

\$215,500 BONDS TO BE SOLD

Industrial Accident Fund to Replenish Depleted Coeffers—Best Offers Taken

A list of bonds held by the industrial accident fund aggregating \$215,500 has been listed by State Treasurer Hoff for sale on December 28 for the purpose of replenishing the depleted fund. James W. Crawford, deputy state treasurer, explains however that not all the bonds offered will be sold on this date, only those for which the best bids are received being disposed of.

The announcement of the bond sale follows receipt of an opinion from the attorney general holding that authority for investment of the industrial accident funds and sale of bonds held by this fund, lies in the hands of the state treasurer.

It is expected that the state bond commission will soon offer for sale some bonds held by the rehabilitation fund of the state industrial accident commission which fund is also depleted of ready cash. Some doubt as to the authority for the sale of these bonds still exists and it is probable that a definite opinion covering this point will be sought from the attorney general before any action is taken.

The list of bonds offered for sale from the industrial accident fund follows:

Chinese Given Pledge of Aid by All Powers

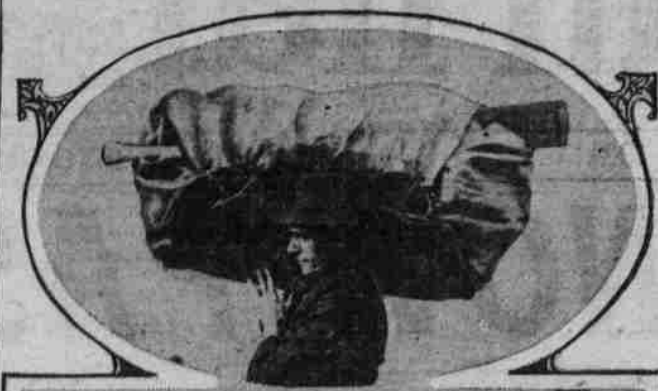

Washington, Nov. 22.—(By Associated Press.)—With the Far Eastern negotiations advanced to the stage of an agreement on general principles by the powers declaring their intention to respect the administrative as well as the territorial integrity of China, the Washington conference was prepared to resume discussion on that basis today at a further executive session.

As proposed by Elihu Root of the American delegation, and adopted by all the nations after two hours of debate in executive session yesterday, the declaratory resolution, constituting the first definite agreement of the conference, commits the powers also to a policy of providing fullest opportunity for development of a stable government in China and at the same time refraining from seeking special rights and privileges that would abridge the rights of other nations.

While not providing for settlement of any of the specific problems confronting China, the declaration touches in general terms most of the principles for which China asked in her "bill of rights" and its adoption was manifestly gratifying to her spokesmen here.

COLLAPSIBLE BOAT CARRIES FOUR PASSENGERS IN TEST

A collapsible boat, which Sir Curtis Lampson, noted English explorer, is taking on his new expedition to Africa was tested recently in the canal at Camberwell, England. The little boat, which can easily be carried by one man, held four average sized men during the test. The photos show the boat as folded and carried on the march and the four men in the boat during the test.

Widow Of Empire Builder Is Called

St. Paul, Minn., Nov. 22.—Mrs. James J. Hill, widow of the late James J. Hill, president of the Great Northern railway, died at her home here this morning following a long illness. She was 75 years old and had been in failing health since the death of her husband in May, 1916. She will be buried beside her husband on the Hill estate's North Oaks farm, just north of St. Paul. Born in New York city in 1846, Mrs. Hill came to St. Paul in 1864 and after completing her education in a convent at Milwaukee was married to Mr. Hill here in 1867. Mrs. Hill is survived by six daughters and three sons. They are: Mrs. Samuel Hill of Washington, D. C., and Seattle; Mrs. Anson McCook Beard, Mrs. Michael Gavin and Mrs. George T. Slade of New York city; Mrs. E. C. Lindley and Mrs. Egil Boeckmann of St. Paul, and James N. Hill of New York, and Walter J. and Louis W. Hill of St. Paul.

New Bridge At Molalla Closed

Canby, Or., Nov. 22.—The Molalla river has overflowed its banks and flooded much of the land near Canby. The \$10,000 concrete bridge spanning the Molalla river at this place, which was opened for public travel on Saturday, has been closed. The south approach is in danger of going down, since the ground commenced caving. In the Barlow section the water has reached such a stage in places as to cause a number of the residents to move from their homes. Among those who were compelled to move was the family of William Bany. Mr. Bany remained until Sunday, but the water rose so rapidly that it was necessary for friends to go to his aid with a rowboat and rescue him. A short distance beyond, at Aurora, a number of homes are at the water's edge, and unless the rain ceases these will be under water. Pudding river is doing much damage near the city and is breaking into the lowlands, where it is overflowing its banks. Word was received here Monday of the flooded condition of the Adkins Mill section. The home of Charles Khloe, located near Milk creek, was under water. The family escaped. Several small slides occurred on the Pacific highway between this city and Oregon City. Lola Fredenburg, daughter of J. O. Fredenburg of Wallowa, while witnessing a football game, was run into by the players and suffered a broken leg.

Italy Willing To Reduce Army

Washington, Nov. 22.—(By Associated Press.)—Italy has no fear of any of her European neighbors and her sole desire is to have the feelings aroused by the war subside and give way to the spirit of peace, an official spokesman of the Italian delegation to the arms conference said today. He declared that Italy had not even awaited the call for this conference to begin the reduction of her great army which now has been brought down to less than 200,000 men. However, the period of military service which before the war was 2 1/2 years already had been substantially reduced, it was explained, and probably would be cut to eight months. There was no disposition on the part of Italy, it was added, to question the right of France to maintain a large army, inasmuch as she occupies a peculiar position.
