault inside the banking chambers are so sensitized that the merest touch will ring the alarm. Push buttons have been placed all through the banking rooms so that the alarm can be set off by any of the employees in case of a daylight holdup. In case an employe should be caught alone and locked in the vault a button there will enable him to ring the alarm.

The really unique feature of the system which is known as the Locking Alarm system, manufactured by the Palmer Magnetic Lock company, is that if the combination of the vault lock is destroyed, an emergency lock will release the bolts of the vault within six hours.

NAME ROAD FOR "JOHN D."  
Freeville, N. Y., Nov. 3.—"Rockefeller Highway," in honor of John D. Rockefeller, oil king, is the name given a public highway extending along the scenic Finger Lakes Trail by representatives of 23 communities at a meeting here of the Finger Lakes association. The road extended 50 miles, from Auburn to Ithaca. It passes the boyhood home of John D. in the village of Moravia.
