

# GILBERT HELD NOT CAPABLE

(Continued from Page One.)

ability, criticism to the contrary notwithstanding. In us reposes the trust and it is our duty to carry it out. We will carry it out, and with the courage of convictions we know to be absolutely right, do our duty by the state. What increased salary may be included in securing someone competent and fitted and qualified for the position is considered purely as an investment. It would be folly to balk at a few thousands of dollars when one considers that nearly \$300,000 is involved in the initial investment alone. With the experience we have had at the present school under the present management; the constant delinquencies that have attended such management, delinquencies admitted more than once by Mr. Hoff, the state treasurer, himself, satisfies us beyond any quibble that, if we are to secure results, we must get the man and woman qualified. To secure such services adequate compensation not only is necessary, but right and just.

### Politics Held Absurd.

"We secured Oregon for proper material, before going ahead. Only executives of experience and training in this kind of work could meet with our approval. They are not here, or if so are not available. Even the present superintendent never had such training or experience before coming to Oregon. He has taught in training schools, but has had no experience as an executive head, and his work demonstrates the futility of experimenting with such material.

"Before concluding, we wish to say that the successful movement for this school originated in the executive office and through the constant efforts of that office the appropriation was secured. The governor feels responsible to a great degree for what was accomplished and is consequently deeply concerned over the results. He can have nothing but the most sincere interest in seeing the movement made successful.

"The people who will head the new school have been selected for their qualifications alone. They are practically unacquainted in this state and it is absurd to believe that any political significance could attach to the selection.

### Qualifications Ruled.

"In further justice to Mr. and Mrs. Kuser we wish to say they are not job seekers, or job holders. They are high grade people, with their hearts in their work and agreed to come to Oregon only after the most earnest solicitation on our part. They are making many sacrifices to come here, sacrificing pain and removing the cause, which entail the rooting out of friendships and associations of many years and are inspired by

### Horsewhips Man; Says he insulted Her

Miss Ruby Boydston

Miss Ruby Boydston, a Tulsa, Okla., beauty, who administered a horsewhipping to A. S. Stiegel, a dancing-master, because of an alleged remark he had made in public about the young lady, who at one time was one of his assistants. While a friend of the young lady plied the arms of the dancing-master she administered the lashing with a three-foot whip.

the thought that here they have an opportunity to start an entirely new school upon an entirely new basis, and they will be unhampered and untrammelled in their work by us. We desire only that they give us the best they have in them and are certain they will.

"Other states have, in many instances, sought the man regardless of his residence and their experience has justified the means. We went outside of the state for qualifications, and nothing else. We are willing to stand upon our action, confident beyond a doubt, that, having full faith in the good sense and judgment of the people of Oregon, the results will justify our action. In the final analysis it will redound to the everlasting credit of the state.

"To give anything but the best we have in us would justify subject us to harsh censure. We know we are following the right course in this matter. As long as we are right in the premises, we care not for unjust criticism, whether innocent, but misguidedly given, or whether coming from sources inspired only by venom and a desire to destroy."

Rubbed into the skin for rheumatism, neuralgia, contracted muscles, sprains or lameness. Ballard's Snow Liniment goes right through the flesh to the bone, easing pain and removing the cause. It is a powerful pain relief. Three out of friendships and associations of many years and are inspired by

### Bohler Taking Seventeen Men To Walla Walla

Seventeen Bearcats, accompanied by Coach Bohler and Manager McKittrick will leave Salem at 2 o'clock this afternoon for Walla Walla, where they will meet the Whitman college football aggregation Friday afternoon.

Little hope is seen by Bohler or any of the players of defeating the powerful Missionary eleven, and they will be content if they can hold the northerners to a small score. The advantage of weight and experience will be all with Whitman.

The absence of Bain, regular center, whose knee was badly injured in scrimmage against the high school team yesterday, from the lineup will seriously cripple the Bearcats. Bohler announced the lineup for the game this morning as follows:

Hill and Richards, ends; Lawson and Rarey, tackles; Ramsey and Moody, guards; White, center; Iahm, quarter; Zeller and Patton, halves; Sociolofsky, fullback.

The substitute players who will make the trip are Cramer, Caughlan, Michaelson, Carey, Baggett and Dunette.

### Grace Lusk Leaves Prison To Undergo Medical Treatment

Madison, Wis., Nov. 10.—Grace A. Lusk, Waukesha, school teacher, serving 19 years in prison for the murder of Mrs. David Roberts in 1917 as the climax of her love affair with her victim's husband, was granted a temporary release from the state penitentiary today by Governor Blaine.

She will leave the prison as soon as arrangements can be made to receive surgical treatment which the governor says is necessary to save her life. Action on her application for a pardon will be deferred until the result of the treatment is known, Governor Blaine declared.

### Husband's Story Will Amaze Salem

He says: "Adier-i-ka helped my wife for gas on the stomach and sour stomach in TWENTY MINUTES. It works beyond greatest expectations." Adier-i-ka acts on BOTH upper and lower bowel removing foul matter which poisoned stomach. Brings out all gasses and sour, decaying food. EXCELLENT for chronic constipation. Guards against appendicitis. Adier-i-ka removes matter you never thought was in your system and which may have been poisoning you for months. J. C. Perry, druggist, 115 C. Commercial street (adv)

### Smith Is Host at New Billiard Rooms Opening Evening

Formal opening of Salem's newest and "most brilliant lighted" billiard rooms, located immediately above Smith's cigar store at the corner of State and Commercial streets was staged by I. R. Smith, the proprietor, at 6 o'clock last evening. Salem cue artists are invited to inspect the new quarters.

Every effort to provide for the comfort of billiardists has been made by Mr. Smith. The new quarters, visitors claim, will compare favorably with the better establishments of their kind in much larger cities.

Exceptionally good light has been obtained for the rooms through the installation of a number of large windows.

A lounging room, where periodicals will await the passerby, has been installed in one end of the hall. Five pocket billiard tables and a "snooker" table have already been placed in position.

### Allies Demand Withdrawal of Jugo-Slav Force

Paris, Nov. 10.—The allied council of ambassadors sent to Belgrade today a note demanding the immediate withdrawal of the invading Jugo-Slav troops from Albanian territory. The troops must be withdrawn outside the limits recently defined by the ambassadors' council as the Albanian boundary line.

Meanwhile the executive council of the league of nations has been summoned to meet in Paris November 18 to consider the invasion.

### Call Portraits Royal Academy Legion of Sloven

London, Nov. 10.—Criticism of this year's paintings in the Royal Academy comes from the Tailor and Cutter, the organ of the London and provincial tailors, which remarks that "the portraits of the academy present a legion of sloven."

"My lady's dress, whether of silk or the modern wool jumper, is," it says, "beautifully painted, but as to the dress of the men, some look like 'reach me downs' from Bond street, while others are like East End bargains, while much of the attire would be smiled at by a scarecrow."

Of a group called "Sea Officers of the War," the critic remarks: "If naval tailors really turned out such clothes there would be torrents of breezy and expressive language."

Other criticisms include: Field Marshal Earl Haig's gray cloak. "Really the war was not won with such clothes."

Sir W. McCormack's lounge suit "The trousers are like sacks, and the bottom of the right trousers leg is as big as a bluejacket's."

Sir Rider Haggard has been given "an awful overcoat, so baggy, hanging in such ugly, pendulous folds that it looks like a gown."

Rear Admiral Sir Douglas Brownrigg, chief censor in the war. "This portrait needs a clothes censor."

Lungs in a perfectly healthy state are very rare, according to the curator of a Parisian medical institute.

### Curfew Used to Suppress Robberies

Harrisburg, Ill., Nov. 10.—When the curfew bell tolls off the midnight hour in Harrisburg the sand man is on the job and everything is dead silent.

Any person on the street at that hour is questioned by the police and any suspicious character is taken to headquarters. The order was put into effect to check robberies and hold ups and is proving a success, police say.

**THE MYSTERY CAR**

Be prepared for one of the biggest surprises that has been made in Automobile circles this year.

A new model of a well known make will make its appearance on the streets of Salem, November 15.

Hundred of Salem owners drive previous models of this car.

It is sold by one of the leading automobile firms in Salem

**Price \$1060** F. O. B. SALEM

**NOV. 15 NOV. 15**

**KEEP WARM WITH COKE**  
WHAT IS IT?

It consists principally of the carbon content or portion of coal.

It is made by backing or roasting coal in silica clay ovens that are heated to 2,500 degrees.

This high temperature drives out of the coal all of the oils and greases that make coal so dirty and disagreeable to handle.

These oils are vaporized as they come out of the coal, and form the gas which is pumped out of the ovens, cleaned, purified and sent out to your homes through pipes.
